REGISTRATION NOTICE
for Annual Township Election
Monday, April 1, 1940

To the Qualified Electors of the Township of Tecumseh, County of Lenawee, State of Michigan.

Notice is hereby given that in conformity with the "Michigan Election Law," I, the undersigned Township Clerk will upon any day except Sunday and a legal holiday, the day of any regular or special election or primary election, receive for registration the name of each legal voter in said Township not already registered who may Apply To Me Personally for such registration. Provided, however, that I can receive no names for registration during the time intervening between the Second Saturday before any regular, special, or official primary election and the day of such election.

The State is hereby given that I will be at my office in the Bidwell Block

The name of no person but an Actual Resident of the Precinct at the time of said registration, and entitled under the Constitution, if remaining such resident, to vote at the next election, shall be entered in the registration book.

Notice—Absent Voter Must Be Registered

Although 2774, Laws Relating to Elections, Revision of 1939, still provides that an absent voter may apply for registration at time of applying for ballot, and gives form of Affidavit he should make. Act 63 of P. A. 1939 stipulates that in absent voter's application for ballots he must state that he is a "duly qualified AND REGISTERED elector."

Opinion of the Attorney General is that Acts 86 and 63 "must be construed to repeal the inconsistent provision of Sec. 2774 permitting absentee registration AT THE TIME of making application for an absent voter's ballot."

Thus the Absent Voter's application and affidavit for registration are useful only in cases where voter may mail same in, then make application for ballots later after registry has been completed.

The portion of application enclosed in brackets should be crossed out when applying for registration.

HAYDEN HI-LITES

PUBLISHED BY HAYDEN FLOUR MILLS, INC., MARCH 21, 1940.

JOHN JASPER? BRITTON FARMER LIKES "1900"

When a man exchanges 25 bushels of wheat at our mill for "1900" Flour that means a lot of flour. And that means a lot of free dishes for his wife. But it means still more, especially if it is his 7th time at the mill in less than 3 years. It means they must like the flour a lot. Well, that's what John Jasper of Britton did last week. The roster of farmers last week who exchanged wheat for flour at Tecumseh looks like a congress of farmers from Southern Michigan, so varied are their addresses. The 10 biggest exchanges were:

1st—John Jasper, Britton.
2nd—Art Weidmayer, Saline.
3rd—Mike Rothfuss, Clinton.
4th—Edwin Klager, Bridgewater.
5th—Ernest Spohr, Britton.
6th—Ario Dysinger, Dundee.
7th—Gus Laier, Chelsea.
8th—W. H. Phillips, Tecumseh.
9th—Harry Mumaw, Adrian.
10th—E. M. McConnell, Tecumseh, who tied with H. P. Lehman, Manchester.

4TH POULTRY ASS'N. MTG. TUES. OF NEXT WEEK

These meetings have been well attended, and Fred Sheldon, Pres. of the Tecumseh Poultry Ass'n., feels that they have been worthwhile. Thanks due to Geo. Parsons and the High School, as well as County Agt. Hall.

DOWNTOWN FIRE LOSS IS HEAVY

DAMAGE TO McCOY AND BRAUN BUILDINGS AND FURNISHINGS IN THOUSANDS

Fire, the origin of which has not yet been determined, at 4 o'clock last Saturday morning did damage estimated at more than $5,500 to the contents and buildings owned by R. J. McCoy and E. M. Braun on East Chicago Boulevard. The McCoy building was occupied by the Mutual Investment Company, the Braun building by the Grace Evangelical church on the first floor and the residence of the Rev. and Mrs. Roland Scheele on the second floor.

The fire was discovered by the Rev. Mr. Scheele when he smelled smoke in his apartment and began an investigation. The blaze apparently started in the basement of the McCoy building, which joins the Braun building on the east, and spread through partitions into the second floor above the church auditorium. Roofs were burned from both buildings and the McCoy building was gutted by the flames, as was the Scheele apartment. Damage in the church auditorium, on the first floor is confined mostly to water.

The two-above zero temperature hampered the firemen considerably in bringing the blaze under control, and it was not until nearly 9 o'clock that the fire trucks returned to the engine house.

The fire spread so rapidly that it was impossible to remove the furnishings from the McCoy building of one story, and only a part of the kitchen and bedroom furniture were taken from the pastor's apartment.

The cause of the fire is not known. The furnace in the basement of the McCoy building was in good condition after the fire had been extinguished, and was filled with coal. Pipes leading from the furnace were intact. Some believe that defective wiring may have caused the blaze.

Repairs to the McCoy building were started on Monday of this week and Mr. McCoy expects to reopen his offices there on Saturday, occupying one room of the buildings. Other repairs will be made as quickly as possible. He estimated his loss at $1,200. It is covered by insurance.

Ellsworth Collins, funeral director, also occupied an office in the McCoy building and stored some of his equipment there. Mr. Collins said today that his loss as the result of the fire was slight, probably less than $100. Most of his equipment came through the blaze undamaged, he declared.

Mr. Scheele estimated that his loss would be around the $2,000 mark, covered by insurance. He did not estimate the loss to the church furnishings.

The damage to the Braun building is heavy, but it has not been estimated by the owner. It is believed, however, that it will amount to $2,500 or more. Repairs on this structure have not yet been started.

The Scheeles have moved into the Mrs. Charles Bennett house on East Pottawatamie street, and it was announced that temporarily, church services would be held in the basement of the Clarence Wagner home on North Ottawa street. The church recently purchased a piece of property on North Maumee street, looking forward to a new edifice in the future.

DOCTOR TO GIVE TALK ON RABIES

SPECIAL PROGRAM, OPEN TO THE PUBLIC, TO BE HELD ON MONDAY

Dr. Herbert Emerson, director of the Pasteur Institute of the University of Michigan, will address a public special meeting of the Tecumseh Monday Club, next Monday evening at the high school auditorium. Dr. Emerson, a specialist of national reputation, will discuss rabies, explaining the cause and treatment. He is being brought to Tecumseh by Dr. William Britton. The program beginning at 8 o'clock, also will include several selections by the high school band.

Because of the prevalance of rabies throughout the state, it is expected that the program will attract a large attendance, Mrs. Jenny C. Law Hardy, chairman of the meeting, believes. Several other clubs, including the Rotary club, have been invited to attend as the Monday Club's guests. The meeting also is open to the public.

An interesting article in Hygeia, medical magazine, by W. E. Auchinbaugh, says in part about rabies:

"Rabies undoubtedly had its origin on the shores of the Mediterranean, and it was common in Egypt 1500-1000 B. C. It was always fatal, once developed. It is an acute infectious disease, common among wolves, dogs and men. Bitten animals, unless killed, die in great agony.

"It is definitely established that the germs enter the body only through an abrasure or puncture in the skin; usually a dog bite. Children are the most frequent sufferers. Canada, Great Britain, Australia and New Zealand have stamped out rabies, as they quarantine all dogs.

"If a person is bitten by a dog, no matter how small the wound, a physician should be immediately consulted, as the period of incubation may run from seven weeks to six months. Few patients live more than five or six days, after symptoms appear.

"Michigan had 4,062 victims in 1938, most of those bitten, living in Detroit.

"Before Pasteur's discovery, the method of treatment was to take the sufferer to the black smith, who cauterized the wound with a red hot iron."

"Rabies can be eliminated from this country, if the public will cooperate with health authorities, but at present it is prevalent in every state of the union."

Fire of unknown origin completely destroyed a building 24x100 feet and 8,000 turkey egg at the farm of Mr. and Mrs. Paul Clement near Britton, early Sunday. Mrs. Clement discovered the fire soon after 5 o'clock.

The Britton fire department was called but the fire was beyond their control and efforts were made to protect adjacent buildings. The turkey eggs, some to have hatched this week, and all the equipment were a total loss.

PROCLAMATION

Army Day, which will occur this year on Saturday, April 6, will be observed generally on Friday, April 5, in order to permit more people to participate in the patriotic testimony to our Country and its defenders. This will be the thirteenth year of the nation-wide recognition of the part our military forces have played in the upbuilding of our country.

The purpose of the observance is to focus public attention on the United States Army and its activities, to promote an intelligent understanding of the functions of the Army in peace as well as in wartime emergencies, and to consider the problems of our national defense THAT PEACE FOR OUR NATION MAY BE MAINTAINED.

In the hope that we never shall be involved in another war, let us, by the observance of this anniversary, demonstrate our devotion to those who have sacrificed themselves that we may always enjoy the blessings that abound here as in no other land, and resolve that we shall strive to preserve for our posterity those same blessings which we hold so close to our hearts.

Given under my hand and the seal of the City of Tecumseh, Mich., this 20th day of March, Nineteen Hundred and Forty.

KARL M. SCHNEIDER,
Mayor.

EGG MARKETING IS DISCUSSED

FOURTH MEETING OF POULTRY SERIES DRAWS INTERESTED CROWD FROM MANY POINTS

J. M. Moore, extension department specialist of Michigan State College, told an interested group of poultrymen from Michigan and Ohio Tuesday evening at the Tecumseh high school that the Michigan egg law is helping the demand for quality eggs. The meeting, which was the fourth in a series, held under the joint auspices of the county agricultural agent, the agricultural department of the high school, and the Tecumseh Poultry Association, was well attended.

"In eggs and milk you have two of the most protective foods known to man," said Prof. Moore, "And it is just as important that proper care be taken in the handling of eggs as in handling milk."

Mr. Moore told of taking a class of students from M.S.C. to Detroit 11 years ago to study the marketing of eggs. At that time Michigan eggs were worth 20c per dozen on the Detroit market, while Pacific Coast eggs were worth six cents per dozen more, or 26c. He said that this was due to the fact that the Pacific Coast producers were more particular in the feeding, care and handling of their eggs, with the result that although they might be several days older, still they were worth more money to the consumer.

"Eggs deteriorate much faster than we appreciate," said Prof. Moore. He suggested that the body heat be taken from the eggs as soon as they are laid, and that since 75% of the eggs are laid by 1 p. m., that eggs should be gathered during the forenoon. He suggested that producers should gather eggs at 10 a. m., at 1 p. m. and 5 p. m., and that four times a day would be better than three. He pointed out that incubation begins at 68 degrees Fahrenheit and that eggs should be immediately lowered to 60 or lower for best results. He said that eggs should never be put in a case warm, and that dats and fillers acted as insulation to hold the heat of the egg, and that for the same reason wire baskets are better for gathering eggs than galvanized pails.

Prof. Moore said that one nest, of proper size, should be provided for each layer, and that birds should be confined to the house or to a small inclosed yard until after 1 p. m. He said that in rainy weather it was better to confine the birds continuously for cleaner eggs. He stressed the importance of clean litter on the floors, and of placing wire netting to the lower side of the perches. Also that nests should be placed in the darkest part of the house as hens prefer dark nests when laying.

He said that high humidity is as important as low temperature in preserving egg quality, that an egg was 65 per cent water and consequently deteriorated in a dry warm atmosphere.

One very important fact that Mr. Moore brought out was that Canadians eat 367 eggs per person per year, as compared with 263 eggs in this country, and that this was largely due to the fact that Canada has been ahead of us in the matter of eggs on grade.

Of special interest to Tecumseh was the fact that Mr. Moore felt that this territory produced enough eggs to warrant having a government grader in the Adrian county and the rapid growth there since eggs have been bought on official federal grade. He also cited Ottawa county, and said that Lenawee was the third largest poultry county in Michigan. He said that 147,000 Michigan farmers produce an egg crop valued at $26,000,000.

Fred Sheldon, president of the Tecumseh Poultry Association asked Mr. Moore if in his opinion the association should undertake to market eggs on a graded basis and his reply was that it should be undertaken by some private enterprise, due to the overhead expense in getting started.

A THIRTY-HOUR DAY

Channing Pollock has written many great plays. At 58 he is at work on two books, his autobiography and a book on how to attain happiness. He works from seven in the morning until seven in the evening every day in the week. Near the age when the average man is looking forward to retiring, Pollock is working harder than ever.

In a talk recently he said: "All my life I have been looking not for a 30-hour week, but for a 30-hour day!" The men who have built America are men who tried to put 30 hours of achievement into every day! They did not want more hours in which to loaf, but more hours in which to work and create and accomplish wonders!

Edison, Ford, Carnegie, Patterson, Burbank—our leaders have always been great workers. What this country needs is not a 30-hour week but more men with the spirit and determination to pack 30 hours of thinking and working into each day.

No man has ever been able to loaf his way to success. He can't do it now. More work, not less, is still the answer.

He came to us with desperation in his eyes. We agreed that the problem was serious — but not quite so serious as he seemed to think. We loaned him the money and he's paying it back in small monthly payments.

COLT LOSSES CAN BE HELPED

Poor breeding,—foaling troubles,—colt losses,—are not all "bad luck." Purina Mills have found that they are something we can help.

A large proportion of horses taken to be bred each year remain barren. Missouri Agricultural College made a survey recently and reported less than 50% of the mares bred ever produced a live foal. The raising of colts also is a problem. Minnesota and Oregon report losses of 40 per cent and 50 per cent of the colts that were born.

HORSES NEED SUPPLEMENTS LIKE PIG AND CHICKENS

Horses are largely grass eating animals. Good pasture is packed with minerals and growth proteins that are often lacking in the hay and grain we feed in the winter to horse stock. Other farm animals receive supplementary feeds that make up for these lacks in the winter time. Few good farmers these days try to feed their brood sows and growing pigs without a supplement. They increase the value of home grains by feeding supplements to cows, calves, and all poultry. Yet most of them endure great financial loss with mares that do not catch and colts that do not grow. All because they do not feed mares and colts supplements with grain and hay.

GET WORK HORSES IN CONDITION WITH OMOLENE

Purina Omolene Supplement is made expressly for horse stock. It contains an abundance of those minerals and growth proteins which are so lacking in grains and most hay. Only a small amount is required. It comes in 1-2 inch checkers which are highly palatable. For work horses, saddle horses, stallions and jacks feed one part Omolene Supplement with 4 parts your own grain. Feed bred and nursing mares and growing foals 3 parts your own grain and one part Omolene Supplement. This new feed sells for $3.09 cwt. at our mill.

DOG QUARANTINE NOW IN EFFECT

ANIMALS MUST BE CONFINED TO OWN PREMISES; RULES ARE GIVEN

Regulations for a dog quarantine in 47 southern Michigan counties including Lenawee, have been announced by Dr. T. Allen Moyer, state health commissioner.

The regulations, effective April 1 in a campaign to stamp out a growing rabies menace, provide that dogs may only be removed from their owners' premises if on a leash or "otherwise directly restained" to prevent them from attacking or biting another animal or human.

Under the rules, transportation of dogs in an automobile is permitted.

Dogs found running at large are subject to seizure by sheriffs' officers, constables, and municipal peace officers. The regulations require such captured dogs to be "destroyed" within 72 hours unless claimed by their owners. If not killed the captured dogs must be impounded for at least three months.

The regulations permit owners to remove their dogs from the quarantine area, all counties south of the Manistee-Iosco county line, to another part of the state after obtaining a permit from the sheriff of the county in which the dog is confined.

Dogs brought into the quarantine area must be registered with the sheriff within 48 hours of arrival. To move a dog into another state from the quarantine area a special permit must be obtained from the state veterinarian.

Enforcement of the regulations is placed on all local enforcement officials.

Vocational Guidance Is Rotary Speaker's Topic

The need for vocational guidance in the public schools, and the assistance that pupils of Tecumseh high school are receiving as the result of a program that has been inaugurated here by W. L. Berkhof, superintendent, was outlined to members of the Tecumseh Rotary club on Tuesday by Paul Johnson, a member of the high school staff.

Mr. Johnson has acted as Mr. Berkhof's assistant in the guidance program that has been in operation here during the past 12 months, and it already is proving popular with the students, he said. He told of the methods pursued in assisting students to find the right courses of training, and declared that the need for a large-scale program in all schools has arrived.

At a business session of the club, Del Burleson, S. H. Smith and William Bruce were elected as members of the club's board of directors. The directors will convene next week and elect a president and other officers.

THE RESULT OF GREED

Most of the trouble in the world comes from greed.

Germany now knows that.

A generation ago the German empire was strong and prosperous. It had population, land, food and trade. Germany said that it was the best in the world. Not satisfied with its own good circumstances the rulers of the Germans reached for more. Now they have less.

With both nations and individuals selfishness has its inevitable result.

GOD'S TRUST

Michigan will soon take on its new coat of spring and then follows summer. The countless thousands of tourists will again be coming to enjoy the glorious beauties of our state as their summer playground. We must be good hosts, and being good hosts will mean much more than just seeing how much money we can make from their visits. It will mean actually that we must feel glad within our hearts that God has endowed our home state with these wonderful natural beauties and proud we can be hosts to these many tourists who come here to really enjoy themselves. If we are good hosts we will be rewarded materially as well as being the possessor of the knowledge we have not failed in our trust.

"YOUNG AS YOU FEEL"

We've been through a lot of hilarious predicaments with the Jones Family, but when they all get that young feeling and decide to take over Broadway in "Young As You Feel," the latest of the 20th Century-Fox comedies which comes to the Strand Theatre Sunday, Monday and Tuesday, April 7, 8 and 9, they hit a new laugh high. For Dad turns playboy, mother goes glamour girl and all the Joneses step out in style!

Dad Jones decides to give up his drug store at the persuasion of his famous family, and they all go to New York to give the hot spots a whirl. The whole family, with the exception of Dad, who has to pay the bills, is taken in by some pohny friends of Jack, the oldest son. Posing as bluebloods and members of the nobility, they are out to take the Joneses for all they can, and how nearly they succeed must be seen to be appreciated.

"NURSE EDITH CAVELL"

Introducing to American audiences Great Britain's foremost contemporary actress, "Nurse Edith Cavell" presents Anna Neagle in the stellar-title role. This production by Herbert Wilcox which comes to the Strand Theatre Wednesday and Thursday, April 10-11, is the thrilling melodramatic picturization of the famous martyred World War Nurse who paid the supreme penalty for her unselfish efforts to preserve human lives.

"Nurse Edith Cavell" depicts the career of the altruistic nurse from the time she was head of the Berckendael Institute in Brussels up to and including the World War, her activities in smuggling fugitive soldiers across the Dutch border during the war, her arrest and her memorable trial by a Prussian military court which decreed her execution.

Aiding Edith Cavell in her dangerous but patriotic enterprise were five women, and it was their combined ingenuity which gave birth to the secret under-ground system that saved the lives of hundreds of war victims, and confounded for a time the German secret service. Edna May Oliver, May Robson, ZaSu Pitts, Sophie Stewart and Mary Howard are seen as these accomplices.

EASLICK SCHOOL NOTES
Lillian G. Dibble, Teacher

This past month our enrollment changed a great deal, due to people exchanging places to live. Lucy, Donna and Helen Adams have moved to Tecumseh. Helen Feketia from Macon Dist. 6 enrolled with us. We have thirteen on the roll now.

Bobby Croll constructed a helpful English poster. It reminds us all the correct use of pronouns.

We have three magazines coming to our school. They are "The American Boy," "The American Girl," and "Jack and Jill." We enjoyed reading the stories very much during our spare time and over week ends.

We have four nice posters for March, Arnett Satterla and Helen Feketia constructed Dutch scenes while John Satterla, Rose Marie and Virginia Kirtland made Good Health Postures.

The primary people have made Dutch Girls, windmills and pots of tulips to help toward Dutch scenes.

We observed St. Patrick's Day with suitable songs, recitations and a play. Arnett Satterla had charge of the arrangements.

Rose Marie and Virginia Kirtland conducted very interesting patriotic and safety programs this past month.

The Primary people enjoyed reading Easter stories from their Elson-Gray reades. They illustrated each story with suitable pictures so one would be able to tell the story by pictures.

The civics class has made senatorial, representative and congressional maps of Michigan.

Chapel leaders for the month were Miss Dibble and Arnett Satterla. We observed our Easter chapel on Good Friday with "The Bird School" and their teacher Miss Iris Jones as guests. We also invited our mothers and the members of our school board, Rev. P. O. Hawley was our guest speaker. The following program was given:

Music, accordion and saxophone, "The Old Rugged Cross," "Christ Arose," By Mrs Geo. Kimerer and Harley Kimerer; group singing, "Brighten the Corner Where You Are," and "Sing, Smile and Pray"; Easter prayer, Lord's Prayer; picture study, "The Lord's Supper," by Mrs Lillian Wood; study of "Crucifixion" and "Resurrection," lessons by Arnett Satterla; talk, Rev. P. O. Hawley; welcome to School Board, Leader; remarks, Aubrey Pocklington; solo, "In the Garden," P. G. Ash; reading, Bird school; duet, "The Old Rugged Cross," Bird school; rhythm band, "Happy Easter Bells," Easlick school; exercise, "Hail, Lord Triumphant," Easlick school; solo, "The Lilies," Helen Feketia and the school.

We wish to thank Mrs Wood, Rev. P. O. Hawley and the board members for their contributions on our program in helping make our Easter chapel so meaningful.

Richard Croll, Eileen Carothers, John, Harriett and Anna Satterla have been absent from school several days because of illness.

Gran'pa was one of the county's first settlers, so he's been around long enough to see a lot of things. He says we should advertise this way:
"Back when automobiles first come to town, they wasn't any what you might call SERVICE stations. An' right now, there's a heap o' places callin' themselves that without right. Now, Howe's really give you service. They fill your car with Standard Gasoline and Standard Motor Oil, the best money can buy—but they don't forget a lot o' little things like water an' air an' cleanin' the car windows, which I think are every bit as important as motor fuel."

You Know What You Need Better Than Anyone Else

Building homes and making them prove economical in cost and liveability is our specialty.

Instead of paying rent, why not turn your rent checks into "ownership checks" by building and owning the house in which you live.

We'll be glad to consult with you on your building needs, assist you with your plans, both architect's and financing.

Remember, you can build today cheaper than in that period between 1925-30; financing too, is much easier and less expensive.

HAYDEN HI-LITES

PUBLISHED BY HAYDEN FLOUR MILLS, INC., APRIL 4, 1940.

MUNITH FARMER DRIVES 40 MILES FOR "1900" FLOUR

Mr. C. Pickett, of Munith, told us that he drove 40 miles to bring his wheat to Tecumseh to exchange for "1900" Flour. He was down January 1939, and the fact that he was back again last week is all the proof we need that our flour must satisfy his family to a tee.

The 10 biggest exchanges of wheat for flour last week were the following.

1st—Charles Pickett, Munith.
2nd—E. P. Mayer, Manchester.
3rd—C. H. Schultz, Onsted.
4th—Howard Hunt, Onsted.
5th—Fred Martoluk, Palmyra
6th—F. J. Stock, Jackson
7th—Kelly Kerr, Brooklyn.
8th—W. H. Elwood, Tipton.
9th—C. Kuder, Clinton.

GIVE THOSE YOUNG PIGS A REAL START ON HAYDEN'S HOG BALANCER

A year ago, only the more adventurous farmers would try Hayden's Hog Balancer. Today, with our higher protein, IT IS NOW 40%, we can refer you to an imposing list of the most successful hog raisers in this community who swear (or "affirm") that Hayden's Hog Balancer does the trick. Give those spring pigs a "break" in life. Start them from scratch on Hayden's 40% Hog Balancer.

HERE'S THE CHICK STARTENA HONOR ROLL

We believe that Purina Chick Startena is the finest Starting Feed made. So do the following poultry raisers, who have already started on "Startena":

Carl Listman, Tipton.
Percy Heidenreich, Tecumseh
Charles Odell, Ridgeway.
Joe Valascek, Tecumseh.
J. Poskarbiewicz, Tipton.
Ralph Smith, Britton.
A. H. Strahle, Tecumseh.

Richard Vollmer, Tipton.
Lyle Bailey, Adrian.
Milburn Brooks, Tecumseh.
Kenneth Munger, Tecumseh.

The reason we mention names is because we are proud of the type of poultrymen who use Purina.

School Notes

Speech Class

Since the beginning of this semester, members of the Speech class have been studying dramatics. The study began with the history and development of the theatre, from the primitive religious festivals through the modern drama. The possible influence of drama; including movies, upon the people was discussed, and reports of special movies were given by members of the class. In the study of the history of the theatre, special research work was done by each member of the class, and notebooks were made to include this material for review.

After finishing the survey of the drama, the students each selected a play for particular study. The plot of this play was presented to the class, and special projects worked out. The majority of the students constructed stage models of one scene from the play they had selected. However, one student designed the costumes and made appropriate drawings instead.

Lately, practical work in staging has been done, such as "walking through a scene" or building scenes and stories in pantomine, going from simple scenes to more complex ones. One or our lessons was to re-enact in patomine an ad of some nationally advertised merchandise.

Fifth Grade
Miss Starr, Teacher

In history we are studying "How Women Helped to Make our Flag." In this unit we are learning about the lives of Anna Howard Shaw, Clara Barton, Harriett Hosmer, Jane Addams, Mary Antia, Ana Amelia Earhart.

Some day we are going to tell about a book which we have read. We find this very interesting. Some of us like the accounts of the books so well that we go to the library and get that book to read.

We hope that some of our mothers and friends will soon come to visit us, as we are going to have a science display.

In music the boys and girls are making scrap books about great composers, orchestra leaders, and singers.

Reporters, Joe Ferris, Juanita Kerintoff.

Fourth and Fifth Grades
Mrs. Pfaus, Teacher

In fourth grade geography we are studying the Netherlands and are finding it a very interesting

Our room looks like a small section of the polder land.

"How Peope Work Together" is the name of our social science book. We are studying "shelter" now and each one has given a report on a subject that has to do with building, such as: lumber, cement, roofing, glass, lighting, heating plumbing, etc. We are enjoying this project very much.

The fifth grade is learning how literature and the people who publish newspapers, magazines, and books are "Makers of Our Flag."

Donna Adams is a new pupil in our room.

First and Second Grade
East Branch
Miss Borgards, Teacher

David Ousterhout brought to school a six-weeks-old alligator, which his grandmother had sent him from Florida. We kept him in the sand box and enjoyed watching him, although he felt very uneasy with so many children around. When we began our work, the alligator settled down for a nap. We wrote letters and a chalk story about the alligator.

Recently we enjoyed listening to some poems about March winds and kites. We closed our eyes while they were being read and then drew pictures of what we saw. Some of us made fine pictures, and have been working on ducks and Easter bunnies.

Sixth Grade
Mrs. Smith, Teacher

For the first time this year the entire room recently had a perfect score in spelling. We are very proud of this record.

We have been making change with money and making deposits as in a bank.

We have been keeping a posture chart for health. It shows that we are just fair.

In art we have been making samples of all-over patterns.

We have been trying out a lawn monitor, who is Lenore Mohr.

We are making progress in our history. We have been making maps in order to help us understand what we are studying.

Roy Sharp brought in a downy woodpecker for nature study.

Reporters, Martha Jane Kempf and Lenore Mohr.

Fourth Grade
Miss Kline, Teacher

There are eight people in our room who have not been absent or tardy this year. They are: Charley Bater, Ardyth Cole, Janet Frost, Robert Irwin, Richard Lent, Junior Martin, Mary Wilson, and Irma Wright. We are pleased with their records and hope that other boys and girls will try not to be absent or tardy.

POULTRY CLINIC IS BIG SUCCESS

DR. WEISNER OF M.S.C. GIVES PRACTICAL LECTURE AT TECUMSEH GRANGE HALL

"The average flock of poultry will respond to good breeding, good management, good care, and good feeding," said Dr. E. S. Weisner, specialist in poultry diseases, as he addressed the fifth and final meeting in the poultry series at Tecumseh. The meeting was held Tuesday afternoon, April 9, at the Tecumseh Grange Hall. President Fred Shelton of the Tecumseh Poultry Association reported 69 members of the association at present, and at the suggestion of Louis Hall, county agent, appointed a committee to plan a poultry tour in August. The committee appointed was Kenneth Munger, Harry Fisk, and Murray Bess.

Following a few remarks by Louis Hall, Dr. E. S. Weisner of the Michigan State College was introduced. During the balance of the afternoon, Dr. Weisner conducted a poultry clinic, illustrating by dissection of diseased birds that were brought to the clinic the points he wished to drive home.

"It is not necessary to go outside of the state to get good chicks," said Dr. Weisner, "There are plenty of good ones in our own community."

He then went on to say that pullorum was one of the closest diseases that could be inherited, stating that if a hen has pullorum, it is inoculated from the yolk into the chick. He also said that baby chicks should be taken only from flocks tested for pullorum. Another important fact stressed by Dr. Weisner was that chicks should be brooded at temperatures that are comfortable for the stronger chicks. He said that the cool temperatures will help to cull out the weaklings, also that paper on the floor spreads disease, and that sand is a poor litter. He urged that his listeners be careful about flushing birds too much. He performed an autopsy on several chickens and explained in detail the cause and remedy of disease. He stressed the fact that it is better to destroy diseased birds than to try to cure them.

The poultrymen present asked a number of questions, and the discussion which lasted till nearly five o'clock was enjoyed with profit by all. A number ov veterinarians from Lyons, Metamora, and Wauseon, Ohio, were present, as well as a number of students of Mr. Pasons in the local high school.

The first number was the a cappella number "Listen To The Lambs" by Dett with solo parts taken by Betty Heidenreich, Florence Wilson, Helen Claus and Crystal Wise. The second number was "Tally-Ho" by Dett and accompanied by Mrs. Geo. Parsons. The critic judges, Mr. Harold Tallum, from Wayne University commended the girls highly on their balance of tone, technique and pleasing appearance. Groups from Adrian, Clinton, Blissfield and Adrian presented vocal numbers.

The following members of the glee club participated: sopranos, Florence Wilson, Crystal Wise, Betty Heidenreich, Margaret Forgacs, Joyce Judson, Juanita Graf; second sopranos, Betty Joyce Green, Helen Claus, Margaret Hardy, Joyce Sallows, Margaret Zick; altos, Ida Woodcox, Alice Louise Claus, Jane Leighton, Margaret Cook, Gar Larson and Gwendolyn Kring.

The School Vocal Association is doing away with all competitive basis and the groups are judged merely from standpoint of helping to better the groups as a whole rather than one group trying to out do the other.

SCHOOL BUDGET GETS APPROVAL

BOARD HEARS SUPERINTENDENT'S ESTIMATE OF $49,885 FOR YEAR OF 1940-41

An estimated budget of $49,885 with which to operate the Tecumseh public schools for the year 1940-41 was presented to the board of education, in regular session, Tuesday evening. The budget is approximately the same in size as the one on which the school operated during the year now drawing to a close. Estimated receipts, depending upon the amount of state aid received, should provide sufficient funds with which to meet all estimated expenditures, W. L. Berkhof, superintendent, told the board.

The board discussed the hiring of teachers for the coming school year and accepted the resignation of Mrs. Clyde Way of Clinton, commercial teacher. On Mr. Berkhof's recommendation, the board offered contracts to all remaining teachers, the salary brackets to remain unchanged, except for exceptions that are made for advanced education or other work, Mr. Berkhof also was invited to remain as superintendent for another two-year period, his salary to remain unchanged.

The possibility of doing some preliminary work on the school's newly acquired athletic field was discussed, and it was decided to call a special meeting in about two weeks for the purpose of providing ways and means of financing necessary improvements.

The school's calendar for next year will be as follows: School will open on September 4, Christmas vacation, December 20, Spring vacation, April 10, and commencement, June 5.

BUILDING TRADES

Slowly but surely the building industry in America, like the slumbering giant of antiquity, is rising from its lethargy and once again we can look forward to a boom in this great industry.

The federal government is entering the picture via the courts with the intent of breaking the alleged monopolies in this industry. The unions have shown a greater willingness to cooperate and the prices of materials have been more and more inclined lately to seek an even level, all of which should make it possible for the anticipated boom to become an actual reality.

There are many millions of people in the United States that are prospective home owners. All they need is to be shown that they will get one hundred cents worth of value on every dollar they invest. Once this is done we won't need to worry about a couple million of our present unemployed. They'll be working on your or my home and that will make a real difference in our material income.

NICKNAME CONTEST TO BE REPEATED

The Ford Dealers' Used Car Nickname Contest, closing tonight at midnight, has proved to be so popular that it is being repeated, according to D. D. Harris, Chairman. The second contest will end at midnight, April 18, says Mr. Harris. As in the first contest, the ten best nicknames given by used car buyers to the cars they buy from Ford dealers, will each win $100 cash prizes. The judges will be the Honorable John L. Carey, mayor of Dearborn, Michigan; Gordon Kingsbury, director of advertising courses at Wayne University, Detroit; and G. D. Gettles, automobile editor of the Toledo Blade, Toledo.

"We were agreeably surprised at the cleverness of the nicknames submitted in our first contest," said Mr. Harris. "In fact, it seems the custom of car naming, so prevalent a few years ago, is being revived through the Nickname Contest. It was gratifying to note how few 'ordinary' nicknames, such as 'Bluebird,' or 'Bessie,' were submitted. In any case we were practically forced to repeat our $1000 contest because of the enthusiasm which Nickname aroused. Incidentally, the contest has served as a reminder that this is the best time of the year to make a used car purchase, when Ford dealers' stocks offer a wide variety of makes, models and body types."

Why not make this year your "Big Moment"?

Business is Good, Thanks—so you'll get plenty for your old car and more in your new one at your Buick dealer's

Above is the Buick SPECIAL *4-door touring sedan* $996*

WE'RE talking here to those thousands who have not yet achieved their lifetime ambition to own a Buick.

We want to show you how the Buick SPECIAL pictured here swings wide the door on a golden opportunity.

Step into this sleek sweetheart. Your treadle foot touches off a trigger-quick Dynaflash straight-eight engine with a brand-new smoothness born of micro-poised-balancing *after* assembly.

You've got the same easy, finger-flick shifting as in the most costly Buick. And the same recoil-mounted Knee-Action soaking up bumps before they reach your hand on the steering wheel.

You've got the same stout BuiCoil Springs as every other Buick, and they'll *never* need lubrication.

Look out through the easy-vision Safety *Plate* Glass in every window. Check up on the equipment: Two-Way Direction Signal with automatic cut-off, built-in automatic choke, oil-filter, high-capacity water pump—they're all there.

And, when you count in the included equipment, the SPECIAL costs no more than some sixes with *lower* advertised prices. So look into this brilliant beauty and "step up" to the car you've always wanted.

You can take a trial drive any time just by asking your Buick dealer.

Prices begin at $895 for Business Coupe —Sedan prices start at $953 —

Doc's driven good roads and bad, day and night, bringing aid wherever there was sickness. He thinks our advertising should say something on this order:

"An automobile's pretty much like a human being. If it's abused, it goes out of order. The right kind of treatment means longer, more efficient life. And when getting places in a hurry may mean the difference between life and death, you want Standard Gasoline and Standard Motor Oil for dependability. You also want to know that your car's in good physical condition—and Howe's are good doctors."

HOSPITAL ASKS FOR ADDITION

CROWDED CONDITION FORCES BOARD TO BRING PROPOSAL TO VILLAGE COUNCIL

Continued crowded conditions at Tecumseh Hospital, originally built as an 18-bed institution and today accommodating 30 patients, caused members of the board of trustees of the hospital to appear before the village council on Monday evening with a proposal to enlarge the building to a size sufficient to meet Tecumseh's needs. The council took the proposal under consideration and named E. H. Van Vleet, O. J. Winter and S. Henry Smith as a committee to confer with the board, and to submit its finding at a subsequent meeting.

According to R. W. Herrick, president of the hospital board who spoke at Monday's meeting, the institution for several months has found it impossible to accommodate all of the patients who have asked for admission. Despite the fact that it originally was intended to accomodate only 18 adult patients, its daily average over the past three months has been 22.4, he said. Mr. Herrick pointed out that beds have been set up in corridors, private rooms have been made into two and three bed wards, and other "shifts" have been made necessary to accommodate emergency patients.

"It has reached the point where we must do something," Mr. Herrick said. "We are growing, and growing rapidly—beyond the fondest dream. We have one of the most popular hospitals in the state, in fact in this section of the country. We give the best of service, we have 100 per cent cooperation on the part of our staff doctors and nurses. All of these thing appeal to the patients.

"But we cannot continue to carry on as we are at the present time because such a crowded condition is not good business. We need an addition, we need it badly. Either we must have it, else we must start turning away patients who are seeking admission from points outside our own area."

Mr. Herrick pointed out that during the 22 months that the hospital has operated it has served more than 1,000 patients. At times as many as 35 have been housed there in a single day. For the first 10 months of the fiscal year, the hospital showed a profit of $1,641.66, after all charge-offs for depreciation had been made. During the first three months of this calendar year the profit was $973.43.

"We can build the required addition and pay for it in about five years," Mr. Herrick declared, "and I think possibly in less time than that. This year's earnings will be about $1,800, and I know that they would be greatly increased if our institution was larger."

Mr. Herrick pointed out that the proposed addition can be operated without increasing the overhead, existing heating and electrical systems being sufficient to carry the load.

In a letter to the council from Dr. H. H. Hammel, chief of staff, and approved by other staff doctors, Dr. Hammel pointed out the crowded conditions at the hospital and urged measures for relief. This letter was read by Mr. Herrick.

The hospital enlargement program, as outlined to the council would cost approximately $20,000, including the expense of the building and equipment. It would add 11 rooms to the institution, including a first floor kitchen, nurses dining room, a six-bed maternity ward, obstetrical rooms, seven private rooms and public toilet. It would make it possible for the hospital to accommodate 35 adult patients and 12 infants. Today the hospital has 30 patients, or nearly enough to fill the proposed addition.

The hospital board met with the council's committee yesterday to consider ways and means of making the addition possible. It is likely that an effort will be made to secure WPA assistance, if such a program is believed advisable. The council's committee is expected to have a report ready for the council on May 6.

At Monday's meeting, others who spoke in favor of the proposed enlargement were the Rev. Edward Green, R. S. Moore, R. K. Anderson and Richard Roe, all members of the hospital board.

Local Band Will Go To State Music Meet

The Tecumseh high school senior and Junior bands and saxophone quartette, were in Adrian Thursday to participate in the 10th annual Lenawee County music festival, held at the Adrian senior high school. Over 500 student musicians from county schools attended.

The senior band played "Hero Overture" by Johnson and "Prelude and Fugue" by Bach, the junior band playing "Bagatelle" and "Little Waltz" both by Fulton, featuring the saxophone quartette composed of James Spooner, Nancy Tingley, Norman Kemp and Joyce Church. Overgard, director of the Wayne University band, and expect to attend the State Music Festival in Ann Arbor Saturday, April 27.

CHURCH PLANS NEW STRUCTURE

LUTHERANS MAY BUILD DURING SUMMER; USE EPISCOPAL CHURCH AT CLINTON

Plans for the construction of a new church, to be located at the corner of Shawnee and Maumee streets on property recently acquired, were announced today by the Rev. R. W. Scheele, pastor of the Grace English Evangelical Lutheran church. The Rev. Mr. Scheele said that it was impossible for him to say definitely when the new edifice would be started, but he let it be known that present plans call for the building of a building, 30 by 60 feet, frame construction, and that work may begin during the summer months.

Heretofore, the church has occupied the Braun building on East Chicago boulevard, but that structure was damaged by fire a few weeks ago. Since that time, services have been held in the C. A. Wagner home, 126 N. Ottawa-st, Mr. Scheele said today that the officers of the Episcopal church at Clinton had graciously offered the use of thir church to the local congregation of Lutherans, and that the offer had been accepted. He announced that Lutheran services would be held there next Sunday morning at 11 o'clock, and on April 28 and each Sunday thereafter at 10:30 o'clock. Sunday school will continue in the Wagner home as usual, next Sunday at 9:30 and Sunday thereafter at 9 o'clock.

The newly acquired property on Shawnee street, Mr. Scheele said, is of sufficient size to be subdivided and 14 lots sold to prospective home builders. He also said that the Cascarelli House, located on the property, is now undergoing remodeling and redecoration, and that he would occupy it within a short time.

UNEMPLOYMENT IS U.S. THREAT

DR. GORDON OF CHICAGO ADDRESSED GROUP ON TOWNSEND PLAN IN CLINTON

"If the American Democracy and government are to be preserved, this 10-year-old problem of unemployment and relief must be solved; and unless some solution is forth-coming soon, government decree will dictate terms, which one and for all destroy American liberty," said Dr. H. Truman Gordon, of Chicago, Townsend Plan speaker, who appeared before a good sized audience in the gymnasium of the Clinton high school, Sunday afternoon.

This meeting was presided over by Mrs. Hilbert of Ann Arbor, deputy distirct representative, and was opened in the usual form, singing of America, Lord's Prayer, and Pledge of Allegiance to the Flag. Mrs. Hilbert then called for a meeting of all club officers present, after Dr. Gordon's talk.

"We are on the threshold of victory," said Dr. Gordon, "which is proved by the signs of the times figures showing that since January 1, 1939 to March 30, 1940, 1,355,000 new members and 6,300 new clubs have increased the strength of the organization; also that already 44 congressmen formerly opposed have declared themselves ready to support the plan."

Objectives and purposes of the plan were outlined by the speaker as being the same as the introduction to the preamble of our national constitution, He said: "There are too many injustices," citing the following as illustrations: "5,700,000 youth on relief, 4,500,000 persons over 60 still forced to work at any pittance they can get, of whom 3,930,000 hold social security numbers, added to these are another million workers who are denied any security whatever.

"Solving of unemployment is of most vital concern as business men the country over are becoming worried, wondering how much longer they can hang on," said Dr. Gordon. In conclusion he declared "The Townsend Plan is the complete solution of our economy, our work problem, and prosperity, preserving liberty to ourselves and our posterity; with fear and hunger removed we need have no apprehension of perversity pervading in America."

According to Mrs. Hilbert, a motion picture and recording educational program will be in effect in every congressional district of Michigan, for which funds are now being raised.

Officers and members were present from Ann Arbor, Adrian, Monroe, Clinton and Tecumseh. The meeting closed in usual form with the declaration of allegiance to the cause, its officers and workers, and to our democratic form of government.

NYLON

That fascinating new product made of coal, air and water, called nylon, may be more familiar to you than you realize. You may have been using a tooth-brush with nylon bristles, if you had a superior brush that seems to keep all its original qualities, in spite of hard use.

Nylon, of course, is becoming known to us because of the advance publicity we're getting on the new hosiery made of nylon—hose that has the beauty and sheerness of silk with better wearing qualities. These hose, however, are not everlasting, as some women think. They're like a permanent wave in that respect. They will last longer because they are so much more elastic than silk hose. And that means that they will give instead of running when considerable strain is placed upon them. They will run, snag and eventually wear out, however. Another feature besides the wearing quality which will "sell" these hose to the women is the fact they will wash in harsh laundry soap without harm and dry twice as fast as regular soap.

It is said that the future of nylon is so vast that one cannot predict it, as it already extends from fishlines to the toughest wire covering, to the filmiest of fabrics and lace. We conclude from the enthusiastic accounts that it will be used for everything but food.

2 Write or print on the card a nickname for the car you bought, using not more than five words. Mail the card. It must be postmarked not later than midnight of April 25.

FRANKENMUTH (MPA) — An out of town customer recently brought a wool mattress to a local mill to be washed and carded. Although it has been in this country nearly 100 years, the wool was as good as new after it had been renovated.

Lengthy Session Is Held By The Village Council

The village council held its longest sessions of the year, Monday evening, meeting with the Tecumseh Hospital board on a proposed construction program, listening to the report of Robert Fuller, certified public accountant who audits the village books, and caring for other routine affairs.

The petition of Guy Beevers for a sewer connection at his home on Mill street was referred to a committee. The surety bond of Le Roy Titley, treasurer, in the amount of $2,000 was approved. J. Fred Rector, treasurer of the cemetery board, submitted his annual report and it was approved. He also was re-appointed to the board for a three year term.

The report of Mr. Fuller was read and canvassed by the council and approved and ordered published. In the future, the council ruled, Mr. Fuller's work will include an audit of the books of the cemetery board.

The president and clerk were authorized to enter onto an agreement with Robert H. Moore, looking forward to the improvement of Indian Acres, a new subdivision, making possible streets, sewer and water.

HAYDEN HI-LITES

PUBLISHED BY HAYDEN FLOUR MILLS, INC., APRIL 18, 1940.

NORTH ADAMS FARMER LIKES "1900" FLOUR

Carl Ernst of North Adams is typical of many farmers who are willing to drive a pretty fair distance to get flour that will make good bread. In August 1938 he brought down 4 bushels. In December he returned with 7 bushels. Last September it was 9 bushels and April 11 he brought 12 bushels. Each was exchanged for "1900" Flour.

Some of the other larger exchanges last week were as follows:

1st—Carl Ernst, North Adams.
2nd—C. Maichele, Dexter.
3rd—Henry Feldkamp, Ann Arbor.
4th—Martin Hoelzer, Clinton
5th—M. E. Dibble, Tipton.

BABY CHICKS 49C HUNDRED

No, this is not a printers error, we mean one red cent less than four bits for ten times ten Leghorn cockerel chicks. In plain English, if you want a nice lot of Purina-Embryx chicks for broilers, your search ends at the Hayden Flour Mills. These chicks have a splendid start, and if the buyer feeds them Purina Broiler Chow, They'll surely look nice on one of the free platters we're giving away, in a few weeks.

FREE ADVICE TO PIG PRODUCERS

We know the hog market is sicker than a dog. But we also know that some of the smartest and experienced hog men in this section are producing pork for less money on Purina Pig & Hog Chow, and Hayden's Pig & Hog Balancer.

Why not be ready for the possible high pork prices by having your pigs ready to market at the high point this coming September. If you have too many pigs get rid of some and make money on the balance. Here's the formula that will do the trick: 200 lbs. corn, 200 lbs. oats, and 100 lbs Hog Balancer. Ask us to help you.

RAMSBURGH PIGS PROVE A POINT

Ask us for the interesting figures on a feeding test made by Henry Ramsburg. He started two pigs, Mike who weighed 47 lbs. and Ike who weighed 48 lbs. on two feeding rations Oct. 9, 1939. On December 31 he weighed them again, Mike, on Purina gained 171 lbs. and totalled 218 lbs. Ike gained 71 lbs. and totalled 119 lbs. Mike ate 426 lbs. of total feed, of which 83 lbs. was Purina Hog Chow. Ike only ate 318 lbs. Of course it cost less to feed Ike, but the cost per HUNDRED POUNDS OF PORK FOR IKE was $6.17. The cost per cwt. for Purina fed Mike was only $5.21.

251 EGGS FROM ONE TURKEY

Sounds more like the laying record of a prize chicken than a turkey. Yet that's the number of eggs White Holland Turkey Pen No. 473 laid in one year at the Purina Experimental Farm. Moreover the yearly flock average for all breeders was 159.6 eggs—and the hatchability on fertile eggs was 76.6%. Could there be more convincing proof for Purina turkey breeder rations? Ask us for more details.

NINETIETH YEAR—NUMBER THIRTY. TECUMSEH, MICHIGAN, THURSDAY, APRIL 25, 1940. FIVE CENTS PER COPY.

COUNCIL MOVES TO AID HOSPITAL

IN SPECIAL SESSION, TRUSTEES ORDER ARCHITECT'S DRAWINGS, COST ESTIMATES

Acting at a special session, Monday evening, the village council voted unanimously to hire a competent engineer and architect to prepare plans and specifications, and to submit costs of a proposed enlargement of Tecumseh hospital, increasing the size of the institution sufficiently to accommodate 32 adults and 12 infants. The present hospital was built to accommodate 18 adults and six babies, and this week under crowded conditions, it housed 32 patients, including six babies.

The council "deemed it expedient for the village to undertake the construction of the hospital addition," following a presentation of facts by the board of trustees of the institution which showed that for several months the present building has been insufficient in size to accommodate comfortably all of those who have sought admission. It also was pointed out that a number of patients have been turned away because of insufficient room—this despite the fact that private rooms have been made into two and three ward wards, and corridors have been used to accommodate less seriously sick patients.

Ray W. Herrick, president of the hospital board, said today that the architect's plans and estimates would be in the hands of the council for its regular meeting on May 6, and if that body deems it advisable at that time it may immediately give notice of a special election, asking taxpayers to approve a bond issue to care for the expense of the improvement. It was estimated today that it would take at least 60 days before the work could be started, legal delays for registration and election notices being considered.

In presenting the hospital board's appeal to the council for an enlarged building, Mr. Herrick pointed out that during the first three months of this year the hospital made a net profit of $1,000, after charging off approximately $320 in depreciation.

"I am certain," Mr. Herrick said, "that had we had the larger hospital our profits would have been $400 more for the quarter, because we had no private rooms to offer to patients. We also had to turn away patients during the past three months, and five doctors from other villages in the county are at the present time seeking to join our staff.

"We would like to accommodate these other doctors, but if we do they are going to bring their patients here, and what are we to do with them. We haven't sufficient room now to house the patients from our own area, to say nothing of a dozen or two more.

"Everybody for miles around, even in Indiana and Ohio, knows about Tecumseh hospital. We have an enviable reputation for good service and competent nurses and doctors. We have, in the year and a half that we have operated, made a real name for ourselves, but if we are going to continue to grow and expand our service, we must enlarge our building."

Mr. Herrick told the council that he is of the opinion that the hospital enlargement will not cost the taxpayers a cent. He believes that the hospital expansion program can be carried out at an expense of $20,000, and that over a 10-year period the institution will earn sufficiently to pay the interest and retire the bonds as they come due.

"We made over $1,000 the first three months of this year, and we should make over $3,000 during the entire year," Herrick declared. "With the enlarged institution our earnings will increase at least $1,000 a year. If we're earning $4,000 a year, certainly we can pay the interest and retire the bonds as they come due, without asking the taxpayers to do it for us."

ATHLETIC FIELD FUND IS SOUGHT

WAYS AND MEANS OF IMPROVING NEW SCHOOL PROPERTY IS STUDIED BY BOARD

The board of education's athletic field committee, consisting of John Larsen, Ned Baldwin and Earl Lindsley, will go to Lansing in the near future to discuss ways and means of improving the school's newly acquired athletic park, it was announced following a special meeting of the board of education, Tuesday evening. The board met in session with a special committee from the Rotary Club, looking forward to the park's improvement.

The athletic park, a natural amphitheatre located just north of the high school building, was purchased last year by voters in special election. The state, however, ruled at that time that money could not be borrowed for improvement purposes, and the use of funds in the school's treasury has delayed activity since that date.

The new park is of sufficient size to accommodate a baseball diamond, running track, football field, tennis and soft ball courts. Grandstand seats also should be built.

The board is of the opinion that the Works Progress Administration may be interested in the improvement, and the committee will determine this when it visit in Lansing.

The park improvement, it is estimated, will cost about $2,500.

Hospital Expansion Plan Is Explained To Rotary

The proposed expansion program at Tecumseh hospital and the immediate need for such enlargement in the face of rapidly growing demands for hospital service were explained to the members of Tecumseh Rotary on Tuesday by the Rev. Edward Green, rector of St. Peter's Episcopal church and a member of the hospital board of trustees.

An architect's drawing of the proposed addition to the hospital was shown by the Rev. Mr. Green to illustrate his remarks. He told of the crowded conditions in the present hospital, built to accommodate 18 adults and six babies, and today having 32 patients. He estimated that the improvement would cost approximately $20,000, including building and equipment, and declared that the proposed addition is mandatory if the hospital is to continue to offer its service to an ever-growing number of persons who are demanding Tecumseh hospital in preference to others in nearby cities and villages.

Dr. R. G. B. Marsh, a member of the hospital staff, also spoke in favor of the proposed addition, declaring that more and more are people becoming hospital-minded.

Some time also was spent in the discussion of the district convention of Rotary, to be held at Dearborn beginning Sunday and continuing through Tuesday. IONIA'S TRADE SCHOOL

With the establishing of a trade school at Ionia reformatory, Michigan State Industries has taken on a new field of endeavor in the penal program of the state. Under the guidance of William H. Burke, manager of Michigan State Industries, the new school is expected to produce the results parole officials have long sought in Michigan's corrections system.

Fully realizing that the cooperation of private industry would be highly essential if the trade school idea was to materialize, Mr. Burke has held conferences with various groups in an effort to secure their full cooperation. He has met with unqualified success. Privately operated trade schools in the state have also lent a helping hand in order to see what can be accomplished in a penal institution.

When it is realized that the greatest problem confronting parole officials is that of finding suitable jobs for men about to be discharged from prison, then it is clear that nothing could fit into the picture any more firmly than a school where trades are actually taught.

The State Board for Control of Vocational Education has also rendered valuable service in conducting a survey of the situation at Ionia, and in an extensive report set forth the needs of such a school as is now being formulated.

Grandma Cooked With Corncobs

It took half an hour every morning to get the old kitchen range going . . and Gran'm had to watch the pesky thing all day long. Today, gas and electric ranges have made the old stove a museum piece.

Home laundering is antiquated, too. It may have been necessary once—but today, with the modern laundry offering services so far superior to the best work a home laundress could possibly produce, spending hours at back-breaking labor is downright foolish. There's a service to fill every need.

They Took Pride in Their Credit Rating

This young couple will go far. They came into our office and explained that they owed some bills they'd thought they would be able to pay. "The bills are overdue," the young husband said, "and we want to pay them. We have a clean credit rating and want to keep it that way." We loaned the money and the couple paid their bills. Now they're paying the loan back to us in small monthly payments.

Yes, it really is amazing when you read of some fire losses that are not covered by insurance.

What's your own situation? Do you have ample coverage? If fire or windstorm should strike tomorrow, would you be amply protected?

WHY DO WE HAVE BANKS ANYWAY?

They Are As Essential
As Forts to the Pioneers

A strong bank is a fortress of financial strength for a community. Built through the joint strength of the community, the bank servos the community.

In the early days our ancestors joined forces and built strong forts to protect the community from savages. Today our dangers are financial rather than physical. And the community has joined forces to build this strong fortress of financial strength.

Come to us anytime, we can help you.

THIS WAS NO BULL

FREEPORT (MPA)—It wasn't a bull, but a cow that fell on Henry Yoder recently, painfully bruising him. He was leading the animal past an old well pit when she became frightened. A moment later Yoder was at the bottom of the eight foot hole with the cow on top of him.

CHICK HAS GLASS HOME

BLISSFIELD (MPA)—Attracting much attention locally is a three-months old chick being raised in a five-gallon glass jug. It has access to feed and water through a small opening in the side of the bottle. The "experiment" is being carried on to advertise chick feed.

LENAWEE NURSES HEAR TALK BY STATE OFFICIAL

The Lenawee County Nurses Association met last week at the home of the president, Miss Jennie Gillespie on North Pearl st. with Misses Gertrude Spaulding, Zura Kerr and Mrs Leora Brooks as assistant hostesses.

During the business meeting it was decided to send Miss Gillespie as delegate to the state convention of the Michigan Nurses Association in Lansing April 24-27. Miss Spaulding of the Tecumseh hospital and Mrs Freada Butts and Miss Theresa Ebbitt of Bixby hospital, Adrian will also attend. Eight hour duty in the hospital and 12 hour duty in the home were discussed and the association voted to adopt that schedule. Lenawee county is one of only a few in which the eight hour duty system has not been enforced.

The program consisted of a talk on "Public Health Nursing" by Miss Helen Buker, R.N., M.A., of the State Health Department, Lansing, and Mrs. John McColl sang with Mrs W. G. Waldron accompanying. The hostesses served refreshments at the close of the meeting.

The next meeting will be held in the staff room at Bixby hospital May 15, at which time election of officers will take place

A lot of folks say "How do you dare to publish people's names without their permission?" We go on the assumption that folks are proud to be advertised as users of "1900" Flour. That's why we take the liberty of saying that Wm. Heckert of Jasper just took his 10th load of flour in exchange for wheat since August 21, 1937. 500 lbs Bulky-Lass, $2.33 cwt. 11.65

PARRETT'S LAMBS FLOURISH ON OUR WHEAT GERM

I. L. Parrett, on the (Bidwell) Ternes Farm is a farmer who uses his head. At his invitation we saw with our own eyes one of the finest lots of lambs around here that he has raised. He had 41 ewes, and got 49 lambs. A number of them were lost by accidentally climbing up around the farm machinery. The 37 that are left are what Mr. Parrett is so proud of. He says "It isn't the number that counts as much as their condition." When asked what he attributed this to, he said "To the good start with WHEAT GERM in the fall. I fed it to the ewes 5 days before they were bred, and then 3 weeks afterward. I fed 10 pounds of WHEAT GERM and 50 pounds of oats, and gave them each half a pound a day. This coming fall, I'm going to feed a mixture of 20% wheat germ and 80% whole oats, three weeks ahead of breeding, and then I'll feed one pound a day insted of half a pound."

Buy wheat germ at Hayden Mill and prove its value yourself!

DOWNTOWN FIRE LOSS IS $35,000

HOTEL, BANK AND OTHER BUSINESS PLACES DAMAGED BY BLAZE ON FRIDAY

Fire, the origin of which has not been determined, at 1:30 o'clock last Friday morning damaged the Tecumseh Chief Hotel, the United Savings Bank, McCann's Clothing store, Ann's Beauty Shop and the local post office, and that the company would bill its customers from Tecumseh this month. The local office will be a division headquarters for 16 counties in Michigan and Ohio.

The building in which the Gas service is located is constructed almost entirely of pre-fabricated steel and including gas storage tanks, pressure equipment, etc., cost the company approximately $35,000.

The on y person known to have been injured in the fire was Mrs. Frank Felton, who with her husband was a guest at the hotel. Mrs. Felton made her escape through a window on the second floor, directly above the glass marquee on the Chicago boulevard side of the United bank. Mrs. Felton slipped and fell, one of her legs breaking through the glass. Her leg was cut and she was treated by a local doctor.

John Vedder, 82-year-old resident of the hotel, fled from his room through a window opening onto a roof on the west side of the hotel. He suffered from smoke and shock and was treated by a physician and then removed to Tecumseh Hospital where he rested until Saturday.

The blaze, according to Maynard Mulvany, owenr-operator of the hotel and who was on duty, apparently started in the wood bin basement of the building, directly below the hotel lobby.

Mr. Mulvany was visiting with his guests, including Lester Collier and Wilbur Hanna, former sheriff, and others, who were in the lobby enjoying a game of cards, when smoke was smelled and seen coming through the lobby floor. At first it was believed that the smoke was caused from a motor in a soft-drink cooler and this was disconnected. A few minutes later more smoke was seen and an investigation was started.

Mr. Mulvany went to the door leading to the basement of the hotel and as this was opened smoke poured forth in volumes. The hotel proprietor immediately thought of his guests and visited the several rooms that were occupied, warning occupants that the building was afire and urging them to leave. Others in the lobby assisted him, sought to determine the fire's location and summon the fire department.

"I'd have been all right if I hadn't opened my room door," Mr. Vedder said, "but I smelled smoke and I wanted to see where it was coming from. When I opened my door my room filled with smoke and I had some difficulty dressing and getting out of the window."

Mr. Hanna dashed from the lobby of the hotel to his room in an effort to save some of his clothing. He, too, was caught in the smoke and had some difficulty returning to the first floor.

When local firemen arrived the blaze was confined entirely to the hotel basement and every effort was made to run it under control. That it was a stubborn blaze —the kind that plays hide and seek with firemen—was soon discovered and a call was sent to Clinton for aid. Two pieces of fire apparatus from that village, manned by firemen, soon arrived to assist the local department.

The fire smoke that continued to roll from the basement fire soon filled the the hotel, the postoffice, the banking offices, the beauty shop and McCann's store and firemen feared that the blaze might get further out of control unless more help was obtained. Mayor Karl M. Schneider then called the Adrian department for assistance and the neighboring city sent its $13,000 pumper truck, manned by five firemen, to the town's assistance. The truck made the run in 10 minutes, arriving at 2:20 a. m.

The Adrian pumper hooked its hose to a recently installed six-inch hydrant on Evans street, near the Rossmans store, and soon two more streams of water began playing on the blaze. Tecumseh's two pumper trucks were connected to dry hydrants on North Evans street, and a Clinton pumper connected at a hydrant in front of the Herald office. The other Clinton truck was at the rear of the hotel, battling the blaze with chemicals.

The Adrian firemen, using gas masks, entered the hotel building and played water onto the flames which destroyed the floor in the dining room on the first floor. Other firemen spent their time playing streams of water through windows at the rear of the hotel, into the grated basement windows on Evans street, and through windows of the banking office which had been shattered.

With some 30 firemen on the job the blaze ate its way into the second floor of the hotel, destroyed about one half the floor in the bank's offices, and smoke and water spread to adjoining buildings. It was not until nearly 6:30 that the fire was brought under control, apparatus from Adrian

HOLLOWAY FARM FIRE LOSS $2500

SAWYER HOME DESTROYED; MACON ROOF FIRE AND CLINTON BLAZE KEEP FIREMEN BUSY

The farm home of Clarence Sawyer located one-half mile west of the Holloway school, was completely destroyed by fire of unknown origin Monday morning. The blaze fanned by the high wind was out of control before the arrival of the Adrian and Ridgeway fire trucks. The fire was seen by a passing truck who notified Mr. Sawyer and her daughter-in law, Mrs. Wilson Sawyer, who were in the house and unaware of the danger. Mr. Sawyer and son were working in a field nearby. The house, a two-family home, was occupied by Mr. Sawyer and his son.

Most of the household goods were saved. Two cream separators, six bushels of potatoes were lost and a nearby smoke house was burned. The loss estimated at $2500 was partly covered by insurance.

The Tecumseh fire department was called to the Leonard Rhoades farm on Main Street Sunday at shortly after 6 o'clock, where considerable damage resulted from a roof fire believed to have started from chimney sparks. The Clinton department was also called and neighbors had formed a bucket brigade. One side of the roof was burned and the interior of the house was damaged by water. The loss was covered by insurance.

Two straw stacks, a corn crib, temporary wire corn crib and a quantity of corn at the Floyd O'Dell farm east of Clinton on US-112 were destroyed by fire about 3:30 Sunday afternoon. The cause of the fire is unknown. The blaze was discovered between the strawstacks and corn crib by Mr. and Mrs. Robert Belmore who were moving to the farm and had just finished unloading the last load of goods. The Clinton department was called and passers-by aided Mr. Belmore in removing his cows from the barnyard. Chemicals, a pumper and well-water were used and more water was hauled from Clinton in milk cans. A heavy wind was blowing the prompt work of the firemen prevented any damage to the barn except for some scorched siding. They fought the flames for nearly two hours.

The loss is partly covered by insurance.

Dundee Newspaper Office Damaged By Flames

The newspaper office and equipment of the Dundee Reporter was badly damaged by fire early Friday morning, ruining the large newspaper press, a job press, folder and casting machine. All electric wiring and the electric meter were destroyed and a gas meter in the basement blew up. A ton of newsprint and job stock was also destroyed.

The fire, which started in a pile of dry newspaper mats in the basement, was discovered by Earl Greer. Mrs. Clare Adams, owner of the newspaper and her son Frank, who live on the second floor, were awakened by the smoke about the same time Mr. Greer discovered the fire. They left the building and inside of ten minutes flames enveloped the stairway and would have cut off their escape. The amount of loss has not been estimated.

Architects plans, estimates of construction costs and bidders' contracts for the building of an addition to Tecumseh Hospital will be presented to the village council, Monday evening, when that body considers ways and means of relieving congestion at the institution. The hospital, built by public subscription less than two years ago to accommodate 18 adult patients, has been crowded for months, at times housing as many as 35 patients.

Ray W. Herrick, president of the hospital board, said today that architects plans of the proposed addition have been completed and cost estimates are now being received. He said that the hospital board would hold a special meeting on Friday evening to consider all details preparatory to the council meeting, Monday night.

The hospital closed its books on April 30 with cash in the bank of $1,000 after all bills had been paid and payrolls had been met. A profit statement for the month was being worked out today by R. K. Anderson, treasurer.

If the council deems such action advisable, it may give notice of a special election, at which time voters will be asked to approve a bond issue to care for the hospital enlargement. Such an election, however, could not be held before late June or early July, legal delays for notices of registrations and election being considered.

ROADSIDE INN IS DRY TARGET

LAW WOULD PROHIBIT SALE OF BEVERAGES IN UNINCORPORATED AREAS

LANSING, May 2—Like the old admonition "hang your clothes on a hickory limb but don't go near the water" is the 1940 move of the Michigan Anti-Saloon League.

Hang your hat at the roadside inn, but don't take a drink.

It's the rural roadhouse and tavern, subject to local control of the township board and the county sheriff, which is the target of the Michigan drys' new initiatory petitions, now being circulated in the southern counties of the state.

As a rallying point for temperance forces, the proposed law would prohibit sale of all alcoholic beverages in unincorporated areas. It would end the prevalent "oasis" now thriving in township areas just beyond the limits of many incorporated towns and cities which license the serving of beer and wine but not liquor.

Gov. Luren D. Dickinson was the first person to affix his signature to the petitions. Incidentally, the governor said that R. N. Holcomb, former superintendent of the anti-saloon league and a candidate for Republican nomination for governor, possessed "executive ability" and has been a "good Republican" although most capital observers believe Dickinson will get the party's nomination for re-election.

More efficient collection of state taxes is sought by a legislative study committee headed by Rep. F. Jack Neller, Battle Creek, leader of the "Young Republican" group in the legislature last year.

Here is the picture:

Michigan's taxes are collected today by 14 state departments.

Auditors duplicate time and expense in field trips whereas a centralized system would enable one auditor to check on tax payments for a dozen departments. Furthermore, these employees are apt to be political appointees, unprotected by civil service as to tenure of office. Since "turnover" is high, inefficiency is inevitable.

Since collection of state taxes by 14 departments is unbusinesslike. Representative Neller's committee has contended that it is costing taxpayers between $15,000,000 and $20,000,000 in lost revenue annually. This seems to be an optimistic amount, but experiments by the state tax department have demonstrated that each $1 in cost of additional tax auditors have produced, so far, $10 in additional revenue to the state. Undoubtedly, the state is losing many millions in taxes for no other reason than lack of auditors permits tax claims to go unpaid by time default.

At present the budget director lacks legal powers to curb overspending by a state department.

In fact, a state department may exceed its legislative appropriation (which combined with anticipated revenues form the budget for operating expenses) with impunity. The budget director has or has no weapon other than that of public opinion to see that the department keeps within its allotted appropriation.

For example, a department head wants to add more employees on the payroll or incur new expense which would exhaust his annual budget. The budget director is helpless legally to prevent the ambitious official from exceeding his appropriation. Actually, the director has a powerful weapon in the form of public opinion. What state official cares to defy an economy-minded budget director? Gus Hartman, Michigan's hard-boiled director of the budget, has wisely relied upon newspaper

THIS NUT WEARS A HAT

This is the time of year most of us can derive keen pleasure from going out into the country for a drive during our leisure hours. But there's one thing that usually mars our pleasure—and that is the constant fear of suddenly meeting a "stunt car."

A stunt car is one which appears to be very dextrous in cutting between the car it is passing and the one it is meeting with only inches to spare. Of course, it needs the cooperation of the other two automobiles. They must apply their brakes instantly in order to make the trick possible.

And not all cars can be stunt cars. A stunt car has to be equipped with a special kind of nut—the kind that holds down the accelerator, the horn button and the front seat all at the same time. There is a head on this type of nut, but evidently it is without a purpose, for it is never used. Such a machine would be particularly helpful in war as an instrument of death which works without the aid of the human mind.

Luckily, stunt cars are the exception rather than the rule. Most cars, even though they also are death-dealing machines, are kept under control by intelligent human beings who have a sense of the sacredness of life. A person who drives such a car can prove beyond doubt that he has at least an average intelligence by staying behind the car in front as long as it is risky to try to pass.

KATTY KITTY Says

"You've had that white dress dyed gray, haven't you?"

Expert cleaning removes all trace of dirt from garments, but cleaning with overworked, dirt-logged solvents usually leaves clothes dingy and gray.

Cleaning is an art and a science. We've studied it thoroughly and have adopted every approved cleaning improvement. Send a garment to us tomorrow and see for yourself how perfectly clean it comes back.

He Had Ideas About Doctors

This man owed a big doctor bill. He came into our office and asked for money to pay it. "To my way of thinking," he said, "a doctor is entitled to his money as soon as a patient can pay. I'm grateful to the doctor for what he did for me — and I want to pay his bill promptly." We advanced him the money — and he's paying the loan off in small monthly payments.

NOTICE
Our banking offices, badly damaged as the result of last week's fire, will be rebuilt immediately.
During the time that the rebuilding operations are in progress, our banking offices will be located in the offices of The Tecumseh Finance Company on West Chicago Boulevard — the old Lilley State Bank Building.
The bank's loss as the result of the fire was confined almost entirely to furniture and fixtures, there being no loss to files or papers within the vaults.

DOWNTOWN FIRE

(Continued From Page 1)

and Clinton leaving here about 7 o'clock.

Damage to the hotel was largely confined to the basement and first floor so far as the fire was concerned. The other two floors suffered from smoke and water. The dining room floor burned through and furniture tumbled to the basement. Holes also were burned in the floor of the lobby.

In the bank, the floor in the west half of the office gave way and furniture, files and fixtures tumbled to the basement. John R. Thompson, cashier, entered the bank soon after the fire started and carried out all important papers not inside the time vault. The heavy cement and steel vault, operated by time locks, was undamaged and was opened without difficulty on Friday. None of its contents was damaged.

Practically all of the bank's furniture and fixtures will have to be refinished or replaced as the result of the fire, smoke and water. Mr. Thompson declared, however, that the loss is entirely covered by insurance.

Mr. Mulvany said that his property was protected by $10,000 insurance, but he could not estimate his loss accurately. Adjusters are still at work, he said.

In the McCann store, the loss was due entirely to smoke and water and was heavy. The room was filled with the greasy-yellow smoke and this penetrated into boxes and drawers. The McCann store announced a fire sale, starting tomorrow, and that it would reopen about May 17 with an entirely new stock. This building is owned by E. J. Lowry.

The loss in the beauty shop and the postoffice was due entirely to smoke. Ann's shop announced today that it was reopening with all new supplies. The postoffice opened for business as usual on Friday, but customers did not linger because of the smell of smoke.

The offices of the United Savings bank were moved on Friday morning to the offices of the Tecumseh Finance Co., across the street in the old Lilley bank building. The bank continued business uninterrupted and plans are going forward for the repair and remodeling of the damaged offices.

Mr. Mulvany said that he planned to rebuild the hotel, but when work would start, he could not say.

Mr. Thompson had nothing but praise for the efforts of the firemen who fought the blaze.

"Tecumseh firemen did a good job, the best job that it was possible for them to do, but it's a good thing that we had help," the banker said.

"I am satisfied that Tecumseh could not have controlled the fire alone, and I don't think that Clinton and Tecumseh together could have done it. In my opinion it was the Adrian firemen, with the aid of the big pumper, that made it possible to subdue the blaze.

"We are indeed grateful to all of the firemen, but we want to especially thank Clinton and Adrian for their efforts. It wasn't their fire—they were good neighbors. Clinton sent its firemen and all the equipment it had to our assistance. Adrian sent its best equipment, its largest pumper, and five firemen. Without this help, I'm sure that a very different story would have been written, because I doubt if the blaze could have been controlled until it had eaten its way through several more stores, if not the entire business block."

headlines to keep spending officials in line.

He has also intimated to friends that the legislature should prohibit departments from exceeding their appropriations and should hold department heads liable to prosecution for failure to keep within their financial allotments.

The legislative committee concurs in this recommendation which is held essential if state government is ever to achieve a pay-as-you-go basis.

The sales tax trouble in Detroit is a timely illustration of how the present system lacks business efficiency, it is pointed out.

For example, the Detroit and Lansing sales tax offices have been dual setups, each managed independently of each other. Political appointees were the rule rather than the exception. For several years, regardless of the administration in power, the Detroit office has been deficient in number of auditors; tax claims have accumulated to an appalling extent.

At the urgent request of Walter Reddy, sales tax administrator, Budget Director Hartman has repeatedly increased appropriation for hiring of more auditors to investigate contests and collect the unpaid taxes.

At the attorney general's office it was announced recently that accounts due for payment totaled 17,000. On March 1 the uncollected claims totaled $6,950,000.

Hence the need, so the legislative committee concludes, of a centralized tax collection department, well manned with competent auditors. Other members of this legislative group are Senators George P. McCallum, Ann Arbor, and D. Hale Brake of Stanton, and Reps. James B. Stanley of Kalamazoo and Robert N. Sawyer of Monroe. To reinforce such a centralized office, the auditor general's office would audit the books of all departments.

A virtual breakdown in the collection of the sales tax is a possibility in the future, however small it may appear today, unless the state can give protection to merchants that the tax is being collected efficiently and without favor.

Retail druggists have indicated to the Michigan Retail Druggists' association that they are prepared to collect the tax, but they do demand protection from 'chiseling competitors" who pay no tax.

Efficient collection of this and all other state taxes would go a long ways in appeasing the taxpayers, if the legislative committee's recommendations have the merit they appear to have.

School Notes

Girl Scouts

Our Girl Scout meeting began with a circle. Dorothy Jean Brandt and Geraldine Daniels were chosen to be the flag-bearers, and Wilma Hoagland and Marian Hastings were the color-bearers. First we saluted the flag and then repeated our promise and laws and took inspection.

The older Scouts went into a separate room to work on first aid, while the younger group also worked on first aid but in a room of their own. The meeting was entirely devoted to passing first aid tests. After several tests were passed, we all met in the same room to sing a few songs before closing.

Our Girl Scout meeting today began with a circle. The flag-bearers were Margaret Jack and Wilma Hoagland. The color-bearers were Donna Sweet and Nancy Tingley. We again separated into two groups, going into different rooms after the attendance and dues were taken by the patrol leaders. Some of the older girls laid a trail with stones for the younger group to follow. After following the trail successfully back to the schoolhouse we gathered together or our good night circle.

Margaret Jack, reporter.

Our meeting Monday began by forming a horseshoe. The flag bearers were Mary Lou Carlson and Maureen McLain. The color bearers were Jane Hoskins and Lenore Mohr. We first saluted the flag and sang "God Bless America." Then we repeated our promise and laws. The patrol leaders took inspection and with few exceptions we were all judged pretty good.

We again divided into two groups for our first aid work. The older group is working on first class first aid and the girls of the second group on second class work. Following this we re-assembled for the closing exercises.

Sixth Grade
Mrs. Smith, Teacher

Marda Gene Duncan was yard monitor for this week but has been out of school for the past three days.

Today we finished the all-over patterns that we started last art period. Albert Hall drew a streamlined boat on our blackboard for art.

Last week the entire room got another one hundred per cent in spelling.

Barbara Humble and Marjorie Wickwire finished our sugar chart for use in health.

In gym the boys have been having a tournament with marbles, and the girls have been having a hop-scotch tournament.

Room helpers are Dermont Poley, Freddie Ward, and Richard Watkins.

Reporters: Lenore Mohr and Martha Jane Kempf.

This afternoon we had our final examination in History. It wasn't very hard, Mrs Smith said that she could not make it any easier for us.

Marjorie Wickwire brought in a colorful map of the Scandinavian Countries because we have been studying about it in Geography.

The lawn Monitor for this week is Marvin Barber. Mrs Smith has decided that our lawn monitor has worked out very well and is continuing it.

The boys on safety patrol are Roy Sharp, Bobby Randall, Bob Teske, Richard Watkins, and Lee Clark.

Room helpers for this week are Nadine Covell and Lois Covell.

Reporters are Lenore Mohr and Martha Jane Kempf.

Albert Hall has drawn a streamline train on the board for the class.

On Friday we had a geography test, which some of us thought was quite easy. In spelling we had a spell-down. Dermont Poley was the winner, Mrs Smith quizzed us on Health.

Albert Hall is drawing pictures of various means of transportation on the blackboard.

Barbara Humble completed our sugar chart. It consists of samples of powdered sugar, cane sugar, brown sugar, maple syrup, saccharin, honey and beet sugar.

Marjorie Wickwire and Barbara Humble made a ball and flag chart.

In spelling the first row has nine A's, the second row has eight, the third row has ten, which is the highest, the fourth row as five A's, and the fifth row has eight A's.

Room helpers for this week are Nadine Covell and Patricia Smith.

Reporters: Lenore Mohr and Patricia Smith.

Fourth and Fifth Grades
Mrs. Pfaus, Teacher

In fourth grade geography class we have traveled from the Netherlands to the Paris Basin in France where Andre' lives. We find his country much like our own.

Mrs Pfaus is reading "The Secret Garden" to us, and we think it is about the most interesting story we've ever heard.

We are studying communication in our social studies. Several of the children have brought their telegraph sets. Some of them can send and receive messages.

Now that spring is really here, we have started to have more nature study. Some of us have chosen birds and some, trees, while others are making a special study of plants.

In music class we made a 100-piece orchestra, which we arranged in the display case. The players are made of pipe cleaners and the instruments of paper.

Fourth Grade
M ss Kline, Teacher

We are visiting Andre', a little French boy, who lives not far from the city of Paris. Paris, with its cathedrals, museums, factories, and important shops, is a very interesting city. We enjoyed finding out why Paris is such a busy city.

In music class our room made little people out of clothespins and dressed them up as a choir. They are displayed in the show case in the hall.

We had a visitor from Adrian this week. June Campbell, who used to live here, came to see us. We were glad to have her.

We read about salamanders and horned toads in our science class this week. A salamander is somewhat like a lizard. It has a smooth skin, and it hibernates in the winter. A horned toad lives on the desert and is different from a real toad in that it has scales and can turn its head.

Jack Collins and Robert Irwin were room helpers this week.

Second Grade - West Branch
Miss La Pointe, Teacher

Dolores Burton is now attending the Crary School in Detroit and Martha Seger is enrolled in the second grade at Milan.

The following pupils made a score of 30 or more in a reading comprehension test (a perfect score was 40): Norman Feiger, 39; Gerald Van Valkenburg, 39; Martha Seger, 38; Jimmie Weller, 38; Dolores Burton,38; Nerissa Strand, 38; Shirley Teske, 38; Howard Adams, 37; Joan Buehrer, 37; Alice Osburn, 36; Joyce Lloyd, 35; Greta Underwood, 34; Florence Barnes, 34; Gordon Keyser, 33; Willis McKenzie, 32; Lenore McGehee, 31; Donald Rogers, 31; Sally Brown, 30; Marian Cook,30.

Shirley Teske has returned to school after a five weeks' absence due to illness.

Willis McKenzie brought two young kids to school. It was the first time many of us had ever seen a baby goat. Jimmie Weller brought his two tiny turtles. Their names are Tarzan and Gene Autrey. Norman Feiger added to our list of nature subjects by bringing a live bat.

We are learning how to measure various objects with a ruler. Some members of the class have become very accurate in estimating lengths.

First Grade — West Branch
Miss Smith, Teacher

It is good to have all the members of our first grade back again. Several were absent for a long period of time because of illness. We hope to continue the good attendance record of the past few days for the remainder of the school year.

Our store is doing excellent business. The entire stock of tablets, crayons, pencils, and colorbooks were sold in one day. Owen Campbell has been the store keeper. We shall change every week. The storekeeper keeps a record of all the sales, and he also looks after the money.

We have started a new unit, "The Story of Milk," and we plan to visit the Tecumseh Dairy. We shall illustrate the story in miniature style.

Kindergarten - West Branch
Mrs. Updyke, Teacher

Our kindergarten circus program was held Friday evening, April 12, in the high school auditorium. On Wednesday we had our pictures taken in our circus costumes.

We have all of our toys finished now and will display them at our program. In our Pre-Primer reading we have read about a play house, so we are making one, too. We are getting the curtains up this week and having a good time playing in the house.

Mr. Mead's Classes

The eighth grade American History Class has just completed its study of the "Civil War." They are now interesting themselves in the American Industrial and Scientific improvements which have been made in the U. S. since the Civil War.

The World History Class is studying Social and Industrial improvements which have been brought about in the world during the 19th and 20th centuries. Last Friday the class enjoyed musical selections played on the victrola by such great composers as Dvorak, Tschaikowsky, Grieg, and George Gershwin.

Visits Courthouse

One of the classes in Citizenship visited the Adrian courthouse last week to witness a case which was scheduled to be tried before Judge Rathbun. The case was, however, settled out of court and our group, therefore, had to be contented with a description of the details of court procedure by the judge.

We also visited the law library of Judge Rathbun; the session of the Board of Supervisors; the Probate and Juvenile Courtrooms; the County Clerk's office, and the Driver's License Bureau.

Even though we were disappointed in not seeing a court in session, we saw many other departments which we would not have been able to see had we been in the court room, and we feel that our trip was both educational and interesting.

Reporter, Genevieve Dobek.

Display Case

The display case this week contains an interesting exhibit which was made cooperatively by the fourth and fifth grades under the direction of Mrs. Pfaus, Miss Kline and Miss Humphrey.

The project is related to the field of Music and represents the outcome of a correlation between Music and Art in the grades. While the music classes devoted their time to a study of the organization and instrumentation of vocal and instrumental groups such as the chorus, and symphony orchestra, the art children devoted their time in art to the construction of models of those organizations. As a result we have in the case this week a complete miniature symphony orchestra completely instrumental and properly arranged on the concert stage. The musicians are made out of pipe cleaners and clay and are dressed in black crepe paper costumes. The instruments are made out of a number of construction mediums regularly used in Art.

There is also a complete miniature choir made of clothes pins and pipe cleaners. The singers are dressed in blue gowns with white capes which are also made out of crepe paper.

Other groups which are represented are a mixed quartet, a women's trio, a male quartet, and a solo singer who has been placed separately next to a miniature piano which was made by Ben Hammack and Irving Shaw.

Other interesting features of the display are the decorative window serving as a background which was made out of bright cellophane paper by "Sonny" Walldron. Several pictures of famous artists and symphony groups and interesting papers on the lives of some of the famous musicians by Nadine Covell, Jeanette Goodacre, Marcia Hewlett, Dorothy Higgins, Barbara Humble and Marjorie Wickwire.

The display has been judged the most interesting to date by many of the pupils.

Reporter, Ethel Cook.

Gym Classes

The eighth grade girls gym class has started to play baseball. The ninth and tenth grade girls have started on tennis.

The boys and girls of the grades have started marbles and hopscotch. The boys are having a marble tournament and the girls are having a hop-scotch tournament.

Betty Holdridge, Reporter.

Chapel Program

Chapel Monday morning was opened by a song we all knew, "The Star Spangled Banner." We enjoyed Rev. Mr. McGehee as the speaker. The subject of his talk was "Thinking." He told us about one of his professors who had once said, "Think wrongly if you must, but think." These words he has always remembered. We all hope that the students of the Tecumseh high school will remember them in years to come.

Mr McGehee gave Thomas Edison as an exaple of a man who didn't stop because people laughed at him but he just kept on thinking with the result that he was able to make many fine contributions to the world.

Reporter, Jacquelynn Bowers.

We opened chapel, this bright Monday morning by singing "America, the Beautiful."

The speaker this morning was Reverend Robinson, who gave us a fine talk on living, after reading the fifth chapter of Genesis. In previous days, he said, men lived to be very old; some were 300 years old and others were still older. In the time recorded in Genesis one man lived to be 969 years old.

Rev. Robinson made it clear to us that we were to have not only length to our lives but also breadth. He added that we must have more than length or breadth —we must have a good foundation.

Chapel services ended with a prayer.

We want to thank Rev. Robinson for taking part in our Monday morning chapel exercises.

Ethel Cook, Reporter.

We have a very interesting showcase this week, the display having been arranged by the Industrial Arts class.

In the center of the show-case is a stand with a hammered copper plate on it. There are some other copper and brass articles. At one end are some lamps and some very nice wooden bowls. Then there are attractive ash trays made of lead.

At the other end of the showcase there are two lamps and two small electric toasters which the boys made. Near the center are some very original book-ends.

The display shows the fine and useful work which the Industrial Arts classes are doing. It is an interesting display.

Reporter, Mary Jane Smith.

Fifth Grade
Miss Starr, Teacher

On our bulletin board we have pictures of spring. They were arranged by Colleen Davidson.

In history we are studying about Stephen Collins Foster, Theodore Thomas, Edward MacDowell, and Damrosch family. We find the lives of these men very interesting. In music we sing the songs of Stephen Collins Foster.

In geography we are studying the possessions of the United States. We are learning about Alaska, the Hawaiian Islands, the Philippine Islands, the Panama Canal and Porto Rico.

The girls in gym are having a hop-scotch tournament; the boys are having a marble tournament.

This week we had our six weeks' spelling test.

In science we are going to study about shells and bark.

The room helpers are Gordon Pearson, Louise Wilson, and Gwendolyn Watson.

Reporters: Jean Leonard and Gordon Pearson.

Third Grade - East Branch
Mrs. Truesdale, Teacher

We are watching and listening for signs of spring. Marbles, roller skates and bicycles are in prominence at school, and on a recent walk we observed many more signs. We decided to call April the "Wake Up Month" because we found buds opening, pussy willows peeping from their buds, birds returning and flowers growing. We have a weather chart on which the temperature, direction of the wind, and state of the sky are recorded. Each day we write one interesting observation that has been made and add it to our Nature News Bulletin.

After reading the story of Joseph we decided to illustrate it. We are making four large pictures which will later form a frieze above our blackboard. The pictures will show Joseph in his beautiful coat, Joseph sold as a slave, Joseph becoming a ruler and Joseph forgiving his brothers.

Home Economics

The Home Economics department enjoyed a visit last week from Miss Alba Lyster, assistant state supervisor of Home Economics.

The exchange units between the Home Economics department and the Manual Arts department proved very interesting and satisfactory. The boy's class entertained the men of the faculty at a luncheon which they planned, prepared, and served, themselves. They did a very good job — at least everybody seemed to think so and nobody "passed out" as a result.

The clothing laboratory looks like a dress maker's shop these days. The eighth, ninth, and tenth grade girls are making dresses and the seventh grade girls are making shorts. These garments will be worn in the style show which is to be given on May 16.

The home-making room is the scene of many different activities. The Seniors used it as a work-room for the Annual, and now the costumes for the operetta are being made there.

HEN IS REAL LAYER

ST. JOHNS (MPA) — Mrs Edith Feazle has a pullet that should make a record in the egg-laying world. Its first egg measured 7¾ inches around the middle and was 9 inches in circumference the "long" way. A few days later, it produced a double egg, almost as large as the first.

HEN BOOSTS PRODUCTION

HOWELL (MPA)—A Barred Rock pullet owned by F. J. Hardman recently laid an egg within an egg, both fully formed. The outer shell measured 7 1-2 inches around the middle and 3 1-4 inches long. Inside was the usual yolk and white, and an egg of ordinary size, complete with shell.

BOYS ARE LUCKY

HASTINGS (MPA)—When a car in which five young men were riding plunged over an unbridged embankment near here, it took three wreckers and a truck to extricate the car from the river in which it fell. The boys got out of the car uninjured, although water was five feet deep in the river.

"MAILS" $10 BILL

DOG IS LOYAL

ATLANTA (MPA) — John Mulholland's dog, which is kept tied in the yard, has found a real friend. Each day a spaniel visits the leashed dog to play with him and bring him bones. Sometimes the spaniel will bring a large bone to his tied-up friend, then stand guard so no other dog can get it.

A man was charged with shooting a number of pigeons, the property of a farmer. Counsel for the defense tried to frighten the farmer.

"Now," he remarked, "are you prepared to swear that this man shot your pigeons?"

"I didn't say he did shoot 'em," was the reply, "I said I suspected him of doing it."

"Ah! Now we're coming to it. What made you suspect this man?"

"Well, firstly, I caught him on my land wi' a gun. Secondly, I heard a gun go off and saw some pigeons fall. Thirdly, I found four o' my pigeons in his pocket—and I don't think them birds flew there and committed suicide."

ASK BOND ISSUE TO AID HOSPITAL

$25,000 ISSUE TO BE SUBMITTED TO ELECTORS AT POLLS, JUNE 11

A $25,000 bond issue, the money to be used in the building of an addition to Tecumseh Hospital, nearly doubling its size, will be submitted to the voters here at a special election on Tuesday, June 11, the village council decided at its regular meeting, Monday evening. The council's action in declaring the addition expedient and calling the special election was unanimous. Any person owning property that is assessed by Tecumseh village for taxes, or the husband or wife of such person, is eligible to vote at the special election.

Ray W. Herrick, president of the hospital board, through a firm of Detroit architects, submitted blue prints, plans, proposals and bids for the hospital addition to the council, Monday evening. Bids showed that the addition could be completed at a cost of $25,780.

Mr. Herrick told the council that while the board had been conservative in its estimates, he believed it would be possible for the work to be accomplished at from $1,000 to $2,000 less than was anticipated. He declared, however, that he believed the issue should be large enough to care for every need, and that if a saving could be effected, it would be done. If the board finds such a saving at the conclusion of the building, the bonds will immediately be redeemed.

"I don't want to say that we can do it for $22,000 and then find that we are short and can't finish the work," Mr. Herrick said. "We'll save all that we can, and I'm sure that we won't spend all of the $25,000."

Mr. Herrick also told the council that he had a plan whereby the new hospital addition can be equipped and opened to the public without any cost in addition to the $25,000.

Tecumseh Hospital was opened to the public during the last part of May, two years ago, and was intended to care for 15 adult patients and six infants. During the two years it has operated its popularity has grown by leaps and bounds and at times as many as 35 patients have been in the institution. Halls have been made into wards, private rooms into wards and still the hospital has been too small to accommodate the demand.

The new addition to the building will nearly double the hospital's capacity, assure patients' ability to obtain private rooms, and otherwise add to the hospital's service. The kitchen will be removed from the basement to the first floor, and a special maternity ward and obstetrical room will be provided.

Although hospitals throughout the country have found it difficult to operate successfully, financially, Tecumseh Hospital has made a neat profit during the two years it has operated. On May 1, the institution had a cash balance of nearly $2,000, and accounts payable of more than $2,000. This is in addition to monthly write-offs for depreciation, and the expenditure of $568 for sound-proofing materials, installed during the past year.

The hospital board is firmly of the opinion that the institution can be operated with sufficient profit during the years to come to guarantee the retirement of the bond issue without expense to the taxpayers. The hospital proposes to meet the interest payments monthly, and to retire the bonds at the rate of $1,000 to $2,000 annually.

Clinton Bond Issue Is Carried By Easy Margin

A proposal to bond the village of Clinton for $40,000, this sum and an additional $2,000 to be joined with WPA federal funds to construct a $170,000 sewage system and disposal plant, was carried by an easy margin at a special election in the neighboring village, Tuesday. The vote was 192 in favor of the project and 41 opposing it.

The proposal to amend the village charter to provide for the bond issue carried by a 217 to 50 vote. It was necessary to amend the charter to make the bond issue legal.

Work on the sewage system and disposal plant is expected to begin during the early summer, all plans and specifications having been approved by the state and federal governments.

PRODUCTS FIRE DAMAGE $3,500

TECUMSEH GRAVEL PIT BUILDINGS DESTROYED IN ANOTHER BLAZE

Two fires here within the past week caused damage to two of Tecumseh's industrial plants.

A blaze in the experimental laboratory of the Tecumseh Products Company at 1:50 o'clock Friday morning did damage estimated at $3,500. The loss is entirely covered by insurance. The blaze did not delay the company's production and R. W. Herrick, president, said today that repair work is progressing rapidly and that the laboratory would again be in operation not later than next Tuesday.

The laboratory is housed in a room 30 by 100 feet, and the blaze is believed to have started from an explosion in a dehydrating oven. No one was in the laboratory at the time, but men were at work in other parts of the factory.

The local fire department responded to the alarm, taking both the village and rural trucks to the scene of the blaze, which was quickly brought under control.

The second fire was discovered at 3:15 o'clock last Saturday morning in a building 26 by 30 feet at the Tecumseh Gravel Company's pit, about a mile and a half southwest of here. How this fire started is a mystery.

The building, which housed a 100-horsepower Diesel engine, tools, and a truck was completely destroyed, as was two tool sheds.

A farmer living near the pit discovered the blaze and notified the local fire department.

Officials of the gravel company said they could not accurately estimate the loss until a further check-up had been made. There was no insurance. The company is owned by W. F. Fisher, Mrs. W. H. Harper, Mrs. Frank Haller and C. C. Richard, all of Tecumseh.

OFFICERS ARE CHOSEN BY WIT-WISDOM CLUB

Mrs. H. E. Whelan entertained the Wit & Wisdom Club Monday evening at her home on West Chicago Boulevard. During the business session the report of the nominating committee was given and all officers re-elected with the exception of the secretary. Mrs. A. C. Brazee was elected to this office to succeed Mrs. E. A. Collins.

Grover Swartz of Tipton presented the program giving an interesting travelogue of his trip through the New England states and New York. Refreshments were served in conclusion.

The annual banquet of the club will be held Monday evening, May 13, at the Methodist church.

WED IN ANGOLA

Mr. and Mrs. James A. Davis of Ann Arbor are announcing the marriage of their daughter Nila May, and George T. Keech, which took place December 29, 1939, at the Methodist parsonage in Angola, Ind. The ceremony was performed by Rev. N. E. Smith. The bride is a sophomore at the University and a member of Kappa Phi Methodist sorority. Mr. Keech is the son of J. T. Keech of Netcong, N. J., and is a junior student. They are residing in Ann Arbor.

Mr. and Mrs. Davis are former residents of Tecumseh, Mrs. Davis being a daughter of the late Mr. and Mrs. P. C. Snell and a sister of Mrs. Franc Gillespie.

GRANGE MEETS TONIGHT

Tecumseh Grange will meet in regular session this evening at the Garnge hall north east of town. The program will be in charge of Mr. and Mrs. Don Parrett, Herbert Cleveland and Lyle Grigg and refreshments of cookies and fruit jello will be served by Mr. and Mrs E. J. Aebersold and Mr. and Mrs. Jos. O'Pravil.

TECUMSEH'S FIRE COST IS HEAVY

EIGHT FIRES SINCE APRIL 15 COST $611, COUNCIL IS ADVISED

It costs real money to fight fires, to say nothing of the loss to property, the village council learned on Monday evening when it listened to a report from William Beardsley, chairman of the fire committee.

Since April 15, Mr. Beardsley said, the local department has answered eight alarms, including the blaze on the morning of April 26 that did approximately $35,000 damage to the Chief Hotel and the United Savings Bank buildings. The eight fires, Mr. Beardsley told the council, cost the village $611 for labor, no mention being made of the expense of operating equipment.

Albert Bagshaw, waterworks engineer, declared that on the hotel-bank fire the fire department used approximately 750,000 gallons of water. He said that at no time was their a shortage of water, and that the standpipe, which holds 166,000 gallons, remained constant throughout the blaze. Pressure at both the east and west wells did not drop, he said.

The blaze was one of the most stubborn ever fought by the local department. Tecumseh firemen went on the job about 1:30 in the morning and battled the blaze alone until help arrived from Clinton and Adrian. The three departments, numbering about 30 men and five pieces of apparatus, battled the flames until after six o'clock. State fire inspectors who have visited the scene since the blaze have been high in their praise of the department's work, declaring that Tecumseh did an excellent job in controlling the flames until assistance arrived.

A fire inspection of the downtown district by state and local officers, as the result of the hotel-bank fire, is now in progress. All buildings are being inspected and owners of downtown property have been ordered to place screens under grates in the sidewalks, leading to basement windows.

Merchants Offer Special Values

Co-operative Sales Event Will Be Staged Here Two Days Next Week, May 17 - 18

$200 SET UP IN PRIZES; TWO BAND CONCERTS DAILY

Practically Every Store Will Join in Special Bargain Giving Plan, Saving Shoppers Hundreds of Dollars on Rural Days

Rural Days—sponsored by the Tecumseh Chamber of Commerce with Tecumseh merchants cooperating — and designed to save shoppers hundreds of dollars through bargain buying, will be staged here next week Friday and Saturday, May 17-18.

Practically every store and business house in Tecumseh has joined in the bargain-giving event. There will be bargains, hundreds of them, the Chamber has announced, in every line of merchandising. Nothing has been left undone to make the two days the greatest bargain-giving days in Tecumseh's history.

The Rural Days this year are a repetition of the event staged here just 10 years ago, and which attracted hundreds of shoppers to Tecumseh. In addition, however, the Chamber will offer $200 worth of prizes, these the gift of Ray W. Herrick, president of the Tecumseh Products Company. A list of the prizes, and for what they are offered, will appear in next week's issue of The Herald.

"We expect to attract shoppers from all sections of Lenawee county, as well as from Jackson, Washtenaw and Monroe counties," Wade L. Jones, secretary of the Chamber, said today. "There is no question in my mind but that the bargains that will be offered by the merchants here next week Friday and Saturday will be without comparison. Every merchant cooperating in this bargain-giving event has expressed his willingness to make the bargains real bargains, and special buying on the part of merchants has made possible some very attractive prices."

The special Rural Day bargain advertising will be made public next week Thursday when The Herald will publish a 20-page edition containing the "Buy and Save" prices. Thousands of these newspapers will be mailed and distributed throughout Tecumseh's trading territory. They will serve as a shopping guide for the hundreds who will take advantage of Tecumseh's second Rural Days. Stores will remain open until 10 o'clock in the evenings of both days.

The bargain selling will begin here next week Friday morning and on Friday afternoon, between three and four o'clock, and again in the evening, between 7:30 and 8:30, there will be concerts by the Tecumseh High School Band. These concerts will be repeated again on Saturday. Prizes will be awarded on both days.

A special invitation to rural residents to attend Tecumseh's Rural Days will be extended by a group of about 50 local business and professional men who on Thursday of next week will leave their stores and offices and go into the country and call on the residents in this territory. This will be an all-day excursion with the local men visiting in hundreds of homes.

HIS TURN TO SPEAK

The advent of spring not only brings forth the poet and some sentiment but it also stirs the heart of the politician.

This will be a great year for those who seek the favor of the voters. There will be a national election, a state campaign and many county officers will seek election.

For once the voters will be sought after.

Their opinion will be expressed with a bang and a vengeance this year.

Wait and see.

HE WHO LAUGHS . . LAST

During the dark days of the Civil War, when boys from both sides were dying by the thousands on the battlefield, Lincoln took time to begin his cabinet meetings by reading a few passages from a current book by Artemus Ward, one of the leading humorists of that time. One of the cabinet members reproached the great man, asking: "Mr. Lincoln, how can you laugh at such a time?" Lincoln replied: " If I could not laugh my heart would break!"—Friendly Adventurer.

ANTIQUES

We moderns are inconsistent in very many ways, and never more so than when we deny this very accusation.

For instance, we search the land for old furniture, china, and glassware for which we pay prices far in excess of value.

There is slavery to style—we discard beautiful costumes because they are old, artistic draperies and floor coverings, all possessing real utility value, because we must keep up with the Joneses.

Worse than all this, we supplant customs that are refined with practices that are really vulgar in order to be modern.

The trouble is we are superficial concerning our modern ideas and ideals as much as we are about what was artistic in former days.

School Notes

Our Trip To Court

On May 1st the fourth hour Freshman Civics class visited the Lenawee Circuit Court in Adrian.

The case was a lawsuit brought by Bernard L. McAdams and his fifty-eight-year-old son, Wilfred, to recover damages for injuries suffered in an automobile accident about 12 o'clock the night of August 27, at Round Lake.

Mr. McAdams was suing Mrs Hanna of Adrian, alleging that Mrs Hanna's 16-year-old son, Richard, was negligent when the car he was driving left the highway and plunged into an embankment throwing Wilfred off the running board. Wilfred's father's testimony consisted largely of an account of the cost of his son's medical care.

Other witnesses were Neil Schuhl of Toledo, Donald Collins, Tom Utt, and Jack Bailey.

A motion to dismiss the case was made by the defendant's attorney on the ground that gross negligence was not shown in the proof. The case was dismissed.

Major Bird represented Mr McAdams, and C. W. Baldwin represented Mrs Hanna.

STANDARD OIL INCREASES ITS NEWSPAPER ADVERTISING

Standard Oil Company of Indiana will increase its advertising budget for 1940 and place nearly 75 per cent of it in newspapers. Advertisements now starring state that Red Crown gasoline is the 2-to-1 favorite of midwestern motorists, J. B. Murphy, Tecumseh Standard agent, announced today.

A total of 1,713 newspapers with a combined circulation of about 14,000,000 will carry the advertising in 13 states in the middlewest in which the company markets. This includes 492 daily papers, and 1,221 weekly papers, of which the Herald is one.

"Newspaper advertising will be the backbone of the Standard campaign, because everybody buys gasoline and oil—and everybody reads newspapers," Mr. Murphy said. "Newspapers are read everywhere—on the farm, in the office, in the factory and at home. They have a chance to do their selling in all sorts of places at all times of the day — a silent force, constantly at work," he explained.

"It's 2 to 1 for Red Crown" will be the theme of the Standard spring and summer advertising campaign for gasoline which begins today. Large illustrations with comparatively little copy will explain the 2-to-1 sales leadership of Red Crown over all other gasolines.

The will also be newspaper advertising featuring the fact that Standard's Iso-Vis motor oil is the favorite among midwestern motorists.

TREES GO; SO DOES FARM

LELAND (MPA)—Sixteen years ago Mr and Mrs Ole Olson planted two spruce trees on their farm near here. When she died 12 years ago, Mrs Olson asked her husband to care for the trees. Later he moved to Ludington, but refused to sell the farm, making frequent trips to it to carry out his wife's last wishes. When, on such a trip this winter, he found only roughly chopped stumps of the two trees, he sold the farm.

FARMS PROSPER AS CROPS GAIN

44 OF STATE'S LEADING CROPS SHOW GAIN, DUE TO BETTER MANAGEMENT

LANSING, May 9—It's a giddy merry-go-round!

First, Michigan farmers are given instructions in better crop methods and better soil management practices. They are told to turn under green crops for manure, keep soils covered in winter with legumes and winter wheat and winter rye, keep hillsides and knobs covered all seasons in order to lessen erosion and conserve fertility, and increase acreage production through the use of fertilizers and select seeds.

Result: Forty-four of Michigan's leading crops showed a better average ranking in 1939 than they did in 1938. While losses occurred in national rankings for acreages, there were actual gains in national rankings for production—and that meant growing more food on less land.

Top rating was achieved nationally by cherries, late strawberries, late celery, field beans, peppermint and spearmint, and cucumbers for pickles.

Peach output moved from eleventh to fifth place; alfalfa seed, tenth to fourth.

Second, agricultural production under stimulation of better practices has resulted in an increasing surplus.

That's where the state department of agriculture enters the picture with its program to inspect and grade Michigan food products, to educate the consumer to the superiority of Michigan products through advertising and thus to absorb any surplus without resorting to ruinous low prices which would be below cost of production.

Another government agency which is helping to move surplus farm production is the Surplus Commodities Corporation, a federal organization. Supplementing the state relief allocations of the state welfare commission to county welfare commissions are federal allowances of surplus food commodities.

The Surplus Commodities corporation also enters the Michigan market and buys carloads of surplus food for shipment to other states for supplemental relief use.

A third activity of this corporation is now in operation at Grand Rapids where food stamps are available to persons on relief for purchase of designated surplus commodities in lieu of direct distribution of these commodities from food depots. Persons who receive orange stamps for purchase of food also receive free 50 per cent more in blue stamps which can be used only for purchase of surplus commodities.

It is another subsidy, of course, financed by the federal government to help both the needy and the farmer.

So far, the food subsidy scheme has had an amazing degree of popularity.

The advance in farming has brought revolutionary changes.

Mechanization has forced more than 1,000,000 farmers to leave American farms in a recent period, according to Dr. Alexander, head of the Farm Security administration. (Recall the exodus in "Grapes of Wrath"?)

Yields of corn in the ten corn belt states were, in the years 1936 to 1939, 22.8 per cent above the 1929-33 average.

Yields of cotton lint are 35 per cent greater per acre today than they were 10 years ago.

According to the secretary of agriculture, "One hundred and fifty years ago it required 19 people living on the land to support themselves, and 1 person in town. Today 1 person on the land supports himself, 3 people in town, and 1 overseas."

And yet, if government statistics are to be believed, farmers comprise 25 per cent of our total population, yet they receive only 11 per cent of the national income. With a European war shutting off part of normal exports of food overseas, the surplus problem together with the lack of farm industry parity prompted the United States senate recently to appropriate $85,000,000 for food stamp subsidy as part of a $951,834,000 appropriation for farmers through parity payments (212 millions), soil conservation checks (438 millions) and so on.

That civil service may become an issue in the 1940 state campaign was previously indicated by Democratic leaders who defended the Murphy civil service act and deplored the Republicans' revision of this act.

Another straw in the wind is seen in the action by the Michigan Merit System association which took a first formal step last week to write civil service principles into the state constitution itself.

If 105,000 signatures are obtained to petitions, Michigan voters will have the opportunity in November to approve or reject an amendment creating a non-salaried, bipartisan civil service commission of four members each appointed by the governor for eight-year terms and automatically assessing 1 per cent of the state's aggregate payroll for personnel administration.

Whereas approximately one-half of the state's salaried workers were removed from civil service classifications by the 1939 legislative act, the proposed amendment would permit only two exempt positions "for elected administrative officer and each department, board and commission."

At the annual convention of the Michigan Retail Grocers and Meat Dealers association at Lansing, Attorney-General Thomas Read declared that the time has come when Michigan citizens must choose between economy through elimination of "some of the less essential state functions" or increased taxes to pay for "more from your state government."

Read echoed statements made by Governor Dickinson when he said that pressure groups who "browbeat legislators for special favors" were responsible for further centralization of power at Lansing.

Retail grocers and meat dealers voted to support the food stamp plan, referred to earlier in this column.

Gains by independent retailers were shown last month in reports to the federal department of commerce from 22,988 independent stores in thirty-four states indicating that sales in March were 23 per cent above those in February, 1940, and 6 1-3 per cent greater than in March, 1939. The number of independent stores increased 190,000 between 1929 and 1935.

"ADVERTISING MOVES MY GOODS MUCH FASTER"
Says Merchant*

"Advertising Helps Turnover and Keeps Prices Down . . ."

"When I say advertising moves my goods faster, I mean the advertising done by the manufacturers of those goods. Nationally advertised products are in demand, and they're in demand because, generally, their quality is uniformly better and more reliable than products that are not so advertised. In addition, for goods of comparable quality, I think nationally advertised goods are priced as low or lower than others . . . My business depends upon turnover. My earnings, and profit if any, do not come from making a large profit margin on each item, but from selling goods fast, even if the profit margin is relatively low. If I turn my stock over twenty times a year at a low profit each time, I am better off than I would be if I turned it over only ten times a year at a higher profit . . . If manufacturers did not advertise their goods so well, then I would have to advertise more, because people do not like to buy things of uncertain quality—and I would probably have to get more for what I sell. As it is, my advertising only consists of listing the names of products and the prices . . . My costs of business are relatively lower. I can sell for less, and make more money by handling advertised goods."

YOUNG BLOOD IS REPUBLICAN NEED

PHILOSOPHY APPLIES NOT ONLY IN THE NATION BUT IN STATE, THOMPSON SAYS

LANSING, May 9—"The Republican party must enlist the interest and support of young voters if it is to win the next election," James Thomson, chairman of the Republican State Central committee, was referring primarily to the national ticket. But the same philosophy, he said, would apply to Michigan in 1940.

A hard-headed, practical farmer who was weaned in politics on upstate rural campaigns, Thomson has no apprehension about the outcome of the 1940 campaign in this state. He feels that voters are growing more disillusioned about the national administration, as evidenced by the present level of unemployment at between ten and twelve million workers. But he has a realistic viewpoint on the 1940 national campaign; it's not going to be a walkaway for the Republicans no matter whom they nominate for president at Philadelphia next June. And Michigan faces a strenuous fight too.

Hence, the importance of the young voters.

When we chatted with him at Lansing, Thompson explained apologetically that he had been up half the night taking care of a sick cow at his farm near Jackson. "I had a chance to sell her last spring," he said, "for around $315. Last night we lost her, so I'm not feeling any too happy about it."

"Yes, I believe that every citizen should take a personal interest in politics — not only on the primary or election day, but the very next day and every day in the year. This notion that politics is something tainted and besmirching— a thing to be ashamed of and apologized for — such an attitude can never encourage good and honest government. The next day after an election should find the voter just as interested in politics as he was the day before.

"In my experience, I have found that upstate state politics are cleaner as a rule than every-day business. Of course, I can't speak for Wayne county as I have lived upstate all my life.

"Young voters under the age of 40 years hold the balance of power if they would only use it. It was the young voter in his twenties or thirties who brought about the New Deal. Tests show that the average person of 40 years or more was about equally divided between the two parties, and, if anything, he was inclined to be conservative rather than liberal.

"Remember, the Republicans have not won a national election for nearly 12 years. The young voter, 31 years old, has never known economic normalcy in this country. Since he came of legal age, he has always seen or heard of relief rolls, work project signs, and other indications of unemployment. To him this economic subnormal condition has been normal.

"Consider also the vast expenditure of relief money during recent years. (Federal allotments to Michigan totaled $447,143,603 within the past five years). We have what is equivalent today to professional reliefers. In England the second generation is now on the goverment dole. Heaven help us if we have to come to that in this country! A few reliefers even confuse relief with pensions. They actually believe they are going to receive public assistance indefinitely. You and I know that relief is only a temporary substitute for jobs, that our great challenge is to find work in private industry for the millions who are now unemployed."

The Republican state chairman feels that 'America's biggest calamity" is our young people today who are unable to find work.

It is this class of citizens from whom prisons, hospitals and asylums draw most of their inmates, and Mr. Thomson believes that idleness has been an important contributing cause.

But what can be done to help youth economically?

"I was just over to the governor's office this afternoon discussing this very problem," said Thomson.

"The span of life has increased in recent decades. We have more old people today, fewer young people. Life insurance statistics tell us this. Undoubtedly a helpful solution would be to put more persons on old age pensions, and this our state administration is trying to do in 1940.

"An ideal way to handle old age pensions would to lower the age limit when business was bad and jobs were scarce; raise the limit when we were enjoying prosperity and jobs were plentiful.

"Every person who is retired at 60 or 65 from work would be replaced by a younger person.

"I believe it was Congressman Blackney of Flint who called at tention to the large number of unnaturalized persons who live in the United States today, many of them at good paying jobs. It is estimated that we have 8,000,000 aliens here today, of which 5,000,000 entered this country legally and the remainder illegally.

"American industrial concerns are beginning to require that an employee must be an American citizen."

The 1940 campaign formula, as indicated by the Republican state chairman, include the following points (of course there are others):

Interest more young voters in the Republican party and its principles.

Increase the old age pension roll as rapidly as possible, possibly lowering the age limit when unemployment is widespread and by having the local rolls certified by local committees. This would take persons of retirement age from employment rolls; their jobs could be taken by younger persons.

Restore economic confidence by a sane administration at Washington. This would create jobs in private industry, lessen the need for relief as a temporary substitute for employment. It should be every citizen's business to take daily interest in politics, to contribute financially to his party, and to vote on election day.

ATHLETIC PARK NEEDS $20,000

DISTRICT TO SUBMIT PROJECT TO WPA; WOULD PAY ABOUT $5,000 LOCALLY

A $20,000 improvement project at the newly acquired athletic field, immediately north of the Tecumseh high school building, is being sought by the board of education through the federal Works Progress Administration, it was announced on Tuesday evening at the regular board meeting. Tentative plans already have been submitted to the division WPA office at Flint, and are being revised to comply with federal requirements.

Under the WPA set-up as explained by W. L. Berkhof, superintendent, Tecumseh's share of the $20,000 fund would be approximately $5,000 or less. The work could not be started, he said, until July or even later, and might be terminated at any time, depending upon the amount of funds available locally.

The park proposal calls for a further excavation of the natural amphitheatre, tiling, grading and sodding, the building of a running track, a stadium that will seat at least 500 people, and the moving and remodeling of a building now on the property, making it into a locker room. Plumbing and other equipment also is included in the estimate.

"In the set-up," Mr. Berkhof said, "we have included everything necessary to make the park into a modern recreation field. This is necessary under the WPA rules, and it may be approved. However, we are compelled to go only so far with the project as local funds will permit."

The athletic program undoubtedly will be one of the topics discussed at the annual district meeting of taxpayers, in July.

The board held a busy session Tuesday evening, preparing for the ending of the school year. A report from Dr. H. J. Koch, chairman of the North Central Association state committee, advised that the school had again been placed on the accredited list.

The board approved the grading and resodding along the street line on the east side of the public library. It voted to employ a certified public accountant to make an audit of the secretary's and treasurer's books. The sum of $25 was voted to aid in defraying the expenses of the high school May party. A list of seniors who will receive diplomas this year was submitted and approved, as recommended by Mr. Berkhof.

C. F. Patterson, secretary, announced that the Tecumseh school census already is under way, this work being done by Miss Bess Spayde. Teacher acceptances of invitations to return to the teaching staff for another school year were received from practically all to whom such invitations had been extended.

Child Study Club Holds Final Meet; Names Officers

The final meeting of the Child Study Club was held Monday evening at the home of Mrs. Frank Smith when the losers in the recent attendance contest entertained the winners at a three course dinner, served in the decoration room with 30 members in attendance. Mrs. C. M. Brown was captain of the winning team and Mrs. George Wilson captain of the losers. Spring flowers lighted candles, hand painted place cards and individual May basket nut cups gave the tables a colorful appearance. The program consisted of group singing with Mrs. H. Dillon at the piano, and a playlet "Mr. Jackson Goes to Meeting," with Mrs. R. G. B Marsh, Mrs. E. R. A. Green, Mrs. W. Winfield, Mrs. Elmo Burleson, Mrs. Don Nixon and Mrs. George Wilson taking part.

During the business meeting annual reports were given by Mrs. Winfield, secretary; Mrs. Keith Barron, treasurer; Mrs. Vincent Haight, welfare; Mrs. S. Sisson, courtesy; Mrs. Wilson, press; Mrs. L. Randall, corresponding secretary; Mrs. W. Praus, membership; Mrs. L. Des Ermia, school; Mrs. Earl Lindsley, hospital; Mrs. R. H. Moore, cub pack. Present officers were re-elected and are Mrs. E. R. A. Green, president; Mrs. Paul Johnson, vice president; Mrs. Winfield, secretary; Mrs. Barron, treasurer; Mrs. L. Randall, corresponding secretary; Mrs. Moore, Mrs. Dillon and Mrs. Johnson, program committee.

Ask Tecumseh To Help Red Cross War Relief

An appeal for Tecumseh and Lenawee county to assist the other 3,700 chapters of the American Red Cross throughout the country in raising this week some $10,000,000 as a war relief fund in Europe has been announced by A. Y. Riddle of Adrian, chairman of the Lenawee County Chapter. Lenawee's share of the fund is $1,980, and Mr. Riddle estimated that Tecumseh's share of the county total would be about $250.

"This is an urgent appeal," Mr. Riddle said, "and the funds for war relief in Europe are needed badly. The national Red Cross call has been made, and we are expecting Lenawee county to respond. Persons desiring to contribute in Tecumseh may leave their money at the United Savings Bank."

The Red Cross already has cabled $200,000 to Belgium and the Netherlands, and this week placed orders for 150 ambulances, 100 auxiliary hospital trucks and other equipment, including field hospitals and surgical supplies. W. M. Baxter, Jr., of St. Louis, mid-west manager of Red Cross, estimated that a minimum of $10,000,000 is needed immediately for this work.

FROSTED FOODS LOCKER PLANNED

STORAGE SPACE WOULD BE RENTED TO PUBLIC; $14,000 PLANT WILL BE BUILT

A frosted foods locker plant, to be built at a cost of about $14,000 on the lot immediately west of the Whelan implement store on West Logan street, was announced today by Miss Marion Whelan. Work on the project will begin sometime during the summer, and the plant will be opened in the early fall, Miss Whelan said.

Announcement of the project was made on Tuesday at the regular meeting of the Rotary club when F. W. Muller of Detroit, spoke on the origin and growth of the frosted foods plants. The plant here will be the first of its kind in Michigan, the nearest one now in operation being in Bowling Green, Ohio.

The local plant will be of the polar chest type, the coolers being in the basement of the building, 40 by 40 feet. There will be 520 lockers capable of holding about 300 pounds of meat or produce. These will be rented to individuals, who care to store their supplies. They are especially valuable to farmers, who may wish to kill their own meat and store it for use as needed. Fruits, vegetables, etc., also may be frozen, such a program eliminating an immense amount of household canning.

The project is being sponsored by Miss Whelan, and she will act as manager of the storage when it begins operation.

Mr. Hayden was "drafted" for this post one year ago, by long distance telephone because of the record made by this company in the merchandising of its products. Because of the unusual growth in membership of the American Millers Association under his leadership, his resignation was refused, and he was unanimously reelected to act as president until May of 1941.

Five years ago the Hayden Flour Mills celebrated its one hundredth anniversary. At that time it will be recalled that Chief Klutus Tecumseh, of Cashmere, Washington, who claims to be the great great grandson of the famous Shawnee Chieftain bearing the same name, and a group of Tecumseh citizens were guests of Henry Ford at the Greenfield Village in Dearborn, Michigan. Mr. Ford purchased the original Hayden mill site in 1932, and completely rebuilt the mill, along the lines of the original structure which was destroyed by fire March 25, 1893.

While in Indianapolis, Mr. Hayden was invited to speak during the "Nation's Family Prayer Period" broadcasted from the Cadle Tabernacle over radio Station WLW. A total of 104 stations rebroadcast his message.

Tecumseh Is Ready For Two Day Event

Merchants Invite Residents of Trading Area to Visit Stores Here on May 17 and 18

BUY AND SAVE IS SLOGAN; $250 IN BIG PRIZES

Stores Join in Great Bargain-Giving Plan; Merchants Visit Farmers; 20-Page Edition of The Herald Carries News of Big Merchandising Event

Rural Days, May 17 and 18—the second event of its kind ever staged in Tecumseh, and designed to save shoppers hundreds of dollars through bargain-buying — will get under way here tomorrow. The "Rural Days" are a repetition of similar days staged in this village in May of 1930, which met with whole-hearted public reception.

The two-day bargain-giving event, in which thousands of residents of Tecumseh's trading area are expected to participate, this year promises to prove the greatest money-saving affair in the history of Lenawee county. Bargains in almost every line of merchandise are being offered; bargains for the farmer; bargains for the city and village resident; bargains for the housewife, the graduate, the school boy or girl, in fact for everyone.

And to add to the attractiveness of the event, some $250 in merchandise prizes are being offered on any store in Tecumseh of the winner's choice. These gifts were made possible through the generosity of Ray W. Herrick, president of the Tecumseh Products Company, who contributed the cash with which the prizes will be purchased. A complete list of the prizes, and the events for which they will be awarded, will be found in another page of this newspaper.

Rural Days, which in reality comprise three days instead of two, got under way officially this morning when nearly 50 merchants, in teams of two, began their invasion of the rural districts within a radius of 20 miles of Tecumseh, calling on farmers and inviting them to visit the stores here on Friday and Saturday. These excursionists carried with them copies of today's 20-page edition of The Herald, telling the story of Rural Days, including the advertising bargains. Routes for these men were laid out at a special breakfast-meeting this morning at the Cozy Cafe, under the direction of the Chamber of Commerce.

"We expect Rural Days to prove the greatest shopping days in the history of Tecumseh," Wade L. Jones, Chamber secretary, declared this morning. "There will be shoppers here not only from Lenawee county, but from Washtenaw, Jackson and Monroe counties, and we want them to know that they are welcome; that Tecumseh can offer the greatest bargains in Lenawee county and uphold its claim of being "the biggest little town on earth."

Stores will open here Friday morning at the usual hour, but they will remain open until 10 o'clock in the evening, Saturday morning's opening also will be at the usual hour and the 10 o'clock closing will be observed.

On Friday and Saturday afternoons and evenings there will be band concerts by the Tecumseh High School Band, and the prizes in the contests will be awarded each evening before the closing hour. These prizes daily will amount to $125, and can be won by both the young and the old.

RURAL BARGAIN DAYS

The Herald, today, presents to its readers a 20-page edition, carrying the bargain news of the merchants of Tecumseh to the buyers in its trading territory. It is one of the largest editions ever published by The Herald — an issue that will be read by 25,000 people in Lenawee and adjoining counties.

Tomorrow and Saturday have been set aside by the merchants of Tecumseh as "Rural Bargain Days." For weeks the merchants here have been merchandising for this event. Special price values are being offered in practically every store — values that cannot be duplicated next week, or in the weeks to come, because they have been specially priced for "Rural Days."

The Herald joins with the merchants in inviting you to shop in Tecumseh tomorrow or Saturday. You will find that you can save many dollars by carefully checking the advertising in this issue, and then buying the bargains that you need.

And to make the days more interesting, $250 in prizes are being offered — prizes for everybody, both young and old. There also will be two band concerts daily on Rural Days, featuring the Tecumseh High School Band.

Join with Tecumseh tomorrow and Saturday and celebrate "Rural Days"—days when you can really save—they have been planned that way.

***More People Have Switched To Pfeiffer's Beer During The Past Three Years Than To All Other Beers Made Or Sold In Michigan!**

**This statement is based on actual records of taxes paid to Michigan Liquor Control Commission reflecting the sales of all beers sold in Michigan.*

Pfeiffer's BEER

Pfeiffer Brewing Co., Detroit

Wouldn't it be tragic if you missed it!

JUST suppose that down the street a dealer had an automobile so close to your heart's desire that it might have been made to your own specifications.

Wouldn't it be tragic if you passed up that honey — just because you didn't *inquire* what the prices actually were?

Here and there that's happening, we fear. Happening because people who want Buicks aren't getting the actual facts.

Maybe you didn't know that there are *five* 1940 Buicks at five different price ranges.

That every one of these has a big, husky, straight-eight engine electrically balanced *after* assembly by Buick's own exclusive process.

That soft, stout coil springs are found on every one — that every one has recoil-mounted Knee-Action, finger-flick transmission, bona fide Buick styling — features literally counted by the dozen.

Buick prices begin at †$895★ for Business Coupe (Illustrated)

Maybe you didn't know, above all, that for Buick SPECIAL models, current prices† begin as low as $895 *for the business coupe, delivered at Flint. That even when you add transportation based on rail rates, state and local taxes (if any), and optional equipment and accessories, delivered prices are the lowest ever on such value.

But all that's true. You can prove it any day by asking for a demonstration that costs nothing, and involves no obligation.

So why take a chance of missing something that could be yours for the trying? *Go see your Buick dealer now!*

†*Prices subject to change without notice.*

Sales are hitting new highs — so Buick dealers are ready to make swell deals.

"Best buy's Buick!"

School Notes

Third Grade - East Branch
Mrs. Truesdale, Teacher

May baskets have furnished much enjoyment for the children and plenty of exercise for the teacher this month. Nearly every day there is at least one tap on our door.

The first and second graders have a broadcasting station. We were invited to listen to the Sunshine Wafer program recently. It was composed of songs, a story and a tap dance. The sponsor concluded the program by saying, "Sunshine Wafers and a glass of milk make a very good lunch after school."

We have made a chart called "Good Oral Reading Habits." During an oral reading lesson we try to observe points mentioned on our chart. The group chose six good readers to read a story for Miss Borgard's room last week. They were Patty Hammack, Michael Chamberlain, Gerald Tomezak, Norma Potts, Melvin Murphy and Wilbur Kimball.

SURVEY Tecumseh's Advantages!

It's The Fastest Growing, All-American Small Town In The Middle West

OUR hats are off to Tecumseh --- the fastest growing, All-American small community in the Middle West. We know of no town, anywhere, where there is a finer, more sincere feeling of civic pride; where there is a deeper appreciation of civic responsibility; where there is greater cooperation.

We make this statement without fear of contradiction. We know whereof we speak because we have have "been through the mill." We came to Tecumseh in search of cooperation, and we found it. Cooperation of a type that is seldom found, if ever.

Tecumseh, back in the days when the nation was suffering from depression, did not lose its courage. Five years ago, when this industry sought a new home, Tecumseh bade it welcome. It received us with open arms, whole-heartedly. We had vision of greater things and Tecumseh saw with us — eye to eye. We started our plant here with less than 200 employees — today our company is the largest independent manufacturer of electrical refrigeration units in the world. During our peak season in 1940 we had nearly 900 persons on our payroll and next year we anticipate a still further increase.

Two years ago, Tecumseh recognized the need for a community hospital. Its leaders assembled, discussed ways and means of developing a dream into a reality and within less than six months Tecumseh Hospital was built and equipped and turned over to the Village Government free of debt — the entire cost of the project having been borne by public subscription.

Tecumseh hospital was built and intended to care for 18 adult patients. It has, at times, cared for as many as 35 patients — filled to overflowing. Today, less than two years after its opening, it has outgrown its building. And now Tecumseh plans to more than double the hospital's capacity by building an addition at a cost of $25,000 or less. All of this within less than two years.

Can you blame us, then, for saying that we like Tecumseh; that we believe it to be an up-and-coming community; a town of vision. We have cited only two of the many instances in the five years that we have been a part of the community that Tecumseh has "pulled together" for the common good. There are many more, including the building of more than 40 new homes, the purchase of a new athletic park for our schools and the extension of our water and sewer systems to meet the needs of an ever-growing population.

We have told you some of the reasons why we love and respect Tecumseh. To you who are not so familiar with the village as we are, we commend it to you. Make Tecumseh your home, if you can. If you can't you may be assured that you will always be made to feel at home when you visit here. Make it your shopping center, bring your problems to its merchants — its business and professional men. You'll find them willing to lend assistance, happy to have been of service.

"Don't Worry —
I'll Telephone you tonight"

This very hour, these words are spoken by some one — and when *you* say them what cheering words they are. Your family knows, no matter how far you go, that you'll be no farther away than your telephone. Next time you're away call often for a few minutes chat. The cost will be small — especially after seven in the evening and all day Sunday when bargain rates are in effect to most points.

COUNCIL NAMES TRAFFIC POLICE

PAUL E. TRESSLER OF GROSSE POINTE SHORES NOW ON FULL TIME DUTY

The village council, in bi-monthly meeting, Monday evening, named Paul E. Tressler of Grosse Pointe Shores as a full time policeman here, in charge of traffic. The appointment was made by President Karl M. Schneider and was unanimously confirmed by the trustees. Mr. Tressler, who has moved here from Grosse Pointe, will assume his new duties this week.

"We did not appoint a traffic officer to succeed Roy Prichard, who resigned about two months ago," Mr. Schneider said, "because we wanted to note the public's reaction. Now the public has demanded that we have a policeman and traffic officer on duty during the daytime, and the council has confirmed the appointment.

"The council feels that the local traffic regulations should be enforced, including the two-hour parking restrictions in the downtown district between noon and 6 p. m. This ruling is now being openly violated, and this practice must end. We trust that violators who are apprehended will not grieve too much about the penalties."

Mr. Tressler has had eight years experience with the Grosse Pointe police force. Mr. Schneider said, and comes to Tecumseh highly recommended.

The council's session was one of the longest held this year, beginning soon after 7 o'clock and lasting until after midnight. Discussions included the budget for the year 1940-41 which must be fixed within the next two weeks, and a number of routine matters.

Water users on non-circulating mains on East Brown street, James street and North Mill street were granted double minimum gallonage at present rates. This action, it was explained, will give these users an opportunity to let water taps run and secure fresh water, without increased cost.

Village payroll dates were fixed as the fifth and twentieth of each month.

Mrs. Florence Howe and E. H. Van Vleet were named to act as members of the board of review.

O. J. Winter, William Baardsley and J. Floyd Elliott were named as a board of election commissioners for the special hospital bond election, to be held on Tuesday, June 11. Inspectors for the election are E. R. Anderson, John A. Wilson and Mrs. Helen Jones, in the first precinct, and Edward Smalledge, Miss Bess Spayde and J. Fred Rector, in the second precinct. Gatekeepers and clerks are Mrs. Cecille Smith, Herbert Watkins, Helen Bowen and E. J. Haines.

The reports of the several department heads were heard and placed on file and current bills were audited and ordered paid.

Miss Jane C. Warner Bride Of Jack G. Metcalf

Miss Jane C. Warner, daughter of Mr. and Mrs. Charles L. Warner and Jack G. Metcalf, son of Mr. and Mrs. Irg. G. Metcalf of Morenci, formerly of Tecumseh, were married Sunday afternoon at the home of the bride's parents on South Pearl Street, Rev. Alvin C. Brazee read the marriage service and Mr. and Mrs. Carlyle Mason attended the couple. Only the immediate families were present.

Following the ceremony refreshments were served and later Mr. and Mrs. Metcalf left on a short trip.

Mrs. Warner is a graduate of Tecumseh high school and has been employed for some time in the office of the Tecumseh Products Company. Mr. Metcalf graduated from Morenci high school and is engaged in business with his father in that city.

RED CROSS ASKS TECUMSEH'S AID

MONEY AND LAYETTES NEEDED AT ONCE, A. V. RIDDLE, COUNTY CHAIRMAN SAYS

As Allied and German armies in Europe battle for supremacy, leaving millions destitute and homeless, the American Red Cross today sent out an urgent appeal to A. V. Riddle, Lenawee county chairman, for assistance. Lenawee's quota of the national fund is $1,980 and Tecumseh's share is $250.

According to Mr. Riddle, Lenawee is responding very slowly to the appeal for funds, and thus far but little more than $500 has been contributed, the banks throughout the county acting as depositories for the money. In Tecumseh, a report from the United Saving Bank said that only $15 had been donated. The Tecumseh Rotary Club, at its meeting on Tuesday, voted a $10 contribution.

"We urgently need funds for the Red Cross," Mr. Riddle said, "and we are again asking that Lenawee county 'go over the top' in the drive. Lenawee county has never failed the Red Cross in any appeal, and we must do it now."

Mrs. Edna Codling, Tecumseh division chairman, said that she had received an appeal for 25 layettes to be sent to Europe, and she asked that all women in Tecumseh who can sew contact her at once. She said that the material for the layettes would be purchased by the Red Cross and turned over to local women for the sewing. Similar appeals, Mrs. Codling said, have been sent to other parts of the county, and she declared that the local work must be finished within two weeks.

The meeting was held at Delta, O., given by Harry O'Brien, the "plain dirt gradeneer" of Better Home and Gardens.

Herrick will have charge of the miniature arrangement exhibit, the miniatures to be not more than 4 inches in height including the container. Members are to enter regular and miniature arrangement in a contest for ribbons, with Mrs. Bert Oosterhout and Miss Clara Waldron as judges. Scrapbooks of the Junior Garden Club will also be exhibited at this time.

Ernest Oliver has been chosen by Underwood-Orr post, American Legion, to represent Tecumseh at the third annual Wolverine Boys' State, sponsored by the American Legion, it has been announced by A. B. Hammond, adjutant of the local post.

The Tecumseh delegate with 900 other boys from every Michigan county will meet to establish and conduct the mythical 49th state on the Michigan State College campus in East Lansing from June 20 to 28.

On the first day, boys will be organized into cities and counties, and will elect local officials. Nomination and election of state officers will follow. Boys' State citizens will be divided into two political parties, which will not be similar to any existing political party.

For eight days youthful legislators, governors, police, justices, and other officials will conduct their own model government, receiving advice and guidance from a picked staff of technical counselors. The State will give boys the opportunity to learn good citizenship and ways of meeting governmental problems through setting up their own government and conducting it themselves.

All boys attending will be 16 and 17 years old, and will not have attended previous Boys' States. Shortly after their return home, delegates will make reports on their experiences to sponsoring organizations.

Boys' State citizens will conduct their own daily newspaper, school, and radio station and will have a large share in producing the regular evening assembly programs. Senior students from Michigan's four law schools will serve as counsellors to the young government officials, and Legionnaires will comprise the official staff and organization of county advisors.

POPPY DAY TO BE OBSERVED

MRS. ALBERT BAGSHAW IS CHAIRMAN OF LOCAL COMMITTEE OF AUXILIARY

Poppy Day will be observed in Tecumseh and throughout the nation on May 25, the Saturday before Memorial Day, Mrs. Albert Baldwin, president of Underwood-Orr unit of the American Legion Auxiliary, announced today. On that day all Americans will be asked to wear memorial poppies in tribute to the World War dead and to aid the living victims of the war.

The little red memorial flowers will be distributed here by women and girls of the Underwood-Orr unit, under the direction of Mrs. Albert Bagshaw, chairman of the Poppy Day committee. All contributions received for the poppies will go to Legion and Auxiliary welfare work for the disabled veterans, their families and the families of the dead.

"We feel that Poppy Day will have increased meaning to America this year," said Mrs. Baldwin, "because renewed warfare in Europe has renewed the memory of those boys of ours who gave their lives 'over there' twenty-two years ago. It is for them that we put on the poppy each year, to show that we still remember and honor their sacrifices. It is the flower which grew where they fell and which now blooms on the coats of Americans who appreciate their service.

"Events of the past year have shown us clearly that to be secure the United States must have men ready and able to defend the country, willing to give their lives in its defense, if necessary. We can be thankful today that we had such men twenty-two years ago. From them we can draw inspiration for the patriotic service necessary to maintain our freedom and democracy against today's dangers. Wearing their flowers over our hearts means that within our hearts their love of America still lives."

In their joint child welfare program last year, the Legion and Auxiliary brought aid to 396,343 children of veterans. A total of $1,968,632.28 from Legion and Auxiliary resources was expended in this program. Much of this money was made up of the dimes, quarters and dollars placed in the contribution boxes on Poppy Day.

Urging the wearing of the poppy, Karl M. Schneider, village president, has issued this proclamation:

"Whereas, in the great crisis of the World War, young men of Tecumseh offered their services to our country with an exalted spirit of patriotism, many of them sacrificing with their lives in the service;

"And whereas, the same exalted spirit of patriotism is needed today for the service of our country in its present-time difficulties;

"Therefore, I Karl M. Schneider, president of the village of Tecumseh, urge all citizens to recall the spirit of these gallant dead and renew the memory of their high patriotic service by wearing the American Legion poppy May 25.

To that purpose I do, hereby proclaim Saturday, May 25, Poppy Day in the Village of Tecumseh."

IN A CRISIS

In Nation's Business Merle Thorpe quotes an army officer to show why Russia's huge man force had such a tough time trying to conquer little Finland. The officer explains that the Soviet dictatorship got rid of too many trained men to insure effective leadership. Skilled officers under suspicion were displaced by inexperienced members of the worker-peasant class. Thorpe offers as a sort of parallel the new deal's plan of too often sushituting fanciful schemers for sound business heads. He says heretofore America has encouraged its business managers as a great asset. But he concludes: "The American business man in every field, from producer of raw materials to retailer, has been made to feel by his government that he is a dubious fellow with few or no rights, certainly an attitude not conducive to the fighting spirit necessary to lick a depression of sizeable proportions. Add to this the uncertainty of a government by men as against that of written law, the destruction of incentive as a fundamental of 'national planning'; political patrons placed in positions of management, either in direct competition or in canatious supervisory capacity, and you have a picture of America's industrial army with leaders as well-nigh liquidated as the leaders of the Russian army on the shores of Lake Ladoga."

In the middle appears a modern sculptural group called "Speed," featuring a woman astride a winged horse. At the bottom is one unit of tulip beds. More than 1,000,000 bulbs were imported from Holland to accentuate landscaping.

"The abundance of peace and truth"

PEACE is not a surface condition. Whether considered in relation to the individual or to society, peace is deep-founded, fundamental. It is not negative; it does not result from indifference. In fact, peace can be found only in clear thinking, humbly maintaining an ideal even in the face of odds; it is not found in merely drifting with the tide of contemporaneous beliefs. The characteristic of peace is co-operation. Thus is national as well as individual character developed.

True character is expressive of spiritual verities. It furnishes evidence that real existence is not, as unenlightened materialism pretends, the sport of forces divided between good and evil. Spiritual truth proclaims that the achieving, conquering, sustaining laws of being are entirely spiritual, that man is spiritual, and that real existence is governed by divine law. . . .

Christianly scientific thinking proves man's divinely bestowed dominion. This is the opposite of personal domination, for domination comes from that faith in matter which breeds fear and selfishness. Dominion, on the other hand, is found in knowing God's infinitude. . . . It would not be convincing to pray that God's will be "done in earth, as it is in heaven," unless it were understood that God's bountiful provision for His idea, man in His likeness, is humanly available in terms of health, goodness, joy, and opportunity. Jesus' great healing work, done in accord with the divine will, clearly proved that the Christly understanding of spiritual being can dispel the effects of disturbing fears and theories.

Amid world-wide turmoil, or when pressed by difficulties of a more personal nature, we often find it hard to behold God's supremacy and man's likeness to Him. Then, however, we can learn that the five physical senses see nothing accurately, and prove that the safe way involves a denial of frightening sense impressions and a sure use of hope and faith, based upon an understanding of God as Love, divine Principle. Jesus rebuked some because they could "discern the face of the sky," but could not "discern the signs of the times" (Matthew 16:3). When customary reliances fail, the "signs of the times" indicate our need to know God aright and to prove our relationship to Him more humbly and consistently. . . .

The shortcomings of ourselves or others should not discourage us, but rather should rouse us to rely upon the truth stated by Mary Baker Eddy where she writes (Science and Health with Key to the Scriptures, p. 6), "Divine Love corrects and governs man." If we doubt this and are troubled by the apparent activity of evil, we need to gain a more vivid understanding of divine Love, for the divine is ever unconfined, universal, all-embracing. Knowing this, we protect ourselves from the temptation to become dictatorial or to assume a false sense of responsibility.

It is spiritual peace that we all need, and as we find this by realizing that man is God's inseparable image and likeness, we learn to dwell harmoniously with others. Mrs. Eddy writes (The First Church of Christ, Scientist, and Miscellany, p. 277), "The characters and lives of men determine the peace, prosperity, and life of nations." Character based on spiritual strength includes humility and generosity, readiness to praise and reluctance to condemn, patience and hope. True character minds its own business, and finds in expressing spiritual ideas a satisfying activity, rich in promise for society and in reward for the individual.

Belief in materiality incites men to greed, hatred, fear, and other promoters of discord. This false impulsion is the seeming opposite of the inspiration of Spirit, God, who endows creation with the love and intelligence which perpetuate harmony. Speaking to the houses of Israel, in captivity, Jeremiah voiced God's promise as universally available (33:6): "Behold, I will bring it health and cure, and I will cure them, and will reveal unto them the abundance of peace and truth." — *The Christian Science Monitor.*

Standardization

STANDARDIZATION is a term which one might say has come into its own in the last decade or so, for it has become characteristic of modern times. And yet, in spite of what it signifies in certain industries—the lifting up of manufactured goods, for instance, to a prescribed level, thereby safeguarding the purchaser, and the establishment of minimum wage laws, thereby protecting the wage-earner—standardization, as such, has many opponents.

We find William Lyon Phelps saying, "Regimentation is the enemy of progress," and Calvin Coolidge wrote: "Progress depends very largely on the encouragement of variety. . . . The privilege of the individual to develop his own thoughts and shape his own character, that makes progress possible." Those men saw the dangers of standardization. For no matter how high a human standard may be, limitation is always present because that standard is below perfection. For example, one might have a highly developed piece of apparatus, but if this were taken as an ultimate standard, progress would not be made beyond it. This would mean the stultifying of initiative, resourcefulness, and the limitation of progress.

How to deal with the problem of standardization — to keep that which it may offer of good, yet not to be limited by it—is a question which needs to be faced and answered. . . .

Jesus gave the one perfect standard for all time when he said (Matthew 5:48), "Be ye therefore perfect, even as your Father which is in heaven is perfect." No standard is high enough, then, unless it is perfection itself. Mary Baker Eddy, the Discoverer and Founder of Christian Science, writes in her textbook, Science and Health with Key to the Scriptures" (p. 353), "Perfection underlies reality." This is not hard to grasp when we accept the spiritual record of creation set forth in the first chapter of Genesis: "God created man in his own image, in the image of God created he him. . . . And God saw every thing that he had made, and, behold, it was very good." . . .

Even glimpsing the infinitude of God enables thought to grasp in some degree the limitlessness of the intelligence, the beauty, the good which are man's to use and enjoy.

The joy and freedom which come from knowing these spiritual facts are shown in two passages from Mrs. Eddy's writings. One from Science and Health reads (p. 258):

"God expresses in man the infinite idea forever developing itself, broadening and rising higher and higher from a boundless basis." The other, from her "Miscellaneous Writings" (pp. 82, 83), is as follows: "Immortal Mind is God, immortal good; in whom the Scripture saith 'we live, and move, and have our being.' This Mind, then, is not subject to growth, change, or diminution, but is the divine intelligence, or Principle, of all real being; holding man forever in the rhythmic round of unfolding bliss, as a living witness to and perpetual idea of inexhaustible good."

As we realize that our real selfhood is the expression of God, good, we see that there is no limit to the good we may express. And we are in no danger of becoming boastful or vain, for we are conscious that God is the source of all good; that to Him belongs the glory.

We may well ask ourselves about everything in our experience, What is my standard for this? Rejecting everything that is limited, distorted, and imperfect, and accepting only what is perfect, we shall see the real standard. Seeing it, we must work up to it by improving our thoughts until they conform to perfection. A high ideal! Yes, but the patience, the love, and the perseverance one must exercise to attain it bless one along the entire way.

God being the Principle of all right desires, motives, and attainment, perfection is the universal standard. No limitation of good belongs to the real selfhood of anyone. And here we see that it is not a matter of great concern whether our brother is measuring up to some human standard we may have outlined. In this regard, the all-important question is, Are our thoughts of our brother measuring up to the standard of perfection?

One can readily see the freedom which results from accepting as one's own the standard of perfection. In it there is no restriction of good. One's love, one's service, one's consciousness of good cannot be humanly standardized, when it is understood that the resources of good are infinite and inexhaustible. Paul, with the standard of perfection before him, wrote in his letter to the Ephesians (Ephesians 1:3, 4): "Blessed be the God and Father of our Lord Jesus Christ, who hath blessed us with all spiritual blessings in heavenly places in Christ: according as he hath chosen us in him before the foundation of the world, that we should be holy and without blame before him in love."

STATE'S FRUIT CROP SMALLER

LACK OF RAINFALL HAS CREATED AIR OF UNCERTAINTY ABOUT ALL MICHIGAN AGRICULTURE

LANSING, May 23—A smaller crop of fruit is in prospect for Michigan.

That news from Verne H. Church, statistician in charge of the Michigan cooperative crop reporting service, together with a warning that rainfall has been only 60 to 70 per cent of normal over the past 10 months, has created an air of uncertainty about Michigan agriculture income for 1940.

Only 88,000 acres of the 152,800 acres sown to rye last fall are expected to be harvested for grain—the smallest rye crop for the state in more than 50 years.

"Prospects for hay and pasture were not as good on May 1 as in other recent years," stated Church. "Not only has growth been retarded by cold weather but rains have been insufficient in many sections. Furthermore, there is a considerable deficiency in subsoil moisture in many counties of southern Michigan."

As for fruit outlook, he says: "Fruit growers are looking for a somewhat smaller crop of fruits this year, a usual sequency in years following a large production such as that of 1939. Cold weather has held back the opening of the fruit buds; and blooming which has just begun, is week or ten days later than in normal seasons. The recent cold weather was not severe enough to cause any ... ably to buds.

"Low temperatures in January thinned peach buds in some sections but prospects are favorable for a fairly good crop in all districts except an area in southern Michigan extending from the eastern part of Berrien county eastward and northward to the southern part of Ingham county. In that area, temperatures of 15 to 18 degrees below zero occurred which is a little frigid for peach buds ordinarily to withstand."

Prof. E. L. Anthony, dean of agriculture, Michigan State College, points out that with the exception of bean and pork products, prices of agricultural commodities are about the same as one year ago before war was declared. So far, the new European conflict has not put millions into the American farmers' pocketbooks, as optimistic forecasters loudly proclaimed last September.

"The prices of beans and pork products have increased in recent months," said Dean Anthony, "and there is some basis for speculation that Canada is buying supplies here for shipment overseas now that England has been shut off from Denmark as a leading source of butter, pork and lard.

"The hog people believe that pork prices will continue strong due to Canadian demands. You will recall that prices jumped after declaration of war last September only to slump again in December, January and February. Pork prices are up again, however. Certainly if the war continues another year the result will be an increased demand for American war munitions which in turn will help to stimulate domestic consumption of food and will tend to raise food prices.

"However, it is only wishful thinking to believe that the war is going to benefit the farmer of Michigan in 1940."

While the deficiency in rainfall remains a threat to 1940 crop yields, it has put the ground in fine condition for early spring plowing.

Oats and rye conditions are miserably poor, but winter wheat looks fairly good and the wheat acreage abandoned due to winter ... about three ... acres which is the smallest loss in many years. A yield of 20.5 bushels per acre is indicated which compared with 21.0 bushels per acre obtained last year.

Beet sugar people report that the war is not expected to affect sugar prices in this country. At present a large surplus of sugar stocks remains on hand. Indirectly through improved industrial conditions the sugar industry may benefit through better prices, but this will be a long-range development, certainly not in the present picture for 1940.

Canned fruits rely on domestic consumption largely, while dried fruits have been exported heavily. Consequently, little change is anticipated in Michigan on fruit prices with regard to the war. California, on the other hand, may suffer considerably from loss of export trade.

Secretary of State Harry F. Kelly reports that departmental savings will reach $250,000 for the 1939-40 biennial.

Auditor General Vernon J. Brown favors a separate budget for state aid funds (those which are returned to local governments for local spending) and another budget for state funds.

Robert Riley, state purchasing director, ridicules alleged claims of special favoritism by Frank McKay. Declaring that he had only met McKay once, Riley added; "He asked no special favors then nor since of the purchasing department."

Murray D. Van Wagoner, state highway commissioner, says surveys show that automobile traffic in Michigan will double in the next 20 years. "We are faced with this staggering realization of what the future holds, knowing full well that our present highway facilities are inadequate," he told the American Road Builders' association upon being honored at the conclusion of a second term as national president.

Luren D. Dickinson forecasts a Republican victory next November.

Headquarters for O. L. Smith as a possible candidate for governor have been opened in Detroit in the Book building. The Lansing headquarters will be opened before June 1 in charge of ... Barrow, ... sergeant-at-arms of the senate.

Mel McPherson, state tax commission chairman, is taking advantage of the Dewey boom movement (for which he was named manager) to put out feelers again as a candidate for the governorship.

Passage of the civil service constitutional amendment is being privately conceded by some state politicians, most of whom are scared over its possibilities at the ballot box.

THE FORD WAY OF DOING BUSINESS

The Ford Motor Company was founded by a working-man for working-men. Its present officers began as employees of the Company. It was the first company to pay a minimum wage, beginning in 1914, at the then astounding figure of $5 a day. That was double the prevailing wage of the time. The Ford minimum is now $6 a day for all employees engaged in production work. And from that, the wages rise to $10.80 a day, with the average wage $7.25, exclusive of salaried employees.

The Ford Motor Company was the first large company to establish the 8-hour day—also in 1914. And the 40-hour week was inaugurated by the Ford Motor Company in 1926, years before any such laws existed.

Henry Ford and Edsel Ford keep daily personal touch with all phases of Ford manufacture. In a conference with his staff, Henry Ford often says: "Go ahead—I'll sit here and represent the public."

The Ford Motor Company employs men without regard to race, creed or color. It is common knowledge that working conditions in the Ford shops are the best that science and constant care can make them. A square deal, a just wage and stabilized employment for a large proportion of our employees — and as fully stabilized for all as conditions will permit — enable our men to retain their personal independence.

In consequence of these policies the Ford Motor Company has one of the finest bodies of employees in the world. The larger proportion are mature men of long service with the Company—sober, decent family men. Hundreds of them have been with the Company for more than 25 years — thousands for more than 15 years. Their health record, home ownership and citizenship records are good.

All this is reflected in Ford products, whether cars, trucks or tractors. The work is honestly done. Materials are the best that can be made or procured. Less profit to the Company and more value to the customer is known throughout the motoring world as "Ford's way of doing business."

Ford Motor Company was the first to make a motor car within the means of the average family—quitting the manufacture of what was then the largest selling model in the world to do so. Its chosen field in all the 30 years since that time has been the average American family — for which it has consistently provided car facilities which formerly only the wealthy could buy.

It is the policy of the Ford Motor Company to share the benefits of advanced methods and management with workers and public alike. Increased wages and employment over a period of many years have resulted in

A 300 per cent increase in the built-in value of the Ford car and a 75 per cent reduction in its price.

Girl Scout Hike

Last Monday our Girl Scout meeting was begun with a circle and then broken up to go on a hike. We started from the school house, following a chalk trail which had been laid by several girls ahead of time. After following the trail for some time, we were greatly surprised and pleased to find that it ended near the river bank at Blood's Bridge. Several girls built fires to pass their building test, the fires being used afterwards to roast wieners, which was another very pleasing surprise. Then after having our good-night circle in the open, we departed for home. There were 37 girls present.

"THERE ARE MANY FALLACIES ABOUT ADVERTISING"

Says Publisher's President

"Economic Laws— Not Advertising— Determine Prices . . ."

"I am amazed that so many people who are able and learned should fall into fallacies of reasoning so frequently. Many economists have said that advertising has resulted in greater distribution of products, has helped to increase the quality of goods, and has lowered costs to consumers. Some who have admitted this have also said, or intimated, that advertising performs no justifiable economic function, and that it actually increases the cost of goods . . . Now those two statements are logically contradictory. The truth of one excludes the other. Both of them cannot be true. What is the truth about this matter? . . . In our system of business any product will inevitably gravitate to approximately its natural selling price—to what people are willing to pay for it. If the quality is not satisfactory, people will not buy at the price. If the price is too high, people will not buy either. The cost of advertising, therefore, cannot have any profound or lasting effect on selling prices to consumers. Competition, Supply and Demand, and Mrs. John Public's judgment and pocketbook determine finally the selling prices of goods. The cost of advertising, therefore, cannot increase prices; it is only permitted—by the Laws of Economics—to lower prices."

CHRISTIAN SCIENCE SOCIETY
North Union Street

Service Sunday 10:45 a. m.

All literature at the public library.

"Soul and Body" will be the subject of the Lesson-Sermon in all Christian Science Churches throughout the world on Sunday, May 26.

The Golden Text (Psalms 84:2) is: "My soul longeth, yea, even faineth for the courts of the Lord: my heart and my flesh crieth out for the living God."

Among the Bible citations is this passage (Romans 12:1, 2): "I beseech you therefore, brethren, by the mercies of God, that ye present your bodies a living sacrifice, holy, acceptable unto God, which is your reasonable service. And be not conformed to this world: but be ye transformed by the renewing of your mind, that ye may prove what is that good, and acceptable, and perfect, will of God."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 261): "Hold thought steadfastly to the enduring, the good, and the true, and you will bring these into your experience proportionably to their occupancy of your thoughts."

THE TECUMSEH HERALD

NINETIETH YEAR—NUMBER THIRTY-FIVE. TECUMSEH, MICHIGAN, WEDNESDAY, MAY 29, 1940 FIVE CENTS PER COPY.

31 PATIENTS IN LOCAL HOSPITAL

IS CROWDED FAR BEYOND INTENDED CAPACITY; BOND ISSUE ELECTION JUNE 11

Built less than two years ago and intended to house 24 patients comfortably, Tecumseh Hospital this morning has a registration of 31 patients — 25 adults and six babies—or seven more than its "maximum capacity."

The crowded condition at the hospital, officials declare, has been keenly felt for many months, and ofttimes it has been necessary to use the halls of the institution for extra beds. Recently, it was said, patients have been turned away because of a lack of accommodations, and doctors are delaying operations whenever possible to avoid the congestion.

Built entirely by public subscription and turned over to the village debt-free in May of 1938, Tecumseh Hospital has established an enviable record among similar institutions throughout the middle west. Its popularity has grown steadily, and it has returned a modest profit.

Records show that during the 23 months that it has been in operation, the hospital has made a net profit of more than $1,600. The net profit during the first four months of this year amounted to $956, after $420 had been charged off to depreciation. The hospital has a payroll of approximately $20,000 annually, employees receiving during the first three months of this year $5,151.

Tecumseh will move toward granting the hospital relief from the congested condition when taxpayers go to the polls on Tuesday, June 11, to decide a proposed $25,000 bond issue, the money to be used to nearly double the capacity of the institution. Hospital board trustees declare that relief must be granted to the hospital if it is to continue to grow and to serve its fast-enlarging number of patients, not only from Tecumseh but from neighboring towns and counties.

The proposed hospital addition, which already has the approval of the village council, the hospital board and staff doctors, would permit the institution to care for 18 additional patients without congestion. The plan also permits the hospital to offer added private room service—a feature now often denied because it has been necessary to make private rooms into wards in order to accommodate those who are sick.

The hospital board and R. W. Herrick, its president, are of the opinion that the hospital can, over a brief period of years, liquidate the bond issue and pay the interest, without any cost to the taxpayers. To bear out this statement they point to the record established during the first 23 months of operation, and to the neat profit already accumulated.

Summer Schedule Is Adopted By Grange

Tecumseh Grange met in regular session Thursday evening. Will Fletcher, master, presiding. During the business meeting it was voted to hold that one meeting each month during June, July and August, that to be on the second Thursday of each month. The members also arranged to attend morning services at the Presbyterian church Sunday morning, June 2. The group will meet at the home of Howard Matthews at 10:45 and attend in a body. Refreshments were served at the close of the meeting by Mrs. Irving Parrett and committee.

The next meeting will be held June 13, with Mrs. Fred Sheldon, Miss Dorothy McConnell and Mr. and Mrs. Ted McConnell in charge of the program. Mr. and Mrs. Clarence Hunt and Mr. and Mrs. J. D. Van Vleet are the refreshment committee for the meeting and fruit jello and wafers will be served.

TRAFFIC VIOLATORS

Two traffic law violators were in Justice Clyde Barber's court here within the past week. Olin Kosier of Britton, paid a fine and costs of $6 on Tuesday when he pleaded guilty to exceeding the speed limit on West Chicago boulevard. Henry Sparks, R. D., Tecumseh, paid a similar fine and costs on Saturday when he pleaded guilty to operating a car without a drivers license on his person. Both arrests were made by village police.

WEDNESDAY ISSUE

Because Memorial Day, May 30, this year comes on Thursday, The Herald this week publishes its paper on Wednesday, assuring more complete mail delivery before the holiday. Publication will be resumed on Thursday of next week, as usual.

ANUNAL BENEFIT DANCE

Lenawee County District Nurses Association will give their annual benefit dance at Lakeview Pavilion, Devils Lake, Monday, June 10, from 10 till 1:30. Bill Sawyer's 12 piece orchestra. Proceeds go to Red Cross. Tickets on sale at Wright's Drug Store or at Tecumseh Hospital. —adv.

M. S. C. Grad

Miss Margaret Wehr

Miss Margaret H. Wehr, daughter of Mr. and Mrs. William Wehr, of Tecumseh, will be among the 780 graduates to receive diplomas from Michigan State College, June 10. Miss Wehr will receive her A. B. degree. She has accepted a position in the administration offices of the college, beginning her new duties the day following her graduation.

Local Tennis Star Will Play In State Tourney

For the second time in as many years, Tecumseh High school will have a representative in the state tennis finals to be held at Ann Arbor, May 31. Bob Wilson, son of Mr. and Mrs. M. W. Wilson, playing last year as runner-up from the regional tournament, will represent this region in number one singles this year.

Young Wilson showed considerable promise last year as a member of the local high's net team, playing number two singles position. This year he fulfilled local predictions by winning honors at the regional tournament at Ann Arbor, May 16. He played through the tourney to win first in the singles, Class C-D competition. Playing four matches more than any other player in the meet, he held up for a total of 91 games, proving the great importance of physical condition in tourney play. So far this year, Wilson has not lost a single match, his competition at the state meet is expected to be especially stiff, with Anderson and Kane of the Detroit area, last year's winner and runner-up, in the play.

Locally, Tecumseh's tennis team has been unusually fortunate this year winning six matches out of seven. They scored wins against Clinton, Dundee, Blissfield and Milan, losing only to University High, Ann Arbor. Besides Wilson, the team is made up of Geo. Wilson, Geo. Isaacson, Gregg Anderson, Malcolm Bagshaw, Karl Schneider, Jim Smith, Clarence Wolters, Jim Stevens and Harry Beland. Two more games remain to be played.

Miss Genevieve Smith Weds Clarence Quigley

Miss Genevieve Smith, daughter of Mr. and Mrs. Floyd Smith of Adrian, formerly of Tecumseh, and Clarence L. Quigley also of Adrian, were married Saturday afternoon at the home of the bride's parents.

Preceding the ceremony Mrs. Wesley Cornell sang "O,Promise Me" accompanied by Miss Vivian Abbott, cousin of the bride, who also played the wedding march as the bridal party took their places before an improvised altar banked with lilacs, tulips and other spring flowers.

Rev. Alvin C. Brazee read the marriage service and Miss Marguerite Smith, sister of the bride and Lawrence Quigley, brother of the groom, attended the couple with David Bottimer acting as ring bearer. After the ceremony refreshments were served.

The bride attended school in Tecumseh and later in Adrian graduating in 1939. Mr. Quigley attended Lansing school and is employed by the Lenawee County Road Commission. They will make their home in Adrian.

PAYS FINE, COST

L. W. Larsen, Tecumseh, paid a fine of $10 and costs of $4.45 when he was arraigned in Justice Clyde Barber's court on Saturday, charged with allowing his dog to run at large in violation of the state dog quarantine. He paid and was released. The arrest was made by L. E. Van Etten, county dog warden.

Rev. Edward Escolme Honored By Friends at Reception Here

Tuesday evening, May 28, approximately 200 friends of the Rev. Edward Escolme surprised him at a reception given in his honor at the Tecumseh Friends church. The occasion was his acceptance of an unanimous invitation to remain as pastor of that church another year, which will make it the 23rd consecutive year in that one church.

The Rev. Mr. Escolme was born in 1893 at Hall Gate Farm, Carnforth, Lancaster, England. He came to this country in 1910, where his first employment in America was as a gardner in Cleveland. Following a four-year course at Cleveland Bible College he was sent to his first pastorate, a small Friends church at Orange, near Columbus. In 1918 he was sent to Tecumseh, and has remained here since that time.

Mr. Escolme has been honored by posts of responsibility in his church; such as trustee of Cleveland Bible College, editor of the Friends Oriental News, presiding clerk of Adrian Quarterly Meeting, and recording clerk of Ohio Yearly Meeting of Friends.

Few men have been retained as pastor in any Tecumseh church for the length of time that Mr. Escolme has, and the reception last night indicated the high esteem in which he is held not only by members of his own church, but by the entire community.

Rev. Edw. Escolme

The Tecumseh Herald joins with the community in congratulations to Mr. Escolme, and to the church that has kept him in this community.

U. S. FREEDOM IS PRICELESS

RAY MORTON HARDY DELIVERS PATRIOTIC ADDRESS AT MEETING OF ROTARY

"The American Way of Life," was the subject of an interesting patriotic address delivered by Ray Morton Hardy, consumer relations counselor of Detroit, when he spoke at the noon-day luncheon meeting of the Rotary club here, Tuesday at the Boston Cafe. Mr. Hardy was the guest of W. L. Berkhof, superintendent of schools, and for the past five months has been conducting weekly retail clinics in Tecumseh, under the auspices of the Chamber of Commerce and the board of education.

"The American way of life is the way of freedom, progress and opportunity," Mr. Hardy declared. "It is also the way of self-sacrifice, self-control, self-reliance and personal responsibility."

"One sentence in the Declaration of Independence, which comes very near to the sacred truth," the speaker declared, "is the one which declares: 'In order to secure these rights, governments were instituted among men, deriving their just powers from the consent of the governed.'"

Recalling the hardships of the Revolutionary soldier on the fields of Valley Forge, Mr. Hardy declared that too much emphasis cannot be placed upon the price that has been paid for the privileges we enjoy as a nation. Freedom, he said, is a priceless heritage, yet because we have had it from birth we are much inclined to take it for granted.

"Let our respect for the flag," he said in conclusion, "and love of country become a deep and abiding thing in each one of our hearts. Let our national holidays, instead of being days of hilarity and dissipation, be set aside as periods when with bared heads and reverent hearts we give thanks to Almighty God for the blessings of liberty."

Mr. Hardy spoke here as the counselor of consumer relations for Greene's Dry Cleaning Service in Ann Arbor.

OUR FLAG

Flag Week has been set by the Governor's proclamation for June 8-14. During this time every citizen is asked to display the American flag.

There is an emotional stimulus in waving flags that is an outward expression of patriotism, and it is a fine thought to think of this state-wide patriotic gesture.

Let us hope, however, that we see it with the poet's eyes:

"Forever float that standard sheet!
Where breathes the foe but falls before us,
With Freedom's soil beneath our feet,
And Freedom's banner streaming o'er us?"

THE HELPING HAND

Organization machinery of the American Red Cross has been set into motion to raise ten million dollars for European war relief. Before the latest invasion, the Red Cross had spent $1,500,00 for aid in Europe.

Ruthless human slaughter, stepped up to gigantic proportions, multiplies demands on the merciful Red Cross. What a contrast between the spirit that deliberately kills and ruins and the one that follows along to minister to the host of injured and suffering. You can help with your contribution to the local chapter. You may, if you wish, leave your donation at the United Savings Bank. It will forward it to the county chairman. Do it now!

TRAFFIC ACCIDENT

Automobiles driven by Earl Wickwire and Hugh Des Ermia were damaged, Saturday afternoon, as the result of an accident in the downtown district. The mishap occurred as Mr. Des Ermia was backing his car away from the curb and into traffic. He struck the Wickwire car, damaging a front fender and headlight.

Audit Report

Village of Tecumseh, Michigan

Feb. 21, 1939 to Feb. 20, 1940

Tecumseh, Michigan,
May 22, 1940

To the Attention of the Taxpayers of the Village of Tecumseh:

We herewith present the financial statements of the Village of Tecumseh for the year ending February 20, 1940. We hope that you will study them very carefully so that you will be well informed as to the many functions involved in the affairs of your village, and know how your tax dollars were spent.

You will notice that in maintaining the many village services so necessary in order to make Tecumseh a good place in which to live, the disbursements of $59,527.27 were $5,354.15 in excess of receipts, which means that $5,354.15 more than was received from all sources was spent to do the work. There is not enough cash on hand at this time to make such an expenditure possible again next year.

It is anticipated that the expenditures for the coming fiscal year will be equal or in excess to those of the year now past. If the same village services are to be maintained in the future the tax rate, soon to be established, will have to be brought back to the level of previous years.

Very truly,
KARL M. SCHNEIDER,
Village President,
Tecumseh, Michigan

We further certify that the books of account are in accord with this report.

Respectfully submitted,

School Notes

Chapel on Monday, May 13

Chapel was opened by group singing of "Battle Hymn of the Republic."

Mr Brazee was scheduled to be our speaker. He read to us the 91st and 93rd Psalms and then introduced Dr. Brown, who gave us an interesting talk on evolution.

Reporter, Ethel Cook.

Chapel on Monday, May 20

For chapel exercises through the kindness of Reverend Escolme, we had the pleasure of hearing Mr Clifford Lewis, world-traveled evangelist from Montgomery, Alabama. He spoke on the need of Christian leaders, and gave the following traits which one must acquire to become a leader: Christian experience, Christian character, Preparation plus determination and energy, along with love for Jesus Christ forever first. We were most fortunate and indeed grateful to have Mr Lewis speak before our assembly, and we enjoyed it to the fullest extent.

Margaret Cadmus, Reporter.

Literature Classes See Shakespeare

Last Wednesday afternoon Mr Young's American Literature classes and a group from Mrs Service's English Literature class attended in Ann Arbor the matinee performance of "A Winter's Tale," by Shakespeare. As it was the first time that many of us had ever seen a Shakespearian play or ever watched the performance of famous actors it was really a great thrill. In the cast were Judy Christiane, Diana Barrymore, Hiram Sherman, Joseph Holland and Louis Calhern who is also a movie star.

Margarett Cadmus, Reporter.

Bookkeeping

The bookkeeping students have been studying chapters in their text-books dealing with family budgeting and bookkeeping, partnership bookkeeping, and personal bookkeeping, and have been doing exercises relative to these in their workbooks. Each chapter is read in class by various students and then is disussed thoroughly.

Typing

The Typing II pupils are doing exercises dealing with legal papers, which they have learned to bind and endorse.

Each day a ten-minute speed test is taken by those who wish to acquire a high speed and win an award. On Monday, Thursday and Friday a one-minute test is given to improve accuracy and speed.

Typing I students are mastering tabulation problems and many of them have already made 40 words per minute.

Typing pins for 40, 50, and 60 words per minute will be awarded the last day of school for those that have acquired these speeds.

Janette Underwood, Reporter.

Shorthand

Six members of the Shorthand class and their instructor, Mrs Way, visited Cleary College and the Michigan State Normal at Ypsilanti on May 22. They left Tecumseh at 10:30 o'clock in the morning and enjoyed a potluck luncheon at Recreation Park in Ypsilanti at noon.

At Cleary College they attended the Shorthand, Law and Mathematics classes. Later they went through various buildings at the Michigan Normal College, including Pease Auditorium, the Administration Building, and McKenney Hall.

Sixth Grade
Mrs. Smith, Teacher

In health we are studying about our eye-sight and our hearing. We are thankful that we are not handicapped in these respects.

Beppy Escolme ran her hand through the wringer Friday afternoon.

We are studying about Japan in our geography. Barbara Humble made a map of Japan and Russia.

Beppy Escolme brought a large bouquet of lilacs, jonquils, and tulips for Mrs Smith.

Some of the children brought their cameras in and took pictures of our patrol boys, Lee Clark is captain and Roy Sharp and Freddie Ward are lieutenants.

Room helpers are Richard Pearson and Donald Everhart.

Reporters, Lenore Mohr, Martha Jane Kempf.

Fifth Grade
Miss Starr, Teacher

In arithmetic we went from 9 to 10 on our self-tests. This is the highest we have been.

We have one more lesson in spelling before we have completed our book.

Several of our plants are in bloom, and we have many nice flowers. Last Friday we drew pictures of apple blossoms in art.

Some of us made outline maps of North America, South America and Michigan. They all are good.

In Music the boys were given a treat by Miss Hurphrey for selling operetta tickets. The girls have almost completed their book of composers.

The boys in gym are playing baseball and La Mar Cheever and Dwaine Louden are the captains. The girls are learning the art of baseball, too. Some of us are good.

The room helpers are Stanley Swain, Jean Leonard and Marie Phillips.

Reporters, La Mar Cheever.

Kindergarten - West Branch
Mrs. Updyke, Teacher

Jeanette Goodacre. We have been busy this week making a book about toys. There are pictures of scooters, wagons, play houses, dolls, cats, dogs, ducks and chickens in the book. Next week we will make covers for our books, and then we will take them home.

Third Grade - East Branch
Mrs. Truesdale, Teacher

Shirley Moore celebrated her eighth birthday Thursday. Her mother served ice cream and cookies.

On a recent Weekly Reader test Irene Wilson had a perfect paper which indicates a fifth grade score. Other high scores were received by Michael Chamberlain, Norma Potts, Patty Hammack, William Bickham, Wilbur Kimball and Esther Hindall.

We are reading stories about boats from our supplementary readers. Toy boats of different kinds have been brought in for our exhibit, and we are keeping a list of all nautical terms we find during our reading of this unit. We enjoyed drawing boats during art period this week also.

After reading the book "Safety Jingles" by Jane Lincoln the children tried writing some. Here are a few of the results:

Diddle Diddle Dumpling, my son John
Sat in school with his rubbers on
He had a cold the very next day
And in bed had to stay.

—Louise Poley,

Sing a song of six pence
A stairway full of toys
Four and twenty, accidents
By the girls and boys.

—Gerald Tomezak.

Bobby Shaftoe fell of the shed
He hurt his head and is now in bed
Bobby Shaftoe is nearly dead
Poor Bobby Shaftoe,

"WELL, I LOOKED INTO
THE COSTS
OF ADVERTISING"
*Says Bank President**

"There's a Lot of Misinformation About Advertising Costs . . ."

"I am for any movement that brings down the cost of living for the public. But I am opposed to being fooled by anyone—particularly by those who accuse me of being duped by someone else. I like facts! So, having heard so much about what I have to pay for the advertising of things I buy—how much of my money pays the advertising costs of goods—I looked into the matter, and I got a lot of facts. Here are some: For oranges selling at 25c a dozen, the advertising cost was $\frac{3}{10}$c. For cigarettes selling at 13c a pack, the advertising cost was $\frac{1}{2}$ of one cent. For an automobile selling for $1000.00, the advertising cost was about $12.00. For a breakfast food selling at 15c a package, the advertising cost was $\frac{1}{8}$ of a cent. The average cost of advertising for a dozen different kinds of products I discovered to be under 2% of the selling price to the public . . . Advertising has increased the distribution of goods, and has made mass production practical by making mass selling possible. It has thus increased competition, forced the quality of the products higher, and brought selling prices to the pubic down lower . . . I, therefore, reject the criticism of those who condemn Business for spending so much on advertising. I reject the criticism because it is misinformed and deceptive. Business does not spend proportionately high amounts for advertising; it spends proportionately little—and what it spends enables me to get better goods for less money."

$25,000 Hospital Bond Issue Up To Voters Here Tuesday

ELECTORS ASKED TO RELIEVE CONGESTION BY APPROVING $25,000 ADDITION

The proposal to relieve the crowded condition at Tecumseh Hospital with a building program, nearly doubling the size of the institution, will be decided here next Tuesday when voters go to the polls to register their decision on a $25,000 bond issue, the funds to be used to care for the expense of the improvement. Any man or woman over the age of 21 years, or husband or wife, who owns property assessed for taxes by the village, is eligible to ballot in the election. The polls for both precincts will be set up in the council building, S. Evans st., and will be open from seven o'clock in the morning until six o'clock in the evening.

Built and equipped at a cost of approximately $40,000, raised entirely through public subscription, the hospital was turned over to the village two years ago, debt free. Today, after two years of operation, it is crowded to capacity, and has been forced at times to refuse patients because of this condition.

"We must either enlarge the building, so that we have room to accommodate the patients who are coming to us from all over this section or we must begin to refuse them," R. W. Herrick, president of the hospital board told the council at the time he appealed for the bond issue for the proposed expansion. "We have made private rooms into wards, we have at times placed cots in the halls to accommodate patients. This condition cannot continue if we are to maintain our high quality service," he said.

Mr. Herrck pointed out that the applications for admission to the hospital are not alone coming from Tecumseh and its immediate trading area, but from Adrian, Milan, Saline, Dundee, Deerfield, Blissfield, Manchester and Brooklyn. The fact that the institution is ultra-modern, and has an excellent staff of nurses and doctors, is winning for it a wide reputation, he declared.

Mr. Herrick also told the council that in his opinion the hospital, from its earnings, could over a period of years pay the entire cost of the enlargement program, including the interest. He based this opinion on the fact that during the past 12 months the institution has made a net profit of more than $1,700, after spending some $700 on improvements.

The $25,000 fund, Mr. Herrick declared, is ample to guarantee the completion of the addition, and he indicated there would be a portion of the money to be returned to the village unspent. He said, however, that the hospital board did not want to underestimate the cost and then be unable to complete the structure because of a lack of funds. He also advised the council that he had a plan whereby the hospital would be completely equipped without added expense to the taxpayers.

Both hospital board and the council have made extensive inquiries into the cost of the proposed addition and figures have been compiled for this purpose by a firm of Detroit architects.

The hospital, opened the last day of May two years ago, was intended to accommodate 18 adult patients and six babies. For nearly a year it has been crowded beyond capacity, and only one day last week 35 patients were listed on the register. During the past year it has showed a net profit of $1,764.92, after charging off $1,264.08 for depreciation and $283.96 for bad accounts. Its cash position as of June 1 was $1,765, and its cash and accounts receivable amounted to over $4,200.

The fact that the hospital has shattered most all records by registering a profit has attracted wide attention, throughout this section of the country. During the past year, records show that its beds were occupied to capacity 89.5 per cent of the time. In the average hospital, a record of from 60 to 70 per cent is considered excellent.

The proposed new addition would give the hospital 30 adult beds and 12 bassinets, nearly doubling the present size. The kitchen would be taken from the basement to the first floor, and new maternity rooms would be provided. Private rooms would also be added, a feature that is now available only a part of the time because of congestion.

The present heating and lighting plants are sufficient in size to carry the extra load without enlargement, it was declared, and the general operating percentage of overhead of the institution would be reduced under the expansion program.

"Operating as it has in the past year," a friend of the hospital said today, "there is no doubt but that it can pay its own way and retire the bonds and the interest when they come due. However, suppose the taxpayers had to pay the cost, it would mean but little when we consider the value of the institution."

He then pointed out that with Tecumseh's assessed valuation of more than $2,000,000, it would not cost any taxpayer more than $1 to $1.25 per $1,000 assessed valuation annually to retire the issue over a ten year period.

"This is a small sum," he declared, "when we consider that the institution daily is saving lives, and saving relatives and friends the need to travel miles to distant hospitals to call on their loved ones."

The following table shows some important facts relative to the hospital's operation during the past two years:

ASKS CYCLISTS TO OBEY RULES

SHERIFF URGES COOPERATION OF PUBLIC IN EFFORT TO REDUCE ACCIDENTS

Sheriff Roscoe Scott has inaugurated a safety campaign in Lenawee county among bicyclists and pedestrians, urging them to obey the laws more carefully in an effort to reduce traffic accidents.

Calling attention to the fact that forty per cent of last year's fatal traffic accidents were pedestrians involved in mishaps that might have been avoided, the sheriff is hoping to carry this message home to the public through those who ride bicycles and motorcycles. To this end, he began last week the distribution of 5,000 warning tags, which are being attached to all bicycles or motorcycles discovered by officers, asking for the cooperation of the public in an effort o reduce the death toll.

The rule governing pedestrians who walk on the roads and highways, is as follows: "Where sidewalks are provided, it shall be unlawful for pedestrians to walk upon the main traveled portion of the highway. Where sidewalks are not provided, pedestrians shall when practicable, walk on the left side of the highway facing traffic which passes nearest."

To bicycle and motorcycle riders, the sheriff cited these laws:

Riders must sit upon the regular seat of their vehicle.

No person may be carried upon a bicycle or motorcycle except upon a firmly attached and regular seat.

Riders may not carry any package, bundle or article which prevents keeping both hands upon the handle bars.

Bicycles and motorcycles may not be ridden more than two abreast.

Bicycles operated at night must be equipped with a front lamp which gives a white light visible for 200 feet, and a rear lamp or reflector visible for 200 feet.

No person shall ride a bicycle unless it is equipped with a suitable bell or other warning device, except no bicycle shall be equipped with nor shall any person use upon a bicycle any siren or whistle.

No person riding upon a bicycle shall hitch onto any vehicle on the highway.

Riders shall travel on the same side of the road and observe all traffic laws that govern the operation of an automobile.

YOUR "YES" VOTE MAY SAVE A LIFE

Next Tuesday, June 11, the eligible voters of the Village of Tecumseh, will go to the polls to decide an important issue; an issue that in the years to come may have a definite effect upon the health and lives of a majority of this village's population.

The issue before the voters next Tuesday is whether or not Tecumseh Hospital should be enlarged, and the village issue bonds in the amount of $25,000 to make the improvement possible. Any man or woman over the age of 21 years, and who owns property that is assessed for taxes by the village of Tecumseh, or the husband or wife of such a taxpayer, is eligible to vote in the election.

Tecumseh Hospital was built and opened to the public two years ago at a cost approximating $40,000. Every penny of this money was raised through public subscription. No special taxes were levied, it was a free-will offering. At that time the hospital was given to the Village of Tecumseh, debt free, and the council was told to operate it for the benefit of this village and its trading area. The record that the institution has established since that time speaks for itself.

Originally intended to accommodate 18 adult and six baby patients, the hospital has, for several months, been filled to overflowing. Only last week it housed 31 patients and others were turned away because there was no room. Private rooms have been made into wards to admit those who were ill, and, at times, halls have been used for emergency cases.

Patients at the hospital do not all come from Tecumseh. The fact that the institution is new, that it has ultra-modern equipment, that its staff doctors and nurses enjoy enviable reputations, all of these things have won for it a fine record. Its patients now are coming from Adrian, from Manchester, from Saline, from Dundee and from other towns, and its popularity is growing daily.

But the hospital board feels that it is folly to continue to "pack in" the patients, as it has been doing for the past few months, and take a chance on continuing this high type service. Some patients need and demand private rooms; they are willing to pay for them, but the hospital has not always been able to furnish them because of congestion. In many instances, operations have been delayed, awaiting room space. True, emergencies always have been cared for, but the board feels that the time is not far distant, if such congestion is allowed to continue, before emergency cases may be prohibited.

Such a condition at a hospital is not good and should not be allowed to go on if it is possible to remedy it. It can be remedied through the enlargement proposed, the new addition nearly doubling the size of the institution.

Definitely, we are in favor of the proposed improvement and of the issuing of the $25,000 in bonds to make it possible. The hospital board has told the taxpayers that it believes that the hospital can "pay its own way," that it can pay the bonds and interest over a period of years without a cent of cost to the taxpayers. If it can, that is fine, and there is little doubt but that it can. But if it don't, Tecumseh's can't afford to be without the services of the hospital, and neither can its trading area.

Since the hospital was opened, it has made a net profit of more than $1,600, after spending some $600 on improvements. This means that the hospital has cleared nearly $100 a month since it was opened. If it has made this profit in the small, cramped building, certainly it can do as well or better in an enlarged one. And if it can, then the earnings will be sufficient to retire the bonds and pay the interest without taxpayers' expense.

The new enlarged building, as proposed, will have a valuation of some $65,000. Of this total investment, the first $40,000 was given to the village through subscription. Certainly, the taxpayers should be willing to spend $25,000 for a $65,000 enterprise.

But let's not judge the value of the hospital through the cash investment alone. Let's look at it from the humanitarian standpoint—let's think of the good it already has done—good that cannot be measured in dollars and cents; lives have been saved.

We don't doubt for a minute but that the hospital through its profits over a period of years will repay the proposed $25,000 bond issue. The board says that it can and will, and we agree with the board. But we don't care. Tecumseh needs a hospital, a larger hospital. If it costs the average taxpayer $2 or $3 a year for the next four or five years, to have it, what of it.

It is possible that the taxpayer who might object will, during that period, find it necessary to use the hospital for him or herself or some of his or her family. Perhaps a life will be saved. How quickly then, would the vote be changed.

Let's forget the $2 or $3 that the hospital may cost us and vote "yes" next Tuesday. We need the improvement. We need the best hospital that we possibly can afford. A "yes" vote will give it to us, and it may save a life.

Conservation Notes

LANSING — From mid-May to mid-June is the month in which most fawns of Michigan's whitetail deer herd are born, and gamemen of the conservation department are again warning the uninitiated not to pick up any they think are "orphans" in the woods.

While the little spotted fawns may appear deserted and helpless, they should be left where ever they are seen, for the doe is usually only concealed not far away, awaiting the departure of the intruder to return to her young.

In two to four weeks the fawns begin to follow the doe about, and it is then that motorists in deer country are advised to be particularly careful.

Among Michigan's whitetail deer, twins are more common than single births, and occasionally there are triplets.

The United States Biological Survey maintains four bird refuges in Michigan: Huron Islands and Siskiwit Island in Lake Superior, Seney migratory waterfowl refuge in Schoolcraft county, and a refuge in Lake St. Clair. The Lake St. Clair refuge is maintained in cooperation with the Michigan department of conservation.

LANSING—Frog legs, a delicacy for many a diner, may be obtained legally in Michigan in a season that began June 1 and extends to October 31.

No license is required to take or sell frogs, but the law provides they may not be speared with the aid of artificial light.

He'll Tag You Here, Soon

You will meet him on the street corner, Wednesday, June 12th, as you go to work, on your way to lunch, during the afternoon's shopping; a small, tousled headed little lad with a remarkably contagious grin!

You will know him by his handful of red tags and his coin box as one of "Uncle Floyd's Boys," a member of the Starr Commonwealth Tag Day corps who will be Tecumseh guests for the day.

He may need no introduction, for tag days in behalf of Starr Commonwealth. Floyd Starr's unusual home and training school for boys who need an opportunity, have become annual events in many Michigan communities. The splendid purpose to which your contribution will be put has the unqualified endorsement of educators, clergymen and juvenile authories everywhere—the rehabilitation in an environment of affection and understanding of boys who but for the Commonwealth never would have had a chance.

The sunny smile you'll earn, as you drop your coin in his box, and his grateful, "Thanks a lot, Mister," will be sufficient reward for most men, knowing the warm jackets, wholesome meals, the sound education it will help to buy. Starr Commonwealth, it is interesting to know, receives no state nor federal aid; it is entirely dependent on good will contributions, of which Tag Day donations form a substantial part.

It is interesting to know, too, that Tag Day in Tecumseh this year is no ordinary occasion; to it Starr Commonwealth boys have been looking with eager hopefulness. For Floyd Starr, who is "Uncle Floyd", to every boy in the Commonwealth's comfortable dormitories (125 of them!) has promised his lads that the gifts of the Tecumseh 1940 Tag Day shall be given a project very close to their hearts—the restoration of Camp Nuestro, their self-built summer "hideaway," which must revert to its former tangle of briar and underbrush denied your sympathetic understanding.

If a summer camp for boys suggests luxury, be assured there is nothing luxurious about Camp Nuestro. And if you have not forgotten the red-letter days of your own boyhood—the adventure of living out-of-doors and the thrill of your first "shack"—then you will have much in common with the boys who built Starr Commonwealth's retreat, five years ago. Commonwealth boys will tell you with enthusiasm of their fine modern school buildings, their homelike cottages, their splendid gymnasium. But in Camp Nuestro, built almost literally out of nothing by the boys themselves, they find pride inspired only by the work of their own hands.

Non-Partisan News Letter

LANSING, June 6 — Germany's blitzkrieg threat of European domination and America's belated awakening from pipe dreams of peaceful isolation have just about put Michigan politics and state affairs into near-total eclipse.

Verily, these are days of confusion and fears.

The fast-changing situation is bewildering, to put it mildly.

History is being written with lightning speed. Issues are reshaping in similar tempo. How the voter will react to such issues as economy, deficits, isolationism, unemployment, social reforms, business recovery and "keep out of war" when the British empire appears tottering, France has its back to the wall, and Roosevelt is being criticized for not spending enough money on armaments is one of those dizzy situations that nobody foresaw a month ago.

A Republican bigwig remarked the other day: "The issues are changing so fast it's impossible today to tell what will be needed to win the election in November." And it looks like he was right.

Michigan to Benefit

Exports have been declining and farm products particularly are being hard hit, but Michigan remains a bright spot on the nation's economic map.

For several months we have enjoyed business "better than average."

Because of our high development of mass production methods in industry, Michigan stands to receive major benefits from the sudden spurt in rearmament orders from Washington. Steel, motors, machinery, retooling, army trucks, artillery guns, shell forgings, cartridge cases, and other military items will all be manufactured in Michigan.

Michigan industrial centers will be an important hub in this feverish rush to arm ourselves on lines of modern blitzkrieg warfare. Motor companies are gearing to turn out machine guns, cannons, gunsights, tanks, airplane engine parts and even torpedo boats. Among the products which Ford will probably turn out are submarine chasers and airplanes, both on assembly line schedules.

Thousands of other parts come from motor company supply firms, many of which are located in small towns in Michigan and other Middle-Western states.

Be Thankful!

At a time when Hitler is outdoing Napoleon and when democracy is falling back before the grim march of dictatorship, we should be devoutly thankful that we live in the United States.

One of the most enlightening word portraits of the American democracy of free initiative and liberty which we have ever read was voiced recently by a Michigan educator—Dr. James Thomas, president of Chrysler Institute of Engineering, Detroit.

"In 1790 we took a country that had 400 millions of income and in 140 years we raised that to 80 billions," he said.

"We took a country that had a new wealth of 500 millions, and in 140 years we raised that to 375 billions.

"We took a country that had three millions of population and raised that to 125 millions.

"We took a country with no roads at all and built 600,000 miles of paved roads, 3,000,000 miles of roads, and we put 25,000,000 automobiles on those roads in our anxiety to get somewhere, only exceeded by our anxiety to get back to where we started that we might start somewhere else.

Wealth of America

"We produce 85 per cent of all the automobiles produced in the world. And did you know that we have more radios than all the rest of the world combined? We have more bathtubs than all the rest of the world.

"They say that 7 per cent of the population of the planet living here in the United States, tilling 6 per cent of the tillable acreage of the world, produce half of the food crops produced on earth. One English authority said that we had created and owned half of the wealth of the world since the Revolutionary war. Whether that is true, 60 per cent of all the minerals extracted from this planet are taken out of the ground of the United States.

"And I know this—that half of the world's communication facilities are in America and that nearly half of all the railways and nearly half of all the electrical energy on the planet, and this 7 per cent of the population of the planet enjoys such high standards of living that we drink half of the world's coffee, use half of the world's tin, a little over half of the world's rubber, three-fourths of the world's silk, one-third of the world's coal, and two-thirds of the world's crude oil."

Education, Too

And if you hastily conclude that we Americans have gone sledlength for crass materialistic culture, then listen to these facts:

"That in the 140 years we built three times as many colleges and endowed them with nearly five times as much money as all the rest of the world in any period of 140 years.

"We built three times as many libraries and put nearly five times as many books in those libraries as all the rest of the world in any period of 140 years.

"In 1933, when we were right at the bottom of that other depression, we found we had 29,000,000 boys and girls and young people in schools and colleges in this country and employed 1,000,000 teachers to teach them. That is 30,500,000 people working at this thing we call idealistic culture.

"Between 1870 and 1940 our population increased 218 per cent and in spite of that, the gainfully employed increased 291 per cent at a period when we were making our most rapid technological development."

More Persons Employed

And here's one for the books!

"Would it surprise you if I told you that more people were gainfully employed in 1930 than was true in 1870, 1880, 1890, and 1910? That's what our census shows.

"Would it surprise you if I told you that in 1875 only 324 people out of each thousand were gainfully employed, and in 1900, only 100 out of every thousand, and that between 1900 and 1930, that is, the 30-year period of our most rapid technological development, we created 20,000,000 new jobs, and that now one workman out of seven is making things his father never saw if he is past 55, and one man out of every four is making things his grandfather never saw if he is past 60?"

Yes, we should be thankful!

Fascism's Failure

Fascism's triumphs on the battle fields, paid at a staggering toll of human blood, are in sorrowful contrast to the lowered standards of living which fascism has imposed on the peoples of Germany and Italy.

According to official Italian statistics, the wages of farm laborers have declined from an average of 14 lire per day in 1927, 13 in 1929, 10.90 in 1931, 9.25 in 1932 and only 8.90 in 1935—a slump of 37 per cent in eight years. Because the prices of consumption goods have fallen only slowly, the actual purchasing power of wages in Italy has dropped to a level at least 15 per cent below the level prior to advent of fascism.

Since 1930 both quantity and quality of food available in Italy has fallen, so the records show. Average wheat consumption is less today than it was before the first World war. Two-thirds of farm land are held by a tenth of all farmers; sharecropping has increased; labor unions have been abolished; even the eight-hour day has been forgotten.

All this, too, is on the record.

Yes, we in Michigan should be thankful!

Germany's Price

German industrial wages are only a fraction of those paid in Michigan.

Here is a table of hour rates for Germany workmen compared with average rates for American workmen:

General building labor—German 22.5c, American 95c.

Skilled metal worker—German 22.2c; American 65-95c.

Paper processing, skilled, male—German 23.2c; American 62c.

General steel labor—German 15.9c; American 45c.

Approximately 10 per cent of the German worker's pay is deducted at the source for insurance payments — unemployment and old age pension. Wage poll taxes exact another 3.5 per cent. So-called "voluntary" contributions for the labor front and winter relief fund amount to 8 or 9 per cent.

Germany workers and white collar employees therefore receive net wages and salaries averaging only 77.4 to 81.5 per cent of their gross earnings, according to competent authorities.

It is a costly price to pay for loss of personal liberty and freedom and lowered living conditions.

Here in Michigan, blessed generously by nature and molded by man into a mighty industrial empire, we can truly be thankful.

At this moment when the future seems uncertain and discouraging, thank God that you live in the U. S. A.

Before you go to bed tonight, get down on your knees and thank God that you live in Michigan—first among all states in industrial hourly pay, first in recreational income, eight in per capita income and high up in the column for per capital retail sales—a state whose technological achievement makes it stand out this June, 1940, as "better than average" on the economic map of the world's greatest democracy.

Advice From an Expert

DON ECONOMY, 16, a pupil at the Mackenzie High School, Detroit, is one of the enthusiastic Michigan boys who has joined the Ford Good Drivers League and entered the League's $30,000 prize contest for championship high-school age drivers. Out to win one of the 48 free trips to the New York World's Fair and a chance for a university scholarship, Don seeks expert advice from Captain Walter Braznell of American Airlines, Inc. While Stewardess Gertrude Ackerman looks on, Captain Braznell and Don review the book on skilled driving which every boy receives free on joining the League. "Don't over-control . . . . skilled drivers are graceful drivers," says the book and Captain Braznell points out that this has long been a basic rule of safety in flying. Membership in the League is open to all boys between the ages of 14 and 18. There are no dues or fees and application blanks may be secured at any Ford dealers or by writing directly to the Ford Good Drivers League at Dearborn.

BECAUSE Tecumseh Hospital a greater part of the time is taxed beyond its capacity with patients from Tecumseh and throughout Lenawee and Washtenaw counties; and because this condition can be relieved through the building of an addition, nearly doubling its size and guaranteeing greater service and satisfaction:

We, the undersigned taxpayers and residents of the Village of Tecumseh, believe that the proposed addition to Tecumseh Hospital should be built forthwith. We urge every taxpayer to vote "yes" on the proposal at the Special Election, to be held at the Council Building on Tuesday, June 11th, 1940.

"I RELY ON ADVERTISING
WHEN I BUY"
*Says Housewife**

"Advertising Saves Me Time, And Saves Me Money"

"I've heard that someone has said that Russia gets along without advertising. Well, so did Ancient Egypt, but I'd rather live here now, and read the Advertising . . . I'm not trying to be funny. First of all, it isn't true that Russia gets along without advertising because I have seen advertisements of the Russian Government and Russian Travel Agencies in thir country. But that's not important . . Advertising does a lot for me that I couldn't do for myself. It tells me usually which products are good. When I see an ad for a breakfast food, I generally know what that food is and its characteristics are; and I can tell whether the price is right. That is so true and so important to me and other women that even potatoes and onions today are being packaged, branded and advertised—they are of selected quality and size, are clean, and come in accurately measured quantities in standard packages. I have confidence in advertised products because I have found them to be reliable. So, I buy without hesitation, and that saves me time . . . As for price, I have found that advertised goods sell on a quality-price basis. For the price, the advertised product usually offers as much, and sometimes more than the unadvertised product of similar quality. I say, without hesitation, therefore, that Advertising saves me money, too."

STATE PRISONS ARE PROBLEMS

PRISONERS IDLE DUE TO LACK OF INDUSTRIAL ORDERS; POPULATION HAS REACHED 7,500

LANSING, — Michigan industrial plants, geared to meet sudden demands of America's new preparedness program, are reported suffering from a shortage of skilled labor.

At Washington where a vast aviation program is being rushed to legislative completion, military experts decry the lack of trained ground mechanics as a serious barrier to immediate realization of the world's foremost air forces as recommended by President Roosevelt.

In this situation of national emergency it is a sad commentary on government, and democracy in particular, that with all this feverish appeal for trained workers — men who incidentally command good pay — government has done comparatively little to rehabilitate the idle thousands on public relief and the idle thousands inside prison walls to fill jobs such as these.

The state social welfare commission is reported to be fully cognizant of the need of rehabilitation for family heads in those areas of northern Michigan, outside the industrial belt, but the state has a deficit of approximately 30 millions; the legislature reduced the relief appropriation, and you can't spend money you haven't got.

The prison situation appears to be somewhat different.

Therein lies an interesting story—one that is off the beaten track. It is the story of Michigan's "forgotten men"—the 7,500 inmates of our prisons.

When citizens commit a wrong against their fellows, justice decrees they must be punished. Minor offenses bring a jail sentence or a fine; major offenses bring incarceration inside prison walls.

In Michigan's three prisons — Jackson, Ionia and Marquette — rae 7,500 men.

They are serving time ranging from a year to life.

Approximately 950 out of the 7,500 are "lifers."

What do these 7,500 men do? Are they kept busy at useful tasks? Are they given an opportunity to rehabilitate themselves, to maintain their vocational skill?

Here is the answer:

Out of the approximately 6,500 prisoners who may be eligible to ultimate parole or release, only 1,500 are given employment in prison industries.

Today there are 200 prison inmates, already paroled by the state for good behavior and conduct, who are denied the privilege of freedom because they cannot find a job outside.

The question of prison-made goods and where they should be sold has beset many state legislatures.

Until 1935 the state of Michigan oprmitted prisons to sell products of state industries in the open market. It was what the Michigan furniture industry considered to be competition with private industry—sale of prison-made furniture to state institutions—that led to adoption in the legislature of a new law. This law permitted the state to purchase its products anywhere, presumably at the lowest price according to specifications. Only binder twine can be sold in the open market for private use.

In New York and 12 other states it is compulsory for state departments and institutions to purchase such equipment, as could be manufactured to meet specifications, from state prisons. The argument is that the state should use its own agencies to reduce its costs, and all this in the interest of the taxpayer, of course.

Michigan prisons maintain the following industries:

Jackson prison—Binder twine factory, brush shop, canning factory, metal stamp plant (license plates, beds, etc.), print shop, tailored garment factory, textile plant and shoe factory.

Ionia prison — Cotton garment plant, furniture factory and soap factory.

Marquette prison — Tobacco plant, brick plant, and snow fence factory.

William H. Burke, manager of the Michigan state industries, points out that Michigan is one of three states which confines prison industrial activities to a small field such as state institutions and departments on a non-compulsory basis.

"Out of the 490 men who have been employed at the Jackson prison textile mill, 200 have just been laid off due to lack of state orders," said Mr. Burke whose offices are at Jackson. "These men go back into their cells, idle and unproductive. In the meanwhile, state purchasing agents are buying textile goods elsewhere.

"The law requiring men to have jobs before being paroled is sound. But at the same time it fails to provide that these men prepare themselves while in prison to assume their places again n society. Our prison program has been negligent in this regard. Require prison inmates to do something that will teach them the habits of industry; make them self-supporting and you will improve their attitude toward society."

Burke lauded the state correctrections commission for establishment recently of a trade school at Ionia reformatory in cooperation with private industry.

Michigan manufacturers have been critical of prison industry, the low cost of prison labor, 19 to 25 cents a day, is an emblem of "unfair competition," they say.

But in the meanwhile thousands of prisoners are in idleness, supported by society itself and denied the privilege of learning and practicing a useful trade.

Here is the old probelm. Shortage of skilled labor in private industry and the constant rise in the cost of government merely puts it into sharp focus once again.

STATE WILL FEEL BOOM FROM WAR

RAW MATERIALS AND INDUSTRIES SEEM CERTAIN TO BE IN DEMAND, SURVEY SHOWS

LANSING, — War in Europe, if it is not ended quickly, is certain to draw on Michigan's reserves of oil, coal, iron and copper, according to the Department of Conservation. Michigan's bromine and magnesium will be sought out and bought by those nations able to pay for and to transport them. If the present war is developed in the pattern of the last great war, Michigan minerals will be needed. Michigan men will be returned to employment, Michigan bank accounts will be swelled and Michigan may face another period of reaction when the war ends.

The last great war brought boom times to sections of the upper peninsula. Conservation department geological survey records show production of copper increased by nearly 80 per cent during the war years 1915-18. Peak production for all time was 296,794,531 pounds in 1916. Michigan copper production last year was 87,915,000 pounds.

Michigan's shipments of iron ore in 1916 totaled 18,812,972 tons. They dropped to 973,371 tons in 1932, blackest year of the post-war slump. Shipments totaled 11,240,000 tons last year.

In the last great war Michigan oil production was no factor. Presence of oil in quantity in Michigan substratas was suspected only, not confirmed. Now Michigan has important discovered oil supplies. If the present war does not end quickly, world oil reserves will go down, prices will rise. Michigan oil will be needed more than ever before.

Michigan supplies the bulk of the bromine used in the United States and will be one of the world's important producers of bromine if the war continues. In the last war, chemists developed a tear gas, brombenzyl cyanide, the manufacture of which called for large quantities of bromine. Should gases be used in large quantities in this war, bromine is a necessary constituent of "leaded" gasoline which smooths the operation of motors in military airplanes and tanks.

This war is a war of machines. Magnesium, playing an important role, has helped make possible the manufacture of a lighter airplane motor. Michigan supplies the entire domestic output of primary metallic magnesium.

The blast furnaces roar. Limestone is needed as a flux in the making of steel. Michigan has limestone in great quantity, easily secured, quickly and cheaply transported.

The world—if the war goes on—will need more salt, more portland cement, more gypsum, more of a number of things that are wrested from the geological formations which underlie Michigan.

ROMEO (MPA) — A 93-year-old home here was recently wired for electricity for the first time. Lumber for the house was cut from nearby trees, and Indians watched building operations. Lighted first with candles, about 25 years later three oil lamps were purchased from a salesman named John D. Rockefeller. One of these lamps, that served for 58 years, is now wired for electricity and graces a 99-year-old table.

NINETIETH YEAR—NUMBER THIRTY-SEVEN. TECUMSEH, MICHIGAN, THURSDAY, JUNE 13, 1940. FIVE CENTS PER COPY.

$25,000 Hospital Addition to be Opened in October, Herrick Says

VOTERS, BY 10 TO ONE MAJORITY, APPROVE BOND ISSUE AT ELECTION ON TUESDAY

By a vote of more than 10 to one, the qualified electors of the Village of Tecumseh on Tuesday approved a $25,000 bond issue, the money to be used in the building of an addition to Tecumseh Hospital, nearly doubling the size of that institution. The vote was 250 in favor of the project, and 21 opposing it.

"The taxpayers of the village have done their part," was the comment of Ray W. Herrick, president of the hospital board of trustees, when he learned of the outcome of the election. "Now its up to the board and to the council to get busy with the project. I think that we can build the addition and have it opened to the public in October. That's the goal we will work to, and I think that we can hit it."

Mr. Herrick said that as quickly as the council acted on the sale of the bonds, the board would be ready to begin the actual construction of the addition. The council meets in regular bimonthly session next Monday evening, and it is expected that the bond sale will be authorized at that time.

The hospital board already has its plans and specifications, including blue prints and bids on the cost of the proposed addition, and it will be only a matter of routine to begin the work, it was pointed out. The new addition will increase the size of the institution sufficiently to accommodate 35 adult patients and 12 bassinets. New maternity rooms will be made available, and several private rooms will be added. The hospital kitchen, under the new plan, will be removed from the basement to the first floor, and new quarters will be provided for regular nurses.

"On Tuesday the hospital had 29 patients and yesterday it had 28," Mr. Herrick said. "We turned private rooms into wards to make this possible, and as the result our income dropped. With the new addition our income is certain to increase, and we should make more money than we have in the past."

The hospital's yearly financial statement showed that in its cramped quarters the institution made a net profit of more than $1,700 after charging off nearly $1,300 in depreciation and over $275 for bad accounts. The hospital board is of the opinion that over a period of years it will be able to pay the interest on the $25,000 bond issue and to retire the bonds without cost to the taxpayers.

Built entirely by public subscription, Tecumseh's $40,000 hospital was opened to the public a little more than two years ago. Originally, it was intended to house 18 adult patients and six babies. During the past year as many as 35 patients have been in the hospital on a single day, and for many weeks the "normal" population has been far above the figure originally intended.

Because the institution has ultra-modern equipment, the popularity of the hospital has been far-reaching and the registration records show that during the past year many patients have come from Adrian, Blissfield, Saline, Dundee, Manchester and Milan. At times, because of the crowded condition, operations have been delayed until private rooms have been available, and on two or three occasions it has been necessary to place cots in the halls to accommodate emergency cases.

The enlarged hospital will have a valuation of well over $65,000, and will be one of the finest institutions of its kind in any town in Michigan.

1940 Census Figures To Be Made Public Next Week

Sometime next week, according to advices from the office of the federal supervisor of the census, at Jackson, figures will be made public showing the unofficial population of Lenawee county and the city of Adrian. Figures also be released as to township population, but none will be available as to the population of the several towns in Lenawee county under the 10,000 mark.

The census for Tecumseh has been completed, and it is believed that it will fall slightly short of the 3,000 mark. The 1930 census gave Tecumseh's population as 2,456. If the 3,000 estimated figure is at all accurate, the village's growth will be approximately 500 in the last decade.

The Jackson office this week is completing figures for Monroe county and next week will turn to Lenawee. Figures for towns smaller than 10,000 population must come from Washington, it was said, and these will not be available for another three or four weeks.

Tecumseh Voters, Wake Up!

An Editorial

As American citizens, born in a country made free by the blood of our Revolutionary fathers, it is sometimes difficult for us to understand just what conditions in Europe a decade ago made possible the rule of dictators; just why the people of Germany and Italy and Russia were willing to submit to the rule and the rod of Hitler, Mussolini and Stalin; just why they did not fight for democracy, the right of freedom, the right of the ballot box and the choice of a government of their own liking.

Why didn't they oppose dictatorship—the right of a single man to wish only for war and to have war? Why didn't they rise up against oppression and declare themselves for democracy—the right to have a voice in public matters; a government of, by and for the people?

Well, they didn't. Instead of voicing an opinion they were willing to "let George do it," and today the frightful answer to their lethargy is written in black headlines across the pages of most every newspaper in the world.

America should take a page from European history and wake up! Tecumseh should take a page from the same book and rise to its feet.

Tecumseh's record in the past six or seven elections has been shameful. The voters here have paid little or no attention to elections, their right to the use of the ballot box—the most precious gift of democracy.

Looking over the record, in the Tecumseh township election in 1938 only 62 votes were cast. In the village election that year, 106 votes were cast. In the township election in 1939, two tickets were in the field and 478 votes were recorded, but in the village election of the same year, only 48 voters took the trouble to go to the polls. In the village election this year, 94 votes were cast. Digging deeper into election figures were can turn to Tecumseh's vote in November of 1939 when it decided to spend $6,200 for an athletic field. Even when the spending of public money was concerned only 123 voters cast their ballots. And this week Tuesday, when the village endorsed a $25,000 bond issue for its hospital, only 271 voters had enough life to get off their chairs and go to the polls.

This record is shameful. The Village of Tecumseh should roll up a normal vote in a regular election of more than 1,500. At an election where only taxpayers are eligible to ballot it it estimated that more than 800 can vote.

The fact that we, as voters, are failing to exercise our right of franchise; the fact that in communities such as Tecumseh people cherish their right of democracy so little that they haven't enough pride to vote; these are some of the things that make dictatorships possible — the very thing that made them possible in Europe.

Let's wake up in Tecumseh. Let's not sit back on our haunches and "let George do it." Let's be Americans. Let's vote. Let's exercise all of the rights that are given to us under the freedom of the American flag.

DEFENDING MICHIGAN

Michigan, as the machine-shop of America, is about to become a key state in the greatest defense program in the history of this nation.

Copper and iron must move uninterrupted from its mines in the north through its locks at the "Soo," the lakes and the Detroit river. Oil fields attain a new significance under a military order. Great chemical plants like those at Midland are vital to the war picture.

It is on the great plants of General Motors, Ford and Chrysler that American defense programs rests. Hundreds of smaller industrial establishments within the boundaries of the state will share in the program to make America safe.

Michigan, by the nature of its population in its great industrial areas, has a legion of un-Americans.

Infiltrated through communities from the tip of the upper peninsula to the bridged and tunnelled gateways to England's Dominion of Canada at Port Huron and Detroit are "Fifth Column" converts of one "ism" or another who will seek to block the defense program.

In a key state in the defense program, then, are vast subversive forces ready to fight against the program America is adopting for her defense.

The necessity of an anti-espionage movement of proportions unprecedented in the state is vital. It is not a state emergency but a national emergency.

The emergency, in view of the program that will shortly start to unfold in Michigan, transcends every other consideration of public welfare. It must be met on a non-political basis of immediate action. For the present administration to ignore it may pen an indictment that will be impossible to excuse should there be a sabotage cataclysm that might be charged to its neglect.

The Michigan State Police is the logical organization to meet the situation. But the work of the few officers now devoting effort in this direction should be supplemented by sufficient men to do the most important job ever cut out for the speedy attention of some competent force of law and order in this state.

The emergency might well be one which would mean that the state police anti-espionage division would be greater than the uniformed force which today does the routine policing and highway patrolling job of Michigan.

The patriotic people of Michigan will see that the job is done. But the vigilance committee is a manifestation of failure of established agencies to do a job that requires doing. The vigilante is guilty of hates and prejudices that lead to sins being done in the name of patriotism. "Black Legions" grow out of these movements. They turn from their set goal to become strike-breakers or political crusaders ofttimes. If the state fills the gap that these vigilance groups unite themselves to fill, there will be no need for them. But there is a job to do that someone—unofficial and secret or official and intelligent—is going to do.

No greater responsibility ever presented itself in this state than that of defending the defense program on which may hang America's future as a democracy.

Michigan's "fifth column" must be frustrated or the whole program of America may falter. Commissioner Oscar G. Olander of the Michigan State Police is the man to direct the job.—Lansing State Journal.

Peaceful Settlements

IT IS a truism that no controversy is ever settled permanently until it is settled rightly. There must be an equitable meeting of the opposing factions, that those concerned may not continue to harbor the animosities which caused them originally to disagree. Exercise of such evils as malice, ill-will, hatred, revenge, is inadmissible and indefensible. Jesus rebuked these traits in the disciple who cut off the ear of the high priest's servant. "Put up again thy sword into his place," he said (Matthew 26:52), "for all they that take the sword shall perish with the sword."

Had Jesus told his followers merely what not to do, without telling them how to control their actions through scientific right thinking, he would have left them to the mercy of human will-power. They would have remained in ignorance of how best to conduct themselves so as to be free from the shackles of materiality. But he did not stop there. His teachings were always positive, for he understood whence came his marvelous healing power. He wanted them to understand the source of his power—which was as available to them as to him—and, through their understanding of God, to demonstrate the divine power in good deeds.

Right actions follow right thinking. The one Mind, divine Principle, is the only basis upon which unity of thought can be gained; it is the source of all right thoughts. . . . On pages 469 and 470 of the textbook, "Science and Health with Key to the Scriptures," Mary Baker Eddy writes, "With one Father, even God, the whole family of man would be brethren; and with one Mind and that God, or good, the brotherhood of man would consist of Love and Truth, and have unity of Principle and spiritual power which constitute divine Science."

As men are actuated by a desire to be fair in their dealings, they express the "unity of Principle" which makes all men brothers. This is not a mere platitude; such unity can be and is being demonstrated. . . .

In handling error of any sort, we start with the scientifically correct premise that God, Mind, is good, and that the real man, Mind's reflection, is also good. Whatever wrong we see in others is but a manifestation of the carnal mind, and our part in the correction must begin with ourselves — we must destroy the wrong image in our own consciousness. This was Jesus' method of destroying error. He saw it as unreal, as no part of man's true selfhood, because he ever held to the truth of being, namely, that the real man is God's reflection.

As we progress in our ability to distinguish between the real and the unreal, our sense of the beauty, utility, and permanence of all that is good is enhanced. This is illustrated by a story of three men who once took a walk in a forest. One was a botanist, one a business man, and one a poet. As they went along, each asked the other what he saw in the forest. The botanist answered, "Interesting specimens;" the business man, "Thousands of feet of lumber rolling off the saws;" the poet, "Endless inspiration." They all saw the same objects with their physical eyes, yet their reactions were vastly different, and each vision was right and useful in its place.

One is false to himself when he permits evil to handle him, or when he sees evil as something belonging to persons. Evil is a negation, nothing, and he must therefore not see it as something real. To magnify human weakness, either in individuals or in groups of individuals, is in itself an evil. The one Mind, which man reflects, knows only good. When we classify all wrongdoing as impersonal error, then we shall be able to destroy it as Jesus destroyed it. This attitude of spiritual thinking will bring about a peaceful settlement in any controversy. —*The Christian Science Monitor.*

MUST LIKE FLOWERS

ATHENS (MPA)—O. P. Stancer, local gladioli specialist, must like flowers, for he expects to set out about 1,500,000 gladioli bulbs this year. There will be about 600 named varieties and 50,000 seedlings.

GETS TWINS, TRIPLETS

COLON (MPA)—Animals on Lynn Whitmore's farm had a field day recently. Two of his prized ewes gave birth to six lambs, two sets of triplets. In addition, a three-year-old Jersey cow presented Whitmore with twin calves, one a heifer and the other a bull.

WELL-POSTED CHICKEN

READING (MPA)—A chicken that may be considered well-posted indeed was hatched recently at a local hatchery. Instead of the usual two legs, this chick had four. This is the second such fowl to be hatched in the 14 years that present owners have operated the hatchery.

Michigan Mirror

Non-Partisan News Letter

LANSING, June 13—More money for bullets; less for books.

That, in a nutshell, may be the 1941 legislative picture for Michigan, and "pressure" group analysts today are giving it serious thought.

While the next state administration will still be wrestling with a large deficit, currently estimated at $30,000,000, there will be no letup by numerous pressure groups in their effort to obtain more state funds.

Ever since the highway people were successful in putting over a constitutional amendment to curb juggling of highway revenues, Dr. Eugene B. Elliott and public school teachers have been looking enviously at the state treasury.

The four tourist associations have been hopeful, too, that the legislature will smile upon them next year with an increase in the tourist advertising appropriation. Nearby states are competing vigorously for Michigan's tourist business, rated in 1939 at $325,000,000. Last year the tourist managers staged a luncheon at Lansing to stress the need for more state aid.

County road commissions through their Lansing representative, Dr. Louis Webber, maintain that they are under-nourished financially and that they merit a better proportion of the tax dollar. A legislative drive will be made in 1941 to reach this objective, perhaps at the cost of highway department funds.

Federal Taxes

Merit of these causes is one thing.

Chance of getting more money is something else.

The Washington rush to re-arm ourselves at a staggering cost of new taxes is an unknown factor in the 1941 legislative situation.

Here is how one legislative observer put it:

"This year's national rearmament bill has reached approximately five billion dollars and it is expected to hit the ten billion mark by 1942 and thereafter. These defense expenditures cannot be financed solely out of additional treasury deficit which is now at the federal limit of 45 billion dollars. To do so would merely invite ruinous inflation. The only alternative is more federal taxes, such as a 2 per cent manufacturers' sales tax as recommended by Senator Prentiss Brown, a member of the senate finance committee, or broadening of the federal income tax.

"You recall that President Roosevelt last week called in Harold Smith, national budget director, to outline plans for a reduction in other federal expenditures.

"We are resigned to the prospect of additional taxes from Washington. The national defense crisis has changed the rules overnight. Washington merely beat us to the tax punch. The state legislature isn't going to add more burdens on Michigan taxpayers after Congress gets through piling 'em sky high."

State Aid Trend

Since the legislature turned to the state sales tax and abolished the state property tax, local government has looked increasingly to Lansing for solution of financial problems.

In two years, from the fiscal 1936-37 to 1938-39 years, state aid to local governments has jumped approximately $35,000,000—a sum greater than the current state deficit.

To give you an idea of how Michigan has been spending money—and all for good and worthy causes, we hasten to add—here is how the $124,037,881 total of state aid in 1938-39 was expended:

Education	$45,726,894
Relief	38,153,015
Roads	30,006,941
Other grants	10,151,031

To attempt an increase of these expenditures would be political dynamite, so the argument goes, in the face of new blitzkreig on the navy lories which are expected to affect every pocketbook directly or indirectly. The taxpayer is likely to foot the military bill almost cheerfully, but he can be counted on balking loudly if local politicos even hint about upping state spending.

To phrase it bluntly—democracy can't fight dictatorship now with books; it will have to rely on bullets and lots of them.

Defense Problems

Europe's lessons in Hitler-style military tactics, however, may influence us to make concessions on state expenditures if they are linked directly to national defense needs.

Take for example, express highways.

Since modern warfare is largely dependent upon motorized equipment, trucks and tanks, to transport men and guns not only to the battle front but into enemy ranks at lightning speed, military roads are of paramount importance.

It may seem far-fetched at the moment, but even Winston Churchill hinted the other day that the British Empire may move its capital to Canada in the event of defeat on the continent and on the English isles. Instead of the Yanks going overseas this time to fight a war, the war may move right into our front yard—Canada!

Across the Canadian border at Detroit is Fort Wayne; at Sault Ste. Marie is Fort Brady. Military roads to Sault Ste. Marie and Detroit may be considered vital. In the Van Wagoner program for highway spending in the next ten years are Detroit-to-Toledo and Detroit-to-Chicago military roads at a total cost of $177,720,000.

Also imagine trying to ferry over thousands of men and trucks at the Straits of Mackinac, and you will get a faint idea of possible transportation complications.

The European war will have a far-reaching effect on Michigan in many ways other than payrolls. These are a few possibilities which are receiving serious thought at Lansing today.

Britton

The Britton Sugar Kings, a 4-H club, met at the home of Ralph and Raymond Easton and inspected the sugar beet projects on the Easton farm previous to the business meeting. Later in the evening games were played and refreshments served. An advisory board for the club was selected consisting of Harry Tucker, Clarence Easton, John Gittus, Harlan Kern, Charles Downing and Earl Murphy. The leader of the club is Carl Brablec.

The 4-H food preparation club at Britton has been reorganized for the county project year with Mrs Lillian Buttolph as leader this summer. The club consists of three first and five second year members. Wilma Filter has been chosen president, Rosemary Gibson vice president, Jane Keran secretary and Dorothy Moore, treasurer.

The Macon 4-H Canning Club has been reorganized under the leadership of Mrs Myrtlene Craig. The officers are president, Gwendolyn Craig; vice president, Florence Carothers; secretary and treasurer, Fern McCarbery. Rena Mae Downing is the other member of the club.

Lawrence Ash of Britton was at Waldenwoods Youth Camp near Howell Friday, Saturday and Sunday, one of four delegates from Lenawee 4-H clubs. The other delegates are Ruby Yeutter, Clayton; Ruth McLain, Hudson, and Wayne Lipp, Blissfield.

Dr. and Mrs L. J. Britton have been spending several days at Mullett Lake.

Caroline Staulter has been ill several days with chicken pox.

Mrs Leon Knifften has been ill of strep throat the past week.

Mrs O. E. Priest and family went to Onekama Monday where they will join Rev. Priest for a two weeks vacation at the home of the former's mother Mrs Mary Keiller.

Mrs William Miller is a patient in Tecumseh hospital where she underwent an appendectomy last Wednesday.

Mr and Mrs Clyde Adams of Ypsilanti spent the week end with Mr and Mrs James Adams.

Mrs Albert Gamboe and daughter Miss Geneva of Lexington, Ky., recently visited Mr and Mrs Allen Abner, Mr and Mrs Wilson Craig and their families and other relatives.

Mr and Mrs Wyman Ferman are living in the upstairs apartment in Mrs M. L. Brown's house.

CITY SELECTS FLOWER

EATON RAPIDS (MPA)—Following a city-wide poll, this community has selected the petunia as its official flower. A day was set aside to plant the flowers, and city council appointed a committee to publicize Eaton Rapids as "The Petunia City" of Michigan.

BOY HELPS OUT

DEARBORN (MPA)—A couple of adults were having difficulty trying to turn in a fire alarm when nine-year-old Bobby Giradin came along and volunteered, "Hey, I know how to pull that box!" Somewhat skeptical, the two persons lifted Bobby up so he could read the box, and the lad turned in the alarm. His father is a fireman.

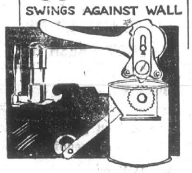
SWINGS AGAINST WALL



This period will probably go down as the can age, not only because of the popularity and variety of canned goods, but for the reason thousands of inventors have tried their talents on can openers. Here is one that does the trick neatly, sans jagged edges, and swings against the wall when not in use.

ODDITIES AT THE FAIR

NEW YORK—Here are a few of the strikingly unusual things visitors will find at the New York World's Fair 1940.

A parachute tower from which visitors may "bail out" at an elevation of 250 feet and be sure of a "happy landing."

Revolving "magic carpets" from which you may look down as from a height of two miles upon "The City of Tomorrow" inside the 200-foot Perisphere.

A "Tree of Life" carved from the trunk and branches of an elm planted in Connecticut in 1761 by Revolutionary War prisoners.

"Steve Brodie" jumping six times a day from a reproduction of the Brooklyn Bridge.

• • •

The most valuable wheat field for its size in the world in full growth.

Five million dollars worth of diamonds, rubies, emeralds and other gems in one glittering display.

The steel-walled bathysphere in which descent has been made miles down in the black depths of the ocean.

"Rocket gun" by which passengers will be shot to the moon, or Mars some day—perhaps.

The model of a human eye so large visitors may enter it and look out upon the Fair's busy scene just as if the eye were doing the looking.

• • •

Two hundred blooded cows being milked daily on a revolving platform.

An orange grove transplanted intact all the way from Florida.

Automobiles with living drivers in hair-raising collisions and flying somersaults.

The largest opal in the world.

An oil well in operation with real drillers in the "cast."

The largest model railroad ever constructed.

Puppets 14 feet tall dramatizing the contents of the familiar bathroom medicine cabinet.

Displays of rare orchids, renewed every three days by plants flown to the Fair from Venezuela.

The tremendous discharge of 10,000,000 volts of man-made lightning.

A Brazilian exhibit building erected on stilts.

A floor made of cotton.

• • •

Ricksha runners from South Africa six and a half feet tall and clad mostly in feathers, horns and beads.

A waterfall cascading from the high roof of a building.

Mural paintings that change their colors while you're looking at them.

Fireworks set to music in related patterns of color and light.

A city entirely populated by midgets.

An automobile speedway half a mile long on top of an exhibit building.

Mighty snowstorms sweeping down out of a clear Spring sky.

• • •

A building turned inside out with its roofbeams on the outside.

Moving chairs traveling around in a building so visitors won't have to walk.

A flight to Venus so real you'll swear you've been there and met the folks.

The tallest mural paintings in the world.

A model of New York City so large that the Empire State Building is reproduced 23 feet tall.

A sphere 200 feet in diameter seeming to revolve on jets of water, like the little silver ball in the shooting-gallery.

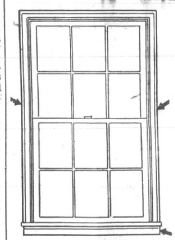
A fountain that sings.

Paintings that have to be destroyed every night and done all over again next morning.

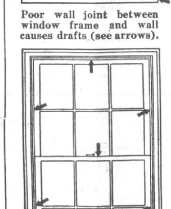
A "Fountain of the Atom," with electrons and protons dancing around a pulsating shaft of light.

EASIEST TIME TO CURE DRAFTS IS WHEN YOU BUILD!

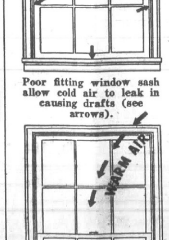
WATCH THESE THREE PLACES IF YOU WOULD STOP THEM



Poor wall joint between window frame and wall causes drafts (see arrows).



Poor fitting window sash allow cold air to leak in causing drafts (see arrows).



A single pane of glass cools warm air quickly. Cool air drops to floor causing drafts.

There is just no excuse for drafts in your new home, because drafts are definitely curable if you will watch just three places—and all three places are around your windows.

First and foremost offender in the making of drafts in your new home is the window frame. Now you've never bought window frames so you don't know anything about them and that is one reason why so many home builders have drafty windows, because they were careless about the window frame that went into their homes. Now, we aren't going to go into detail about window frames. We just want you to remember that the most important thing about a window frame is how it joins the wall. If it makes a permanent leakproof weathertight joint with the wall—fine and dandy. If it doesn't, you'll have drafts, no end of drafts. How can you make sure about a weathertight joint? Just specify that the window frames used in your new home have wide blind stop construction. This special construction should be familiar to your contractor.

Proper Fitting Necessary

Next in importance to window frame is the window sash (the part of the window that moves within the frame). Many home builders buy window frames in one place and sash in another with the result that the sash and frame never fit properly in spite of trimming and cutting on the job. And sash that don't fit properly cause drafts, and more drafts. The modern trend is towards what is known as complete window units that are delivered with frame and sash precision fitted to each other at the factory. Many of these window units are even complete with weatherstrip. In any event be sure that the window sash are fitted properly to the window frame and you'll eliminate another big source of drafts.

Glass Cools Air

Now here is the third cause of drafts. It's warm air being quickly cooled against a single pane of glass. The cold air then drops to the floor. This flow of air causes drafts. What's the cure? A double pane of glass. Some windows are made so that this double pane of glass fits on the inside of the window, while the most common is the ordinary storm windows which are hung on the outside. Whether your double glass is inside or outside, the result is the same. The glass that is within the heated room is kept warmer by the dead air space between the double panes. Result: Warm air is not cooled so fast: no cool air—no drafts.

Springtide of Spiritual Joy

IN AN exquisite passage in the Song of Solomon, the "beloved" sings (2:10-12): "Rise up, my love, my fair one, and come away. For, lo, the winter is past, the rain is over and gone; the flowers appear on the earth; the time of the singing of birds is come." However variously this passage may have been interpreted, we may perhaps be permitted to see in it, for us, a hint of the call of divine Love to love in the human heart to awake from the dream of life in matter, to see the ever-appearing freshness and beauty of true being. Among the seasons, each of them bringing its wealth of beauty and variety, spring is thought of by many, especially by those who are acquainted with the rigors of winter, as the season eloquently illustrative of the awakening of new hopes, aspiration, courage, and inspiration.

Mary Baker Eddy, who was a lover of nature in its various forms, in a beautiful article, "Voices of Spring," in "Miscellaneous Writings" has written (p. 329), "Spring is my sweetheart," using a metaphor which points to the ever-awakening of love, of gentleness, tenderness, sympathy; and she adds that its "voices are sad or glad, even as the heart may be restoring in memory the sweet rhythm of unforgotten harmonies, or touching tenderly its tearful tones." Thus does love mingle with love in all the sympathetic interests of the human experience. How the ever-recurring expression of love, in families and among friends, sweetens human lives, brightening the heart's harmonious meditations! Are they not easily likened to the return of springtime, after the long chill of winter? And even in those climes where summer abides through most of the year, the loveliness of the verdure only more continuously reminds one that "flowers appear on the earth; and the time of the singing of birds is come."

So, in our daily experiences, even though at times there may seem to be the chilling clouds of depression, the voice of Love is ever calling to spiritual sense, "Rise up, my love, my fair one, and come away;" and in obeying the call we shall "come away" from the dream of life and intelligence in matter, away from the beliefs of mortal discords, and see, through enlightened spiritual vision that "flowers appear on the earth," that in every experience we may rejoice in the beauty and the harmony of the real and eternal. There is no dearth of beauty, freshness, and goodness in the reality of spiritual being, no lack or loss, no chilling discords, no absence of Love and its loveliness.

If, however, in the dream of material experience, there seems to be some reason for sadness, then indeed "the time of the singing of birds" is come; then should we lift our hearts in songs of gratitude for the ever-present harmony of real being, of life in infinite divine Love. . . .

How swiftly "the long winter of our discontent" melts into the springtide of joy and gladness, when we obediently respond to the call of Love, "Rise up, my love, my fair one," for love, reflecting Love, God, is indeed fair and beautiful, peace-bringing and satisfying! Now, what is one to do about the difficulties, the wrongs, the sorrows, which seem ever to haunt the footsteps of the human family? In the article mentioned above, Mrs. Eddy refers to these things and to the lessons in spiritual overcoming to be gleaned from them, and she asks (Miscellaneous Writings, p. 331): "When downtrodden like the grass, did it make them humble, loving, obedient, full of good cheer, and cause them to wait patiently on God for man's rich heritage,—dominion over all the earth'? Thus abiding in Truth," she assures us, "the warmth and sunlight of prayer and praise and understanding will ripen the fruits of Spirit, and goodness will have its springtide of freedom and greatness." . . .

Tipton

The Ladies Aid Society met Wednesday afternoon with Mrs Lester Munger. During the business meeting it was voted to give $10 to the Red Cross. Mrs Harriett Pawson was appointed chairman of the Red Cross for Franklin township. Supper was served by Mrs B. E. Derby and her committee.

Mrs Fred Davis attended class day exercises at the Ford high school at Macon Wednesday evening, her niece Bonnie Jeanne Hall being a member of the class.

Mrs Chester Baker planned a surprise party Thursday afternoon in observance of the 11th birthday anniversary of her daughter Shirley. Games were enjoyed and refreshments including a birthday cake were served. The guests included Joan Church, Peggy Ladd, Marjorie North, Juanita Richardson, Phyllis Jean Kahle, Gloria Mae Simmons and Carolyn and Shirley Baker. Shirley received several gifts.

Mrs C. A. Hardy entertained a group of boys at a party in the woods Thursday afternoon in celebration of the eighth birthday anniversary of Charles Staples. Games were played and refreshments were served. The guests were Henry Sneyd, Bruce Baker, Richard Kahle, Able Hunt and Kenneth Swarts. Charles received several gifts.

Mr and Mrs William Palmer were pleasantly surprised Thursday evening when 15 relatives and friends came to their home to help them celebrate their 50th wedding anniversary. The occasion also was the 73rd birthday anniversary of Mr Palmer and the 19th birthday anniversary of Miss Arline Rosenberg of Adrian. The evening was spent socially and refreshments were served at a table centered with a handsomely decorated cake.

The Tipton Money Makers held a meeting Monday evening at the home of Jimmy Ladd. The local leader, Herbert Fisher, reported on the history of 4-H clubs and members discussed articles taken from the two 4-H club magazines "4-H Horizon" and "The National 4-H Club News."

NEW SOCIAL EVENT

SEBEWAING (MPA)—A new social event was held here when Mr and Mrs Barney Rothfuss were tendered a surprise housewarming recently. They were presented with a flock of chickens and several bags of feed. The local newspaper termed the party a "chicken shower."

NO, POLLY DOESN'T

EDMORE (MPA)—Polly want a cracker? Not the parrot owned by Mr and Mrs Bert Brooks. What he wants is a finger. That's probably why the bird bit Tom Huyck, local farmer, on the right hand as he was feeding it. Huyck was treated for infection.

HAS OLDER SKATES

OLIVET (MPA) — When an Eaton county man revealed last winter that he owned a 54-year-old pair of skates, he met some competition. Walter Grant, Kalemo township farmer, has a pair of ice skates used by his father that are 70 years old, and another pair he used himself as a boy 60 years ago.

Teachers of Makhach-Kala, Daghestan, in Russia, have organized a sports club.

Onsted

The Cambridge Ladies Aid is meeting today at the home of Mrs Verne Drake for regular monthly meeting and potluck supper.

More than 225 children were enrolled for the Bible school during the past week. The school was conducted by Rev. F. D. Hague assisted by 22 teachers. The closing exercises were held Tuesday evening.

Charles Hague, with his sister and mother is moving from Sylvania to the Valley Farm which he purchased last year.

Word is received here of the recent death of Mrs Erwin Hale of Bowling Green, O., mother of Miss Beatrice Hale who purchased the Fred Dermyer farm a few years ago.

Mrs Harold Hoxie and sons of Waterloo, Ind., visited relatives here the past week.

Mr and Mrs Byron Osborne of Weston are at the home of Bernard Hicks.

Mrs Etta Hawkins has been spending several days with her son at Jasper.

Mr and Mrs Bernie Hague have moved to an apartment in the Wm. Sayers home.

Mrs C. A. Des Ermia has been laid up several days with a sprained ankle.

Onsted Grange met Friday evening for work in the third and fourth degrees by the Adrian Grange.

MAKES REAL FIRE

VASSAR (MPA)—A cottonwood tree recently cut on the John Bearss farm would make a real bonfire. Too thick to be cut with a saw, the tree trunk had to be notched with an axe before it could be felled. The trunk and main branches contained 22 cords of stove wood.

PIKE WAS HUNGRY

WHITE CLOUD (MPA) — Rowland Hawley caught a two-pound pike that must have had a giant appetite. When he cleaned the fish, he found inside it 33 minnows. There were 20 blue gills, two wall-eyed pike, two black bass, and nine unidentified fish.

MAIL IS COSTLY

FERNDALE (MPA)—A firm in Bangkok, Siam, bought a setting of 15 hen's eggs from a local man, and paid more for postage than for the eggs themselves. Eggs cost $10, and air mail postage cost was $34.10.

HERD IS HARD HIT

MENDON (MPA)—When a herd of 26 young cattle wandered onto railroad tracks near here recently, a train struck one. After reporting the accident, the train continued. When it had gathered full speed it again ran into the herd, hitting 16 cows, of which 15 died.

The Trend of Things

SKETCHED IN THE MERCHANDISE MART, CHICAGO

Subdued femininity is a distinguishing feature of suits, dresses and play togs for the spring and summer months. Tailored, dressmaker, costume—all three types will be fashionable in suits. The classic mantailored suits have sleek but not severe lines. Revers are narrower, closing higher, while the jackets are longer. Jacket dresses seem tagged for popularity. Fullness in skirts remains but starts from the hipline. A "cover up" trend is noticeable in play clothes with some "outfits" made up of bra, shorts, skirts and suspender skirt.

"A PENNY A MILE THROUGH ADVERTISING"
*Says Gas Station Man**

"Advertising Gives You Better Gas for Less Money"

"You see that gas pump? Well, every gallon of gas coming out of that pump is good; and what's more, you know it's good. That's largely because the company whose gas I sell advertises. That company has developed a reputation for selling a product of high quality. It has improved its product from time to time, and has told you about the improvements through advertising . . . Today, you know that you can go into any gas station where that company's sign appears and get the standard products—of the same high quality that it is in every other station selling that gasoline. Now, that's confidence, and you have it because the company's name and reputation for selling a sound product is known to you, and is constantly kept before you, by advertising . . . Nowadays, your gas costs you about a penny a mile, probably less than that. Do you think you could get good gasoline so cheap if there wasn't any advertising done by motor car and gasoline companies, by chambers of commerce, resorts, and other advertisers to make you want to go places and see things? I don't think so, Mister—that wouldn't make sense to me."

CHURCH SCHOOL HONORS PUPILS

AWARDS ANNOUNCED BY ST. PETER'S AS SESSIONS END FOR THE SUMMER

Last Sunday, all of the departments of St. Peter's Episcopal church school met at 11:15 to worship with the adult congregation, Closing exercises for this school year were held and the distribution of awards was made. The following pupils received gold pins for having had perfect attendance during the past year: Katherine Ann Sisson, Dick Hubbard, Perry Satterthwaite, Dorothy Van Geison, Hugh Des Ermia, Bob Randall and Jocelyn Anderson.

The following received bronze pins for having had three or less absences in attendance: Irma Brodlier, Russel Hubbard, Patty Wilson, Lee Clark, Jim Murphy, Jim Spooner, Ruth Schneider, Jean Hubbard, Bill Brown, Karl Schneider, Nancy Randall, Irene Hammel, Jane Van Tuyle, David Van Tuyle, Keith Des Ermia, Alice Rumpf, Camilla Satterthwaite, Virginia Hubbard, Bob Wilson, and Dick Hammel.

Three pupils enrolled too late in the school year to be eligible for pins. However, their excellence in attendance earned for them honorable mention. Their names are as follows: Richard Haight, Jerry Murphy, and Caroline Phibbs.

In each class of the junior and senior departments an award was given to the pupil who had done the best work, and honorable mention was given to the pupil next highest. This was based on note book work, mid-year tests, and a final examination. The work of the following pupils was thus recognized, the first pupil named receiving the award and the second person honorable mention:

Mrs. Schneider's class, Jane Van Tuyle and Patty Wilson; Mr. Van Tuyle's class, Dick Hubbard and Bob Randall; Mr. Laidlaw's class, Perry Satterthwaite and Jack Brown; Mrs. Lindbert's class, Dorothy Van Geison and Vivian Clark; Mrs. Green's class, Camilla Satterthwaite and Virginia Hubbard; the rector's class, Dick Hammel and Bill Van Tuyle.

Every pupil in the primary department received a Life of Christ as a momento of his membership this past year in the church school. Likewise the teachers and officers of the school received a gift in appreciation of their faithful services.

Except for the summer recess of the church school, the other Sunday services will continue as usual: 8 a. m. Holy Communion, 11:15 a. m. morning prayer with sermon. The regular sessions of the church school will be resumed next September.

STORM PLAYS PRANKS

BANGOR (MPA)—During a recent storm, a charge of lightning ripped through a light switch and receptacle cover in a Bangor township farm home, then travelled outside where it blew a board off the end of the barn and burned out one bulb of a two-blub yard light. No serious damage was done.

THE TECUMSEH HERALD

NINETIETH YEAR—NUMBER THIRTY-EIGHT. TECUMSEH, MICHIGAN, THURSDAY, JUNE 20, 1940. FIVE CENTS PER COPY.

VILLAGE VALUE JUMPS $68,150

TAX RATE OF $14.50 A THOUSAND, A 45 PER CENT INCREASE, VOTED BY COUNCIL

A tax rate of $14.50 per $1,000 assessed valuation, an increase of 45 per cent over the $10 of a year ago, was voted by the Tecumseh council, in regular session, Monday evening. This rate will return a total of $31,006.08 to the village's treasury. The tax collection will begin next month.

Tecumseh's valuation this year, as fixed by the board of review, is $2,138,350 as compared to $2,070,200 in 1939. Real estate valuation in the village this year amounts to $1,858,050 as compared to $1,786,050 a year ago, and personal property this year in the village is assessed at $285,300 as compared to $284,150 last year.

The village's tax money during the coming year, according to the council's approved budget, will be spent as follows: 7 1-2 mills to the general fund; 5 mills to the highway fund; 1 mill to the sewer fund; 1-2 mill to the water fund; 1-2 mill to the hospital bond sinking fund. This will give the general fund $16,037.62, the highway fund, $10,691.71, the sewer fund, $2,138.36, the water fund, $1,069.18, and the hospital bond sinking fund, $1,069.18.

According to the figures of the board of review, Tecumseh township's total assessed valuation this year is $2,844,300, of which amount $2,569,850 is real estate and $334,450 is personal. Last year's total township assessed value was $2,773,100.

Practically all of the township's increase in assessed value came within the village limits, the figures show. The total township gain amounted to $71,200, of which amount $68,150 was in the village. The increase, it was said, came mostly in the value of new and improved real estate.

Acting in accordance with the vote at the special election of last week Tuesday, the council voted to issue $35,000 worth of bonds, as of July 1, 1940, to defray the cost of an addition to Tecumseh hospital, nearly doubling the size of that institution. The bonds will be in denominations of $500 each, and two bonds will be retired annually. The village clerk's office and the village attorney are at work this week preparing the issuance of the bonds and as quickly as they are sold, work on the hospital improvement will begin. R. W. Herrick, president of the hospital board, has predicted that the addition can be completed and be ready for occupancy early in October.

There was little other business to come before the council besides the budget-tax rate, and the hospital bond issue. The Hayden Poultry Farms Inc., was granted permission to build a building for the purpose of operating a fattening, dressing and packing poultry station near its mill. Frank Hoekstra's request for the installation of a septic tank at his home was granted, and Harold Gorrell was given permission to operate a business at his residence on W. Logan street.

The village assessor was authorized to proceed to collect delinquent assessments against owners of land were sidewalks were repaired or renewed a year ago. Some 16 or 17 such accounts are now on the village's books, the council was told.

ATHLETIC PARK VOTER PROBLEM

PLAN OF IMPROVEMENT, SALE OF HOUSE TO BE SUBMITTED TO ELECTORS, JULY 8

Electors at the annual meeting of the Tecumseh school district will be told of some of the problems confronting the board of education in connection with the school's newly acquired athletic field, when they meet at the high school on Monday, July 8. Other matters before the assembly will be the election of a board member to succeed Ned Baldwin, whose term of office expires, and the approval of the budget for the year 1940-41.

The board, at its regular session last Tuesday evening, voted to submit to electors at the annual session an authorization to sell any or all of the buildings now on the athletic field property. The approval of the district must be received before this can be done.

The board recently has caused a survey of the site to be made and has filed an application for WPA assistance in improving the property. The WPA project calls for the spending of approximately $26,000 in grading, sodding, tiling and plumbing, including the building of a stadium and field house. Of this amount, Tecumseh's share of the cost would be about $6,000, including allowances that might be made for supervision and other aid. The board, however, does not plan to spend this money in a single year, but to spread the cost over a longer term. It was, however, necessary to set up the entire cost in the WPA project before it could be considered.

Some members of the board believe that buildings now on the athletic park site should be disposed of, and for that reason the authorization from voters to sell a house on the property is sought. It is contended that the house, in its present location, is a hinderance to the proposed improvement, and the board does not own suitable property for its relocation.

The entire plan of the improvement will be explained to the voters when they gather for the annual meeting, including the WPA project. It was said that should the WPA look favorably upon the proposal, it would be late in July before the work could begin.

The athletic park was purchased on the authority of the voters at a special election last November. The site cost the district $6,200, and is a natural amphitheater, located just north of the high school building.

The board canvassed the school census here, recently completed showing 682 pupils of school age in the district. This is an increase of 28 over a year ago. The resignation of Miss Helen Kline, a high school teacher, was accepted, and W. L. Berkhof, superintendent, announced that he had hired Neville L. Hart of Menominee, as commercial teacher here next year succeeding Mrs. Clyde Way.

Mr. Hart is a graduate of Ferris Institute, and holds a bachelor of science degree. He was head of the commercial department of Jordan College, Menominee, for two years, and for the past two years has held a similar position in the Menominee high school. He also served as assistant football coach and will assist Berkhof with athletics in Tecumseh. Mr. Hart will move his family here sometime in August.

A communication from the State Department of Education, Lansing, addressed to Mr. Berkhof, was read into the minutes as follows: "Your self-survey of instructional program for 1939-40, indicates that several fine educational practices have been taking place in the public schools of Tecumseh. It is evident that you have emphasized projects designed to further community school development and relations with the public; that provision has been made for the education of adults, and that you are enlisting community support for a study of educational needs within the community. You are to be complimented for having a broad program of studies."

The guidance program for students, developed by Mr. Berkhof during the past year, is to be further developed this year, the board said, and to provide time for this the hours of the high school groups will be extended by 30 minutes.

ROTARY CLUB MEETS

The regular meeting of the Tecumseh Rotary club was held on Tuesday at the Boston restaurant. The program time was given over to a discussion of ways and means of improving the public school's recently acquired athletic park, and the discussion was led by W. L. Berkhof, superintendent, and John Larsen, a member of the board of education.

Raising Of Roses Is The Summertime Hobby Of Local Laundryman

Removing the stain and soil from a hard boiled shirt or lace table cover may have its financial remuneration, but when Lester Rogers, operator of the Tecumseh Laundry, seeks relaxation he turns to his rose garden at the rear of his home at Evans and Pottawatamie streets.

Few people in Tecumseh, perhaps, realize that Mr. Rogers has one of the finest rose gardens in this county, and that for several years he has made a study of the flower in an effort to produce blooms that will rival the hothouse variety. This year, Mr. Rogers has about 150 blooming bushes, including the famous "Will Rogers" and "Shirley Temple" varieties. The Rogers bloom is a deep crimson, and the flower has the appearance of velvet or suede. The Temple bloom is extra large, and is white. There are done in of other roses in the garden, some with choice American names, others of the foreign variety.

"It's just a hobby," Mr. Rogers says about his garden. "I like roses, and always have, because I think they are the most beautiful of all flowers. I began raising them several years ago, but a year ago I bought several dozen new bushes."

Roses require an unusual amount of care, and in another year or two the Rogers garden will be much more beautiful than it is now—because its owner understands how roses should be grown.

BOYS' STATE TO OPEN JUNE 20TH

ERNEST OLIVER AND BILL LEONARDSON NAMED TO REPRESENT THIS COMMUNITY

Two boys will represent this community at the third annual Wolverine Boys' State to be held June 20-28 on the Michigan State College campus in East Lansing, it has been announced by Ray Sluyter, commander of the Underwood-Orr post of the American Legion. The local boys are being sponsored jointly by the Legion and Rotary Club.

Boys' State is sponsored by the state department of the American Legion, under general chairmanship of Carl Matheney of Detroit. Service groups and patriotic organizations throughout the state are cooperating.

Local boys who will go to East Lansing are: Ernest Oliver, son of Mr. and Mrs. Ralph Oliver and Bill Leonardson, son of Mr. and Mrs. Faunt Lenardson of Tipton. Both the local high school students.

When they assemble in East Lansing, more than 900 boys from every county in the state will be divided into cities and counties, and the entire group will comprise Wolverine Boy's State. For eight days they will conduct affairs of the mythical 49th state, electing their own governor and state officers, as well as county and city officials. Courts, law enforcement agencies, and legislative bodies will be set up by the boys, who will operate them under supervision of a specially chosen counsellor staff.

Boys' State citizens will conduct a government of the state, a junior common-wealth with a free hand, counsellors serving mainly in an advisory and guidance capacity.

Besides the training in citizenship and government, the Boys' State program includes tours of the Michigan State College campus, Lansing industrial plants, and the state capitol. Boys will also have use of college athletic facilities.

Rather than supplanting any part of school curriculum, Boys' State gives leading young men in a community opportunity to put into practice some of the things learned in the classroom.

PRODUCTS FORMS TEN YEAR CLUB

COMPANY OBSERVES ANNIVERSARY WITH BANQUET; NEW $8,000 OFFICE COMPLETED

The Tecumseh Products Company, an enterprise that in a single decade has grown to become the largest independent manufacturer of refrigeration units in the entire world, last Friday celebrated its tenth anniversary with the organization of a 10-Year Club for its employees, and a dinner-dance in the gymnasium of the high school attended by approximately 100 couples, including sales representatives and their wives from seven of the nation's largest industrial centers.

Simultaneously, it was announced that the company had completed its new $8,000 office building, adjoining the factory structure on the north, and that it would be ready for occupancy next Monday morning. The new two-story brick building, 30 by 91 feet, is large enough to provide offices for all departments, and will relieve much of the congestion heretofore felt in the sales and engineering divisions of the factory.

The Products company had its inception in Hillsdale and was moved to Tecumseh six years ago. At that time it employed approximately 200 persons. The popularity for its precision-built refrigerator units has grown by leaps and bounds, and its payroll this year listed nearly 900 employees. During the past three years it has been necessary for the company to expand by building two large factory additions, and in 1939 it did more than $2,350,000 worth of business. The 1939 record, however, will be shattered this year, it was said, the first five months of 1940 showing a sales volume equal to that of the entire 1939 year.

The 10-Year Club, organized by R. W. Herrick, president of the company, includes all employees who have been with the organization since its inception. A meeting of its charter members was held at the factory, and Mr. Herrick presented each person with a bonus check. The members of the group are: Mr. Herrick, C. H. Giltner, L. J. Kemp, M. L. Daunells, C. F. Sage, Charles Warner, Silas Hemmingway, Jack Howard Everhart, Winthrop Winfield, Lewis Lent, Walter Dailey, Merlin Klizer, Clifton Holmes, Hoyt

FOR WHOM ARE YOU FIGHTING?

Under the above title, Hazel Zimmerman, former Tecumseh girl and now in San Francisco, Calif., where she writes for several newspapers, asks the American public if they do not realize that war is not all guns, that public sympathy plays an important part in Europe's reign of terror and destruction.

Here is Miss Zimmerman's editorial:

Oddly enough, everybody is fighting this war. Those in it, yes, those out of it even more. Strangely enough almost every American is fighting for Hitler.

Does that amaze you? Listen to them on any street corner in any city or village in America...what are they saying? That Hitler is winning...can win . . . has won! That's fighting this war for Hitler. That's accepting Hitler's program of propaganda . . . hook, line and sinker. The only redeeming feature is that these street corner orators always add, "It's unthinkable!" Certainly it is . . . Then why think it? You can stop fighting Hitler's war right now . . . you and you and you . . . You can begin to believe in the Allies . . . in England and in France . . . you can begin to believe in their manpower, in their great resources, in their monetary power, in their economic strength, in their determination to win. But more, much more, you can begin to believe in their purpose . . . in their courage . . . in their victory!

You can fight on the side of right today and every day, if you will in heart of hearts hold to the relentless truth that right is always the victor in the end . . . that evil travels but one path . . . the path to its own destruction. Every Goliath looks pretty formidable to every David . . . but the Davids never back down . . . they can't, because right is their backbone . . . Americans can't afford to have a soft backbone . . . to do any verbal backing down for England and France . . . that is Hitler's aim . . . not ours.

Recently England and France gave us a sharp lesson in behavior. While the state of our markets put needless fear and panic into play, the London and Paris markets were quiet, steady, firm . . . and it's their war! Theirs and ours too when it comes to thinking straight.

Do you know the names of the commodities most in demand today? . . . Confidence, faith, trust. Do you know the name of the stock that will pay you the best dividends . . . A stock of courage. No sword has ever prospered against these.

This is a time in which to recall David's reply to Goliath: "I come to thee in the name of the God of the armies of Israel whom thou hast defied." This is a time in which to hold to this age-old counsel: "Be not faithless . . . but believing."

Michigan Mirror

Non-Partisan News Letter

LANSING, June 19—The shadow of labor discord has appeared again in Michigan.

Coming at a crucial time when the United States government is leaning heavily upon our industrial plants for armament, a threat an production output could easily become a national affair.

The situation is something like this:

(1) The C.I.O. is fearful that industrialists may seize upon the preparedness issue as a pretext to deny them the "right" of higher wages—and the "right" to strike for them.

(2) Industrialists recall the activity of communists in the 1937 sit down strike, and they insist that unions shall give a five-day notice of strike only as a last resort in negotiating grievances. They want authority also to dismiss employees, alien or otherwise, whom they believe to be involved in sabotage.

(3) Commissioner Oscar G. Olander of the state police says 100 additional men are needed to investigate "hundreds of reports of subversive activities in this state." While Olander did not divulge where the additional men would be detailed, it is understood that officials are apprehensive that sabotage may hinder production of important war orders.

(4) And, this being a democracy, don't forget this one: National and state elections are due to be held next November. That means votes and lots of them.

Dictatorship

With the European war possibly coming to our shores (this is believed inevitable should England move its capital to Canada), Michigan's automobile plants occupy key positions in the national defense of the United States.

Our involvement in the war would probably evoke a war-time dictatorship. Rights of management and labor could be limited drastically by federal decree, all in the interest of national security.

Hence the peace-time actions of industrial labor leaders and workers in the rank and file may prevent or invite stern war-time regulation.

The alterative would be to risk the price paid by France where production of necessary war supplies even two years ago was insufficient to meet urgent needs of national defense. In a remarkable report to the president of the French Republic on Nov. 12, 1938, MM. Deladier and Reynauld declared:

"The gravest failure, from which the others follow, has been the persistently low level of production . . . If production is insufficient it is primarily because its possibilities of development have been paralyzed.

"The idea of a reduction in the length of the working day has been entertained on the assumption that, as a result of increased efficiency of labor and more intensive use of machinery, the same output could be obtained with fewer hours of work.

"But the efficiency of labor has not increased and the hopes founded on technical improvement have not been realized. How could it have been otherwise, when the majority of factories and shops were closed two days out of seven?"

Joint Responsibility

In this new period of national emergency—and signs already point that it has arrived—special responsibilities rest upon management, capital and labor.

Mr. Reynauld, co-author of the 1938 report, was until Sunday Premier of France.

Like Winston Churchill, he bore the heavy task of trying to overcome the dreadful waste and lost time in the years prior to the war.

In the light of French experience, it is clear that every element of our population may be called upon for new sacrifices—perhaps by longer working hours, perhaps by heavier taxes, and perhaps by postponing the satisfaction of former wants in favor of present wants of a more urgent nature.

In a democracy such as the United States and in a state of advanced technological development such as Michigan, the challenge of 1940 is whether we can solve the problem of defense as efficiently as a totalitarian state. Cooperation of capital and labor will be put to a new test. Upon the success or failure of this teamwork depends the security of millions.

Ford, Peace Apostle

Henry Ford, America's outstanding genius of mass production, financed a "peace ship" to Europe in 1916.

When this nation entered the conflict, Ford swung his huge plants into the manufacture of tanks, submarine chasers and ambulances.

Still an apostle of peace, the Dearborn manufacturer a few weeks ago received world-wide attention when he declared in an interview that the Ford organization could produce 1,000 airplanes a day through mass production methods "if" he were guaranteed of no governmental "meddling"—presumably by the National Labor Relations board.

The army department rushed one of the latest models to Dearborn for Ford engineers to examine.

Because Ford's management policies have always been liberal to labor, the C.I.O. has been unsuccessful to date in efforts to unionize Michigan plants. How popular the automobile maker is with labor was revealed recently by a Gallup public opinion survey which placed him high up on the list—along with John L. Lewis.

CCC Youths

Non-combatant military training in the CCC camps in Michigan appeared to be a probability as Congress rushes plans to integrate federal relief and national defense.

The youths would not be trained with guns for military combat, but they would be given instruction in bridge and road construction, cooking, first aid, radio, photography and mechanical work. The camps may help to train young men for industrial employment in an effort to break the present bottleneck due to lack of machines and skilled machinists.

The NYA camp at Cassidy Lake (between Ann Arbor and Jackson) is already training young men in vocational fields such as aviation and automobile engineering.

Michigan national guardsmen will train this summer at Sparta, Wisconsin, and at Grayling. The CCC camps would "prove valuable assets in case of mobilization," it was stated at Washington by Gen. George C. Marshall, army chief of staff.

G-Men in Michigan

Federal investigators of the department of justice have developed leads in Michigan "as challenging as those we received in Louisiana," so admitted O. John Rogge, assistant United States attorney general, in Detroit.

The Louisiana inquiry consumed eleven months before the lid blew off.

The Associated Press intimated that the federal grand jury was looking into charges of graft in connection with liquor dealings.

After Wayne county's mess involving the sheriff, prosecuting attorney, and a couple score of policemen, the prospect of a Louisiana-style scandal being uncovered in Michigan fairly takes your breath.

The Washington probe may end in indictments of a startling nature.

DOG IS CONDEMNED

ST. LOUIS (MPA) — "Laddie," a valued collie dog owned by Miss Martha Carlson was "condemned" to death by Justice J. L. Smith recently after testimony on the dog's deportment was taken in his court. The collie was "paroled" at a similar hearing last year.

"Is the Universe, including Man, Evolved by Atomic Force?" will be the subject of the Lesson-Sermon in all Christian Science Churches throughout the world on Sunday, June 23.
The Golden Text (Amos 4:13) is: "Lo, he that formeth the mountains, and createth the wind, and declareth unto man what is his thought, that maketh the morning darkness, and treadeth upon the high places of the earth. The Lord, The God of hosts, is his name."
Among the Bible citations is this passage (Psalm 19:1): "The heavens declare the glory of God; and the firmament sheweth his handywork."

Women's coats for spring and summer months are designed to follow the natural lines of the body. The shoulder line is smoothly squared—flattering but not accentuated. Fullness starting at the hipline gives a longer, smoother waistline than last year's coat. Multicolored flecks and over-size bold plaids in blacks, blues and greys will be fashion leaders.

"ADVERTISING HAS
REDUCED
MOTOR CAR PRICES"
*Says Dealer**

"Better Cars for Less Money Because of Advertising . . ."

"It wasn't very long ago, and many of you can remember, when the cheapest motor car sold for $1200 or more, the cheapest set of tires for $80 to $100. And what a car! What tires! I remember when a trip of fifty miles by motor required a big set of tools, the expectations of several breakdowns, and two or three tire changes . . . But look at the motor cars you can get today—and at the prices! They're so much better that it's just silly to compare them even with cars of ten years ago. And look how the prices have come down—almost cut in half for cars that are sweet dreams compared with the nightmares the early ones were! . . . Advertising, more than anything else, has made these new cars—and their low prices—possible. Mass production without advertising would never have put twenty-nine million cars into the hands of the American people. Who wants to buy a car he doesn't know anything about? And how could I—or any dealer—get around to tell *everybody* about the cars I sell? Advertising has done that job. It has been largely responsible for selling these millions of *better* cars at *lower* prices—for selling better gasoline, tires, service and parts for less money—and, indirectly, for the greatest system of roads and more traveling by more people than the world ever knew—or thought possible—before."

It was announced that the 10-Year Club will hold annual meetings, and that each year other employees who are eligible to join the group will be admitted.

The annual meeting of the sales organization of the company began here last week Thursday and continued throughout Friday and Saturday. The sales directors from other industrial centers, here for the meeting, and who were accompanied by their wives, are: George I. Boone, New York City; J. A. McLaren, Los Angeles; D. P. Heath, Detroit; Gail Halliday, Denver; J. E. Parker, Atlanta; D. J. Bowen, Dallas; E. O. Burgin and V. A. Wilkinson, export department, Detroit; Marc Schantz, Chicago.

The sales representatives conferred at several meetings with Mr. Herrick, and C. M. Brown, general manager, F. K. Smith, sales manager, and Jens Touborg, chief engineer, of the Refrigeration Sales & Engineering Division of the company.

The dinner-dance, in the high school on Friday evening, was one of the largest and prettiest social functions ever held in Tecumseh. The gymnasium was beautifully decorated with American flags, silk drapes and palms, and the five course dinner was served at carefully appointed tables. Music during the dinner and for the dance that followed was furnished by Del Delbridge and Ray Gorrell and their orchestras of Detroit, and there was a floor show that included half a dozen acts of vaudeville from metropolitan stages. Because it was Flag Day, the program took on a patriotic air, the programs and place cards being printed in the national colors. Delightful favors were presented to each of the ladies.

John Larsen, chairman of the banquet committee, acted as master of ceremonies and introduced Circuit Judge G. Arthur Rathbun of Adrian, the toastmaster. The Rev. Edward Green of St. Peter's church asked the invocation.

Visiting sales directors and officers and directors of the company were introduced and there were short talks by Mr. Smith and Mr. Brown of the Sales and Engineering division, Charles Bartow and J. E. Keene, Detroit bankers, also spoke, as did Phil Redecker, managing editor of Air Conditioning and Refrigeration News, of Detroit. John R. Adams, business manager of the News, and Mrs. Adams, also were guests.

Karl M. Schneider, president of the village, officially welcomed the guests, and there was a touch of humor when Bob Hall, Detroit's rhyming radio reporter, added his bit to the program.

Mr. Herrick, in brief, well chosen remarks, expressed his appreciation to the company's employees for their fine spirit of loyalty and cooperation, declaring that the progress that the firm has made is not due to any single person, but rather to the cooperative effort of the entire personnel.

Officers and directors of the Products Union of Tecumseh, and their wives, were guests and introduced.

Officers and directors of the the company are: Mr. Herrick, president and chairman of the board, C. F. Sage, vice-president, C. H. Giltner, vice president, A. L. Dannells, secretary, B. T. TurnBull, treasurer, J. Keane, and C. A Conklin. Mr. Conklin, because of illness, was unable to attend.

The dinner-dance committee was made up of Mr. Larsen, O. W. Farver, E. E. Berry, Paul Breitenwischer, L. Kemp, C. F. Cederquist, L. W. Larsen, Carl Foshender, H. Everhart, Lyman Curtis and J. H. Anderson.

On Thursday Mrs. Jens Touborg, Mrs. F. K. Smith, Mrs. C. M. Brown and Mrs. L. W. Larsen jointly entertained the wives of the sales representatives and a group of friends at a dessert bridge at the Touborg home on West Pottawatamie street. Mrs. C. O. Butler, Mrs. O. W. Farver, and Mrs. R. W. Herrick were awarded honors at contract and the traveling prizes was awarded to Mrs. Dale J. Bowen.

The out of town guests were Mrs. G. I. Boone of New York, Mrs. J. E. Parker of Atlanta, Ga., Mrs. J. W. Beneke of St. Louis, Mo., Mrs. J. A. McLaren of Los Angeles, Calif., Mrs. Marc Schantz of Chicago and Mrs. Bowen of Dallas, Texas.

Communication

June 19, 1940

To the Editor:

I wish to congratulate you for the stirring editorial which appeared in last week's issue of The Tecumseh Herald. All Americans are greatly alarmed over the situation in Europe. Why and how events over there could shape themselves as they did has become our most popular topic for conversation. Simultaneously many of us are expert in criticizing policies and officials alike of our own democratic form of government in its various branches and jurisdictions.

Every citizen, of course, is entitled to think as he will on such subjects and give utterance to his thoughts. However, if he fails to exercise his right to vote, any other expression of his opinion on public business is only "sounding brass, or a tinkling cymbal."

The cause of democracy will be greatly accelerated and the rising tide of totalitarianism stemmed when the average citizen does less fault-finding and speculating, and develops a constructive intelligent interest in the American Commonwealth which he readily articulates through the ballot.

Incidentally, it might be opportune now to remind your readers of the Annual School District Meeting and Election which will be held in the High School on Monday evening, July 8. Education in our country is an integral part of our democracy and should receive the attention of everyone. Yet the attendance in the past at our School District Meetings held here suggests that the overwhelming majority of our citizens feel that they are solely the affairs of the School Board and those who read the reports. Perhaps that error or indifference can be rectified if adequate advance notice is given.

Edward R. A. Green.

Fire Bug Hunted by State Police In $10,000 Downtown Store Blaze

ROSACRANS STORE BADLY DAMAGED BY SMOKE AND WATER IN BLAZE ON WEDNESDAY

State police and local authorities believe that a fire bug is operating in Tecumseh, and that it was he who, early Wednesday morning, started the blaze in a pile of kindling wood in the basement of the Fred Rosacrans & Sons store, that did damage estimated at more than $10,000.

As a result of the Rosacrans fire, it is likely that state authorities will begin a rigid investigation of five blazes here within the past three months, in an effort to learn if they were not started by a pyromaniac. Four of the five fires under investigation were in the downtown district, and in the aggregate the loss will exceed $76,000.

Other fires under investigation are:

The Chief Hotel-United Savings Bank fire, last April 26, at the corner of Chicago boulevard and Evans street, directly across the street from the Rosacrans store. In this fire the loss was near $40,000.

A fire at the McCoy-Braun buildings on East Chicago boulevard, previous to the hotel-bank fire.

A blaze that started in the coal bin at Witherell hall.

A fire at the Tecumseh Sand & Gravel Company's plant.

There is little doubt in the minds of the officers but that the Rosacrans store was fired, as well as the gravel company's buildings. The fires in the McCoy-Braun buildings, and the hotel-bank building started from unknown causes in the basement, as did the Rosacrans fire.

State police, including Trooper Cook, a deputy state fire marshal, spent considerable time in Tecumseh yesterday investigating the Rosacrans fire. Trooper Cook declared that he could see no reason for the Rosacrans fire other than that it was "set."

The officers also are investigating the breaking of a lock on the east door of the Rosacrans store, which would have given a fire bug an entrance to the building. The door was locked with a night lock and this had been forced, state police believe. The open door was found soon after the blaze was discovered, and Trooper Cook says that he has been unable to find that it was forced open by firemen.

Officers are working on the theory that the door was forced open after 5 o'clock yesterday morning, when it was "tried" by Patrolman Wilson, and found properly locked. The officer also tried the front and rear doors of the store and these were secure.

Police believe that it would have been an easy matter for someone to have entered the store through the east door, and to have gained admission to the basement where the fire was started.

The Rosacrans blaze started in a neatly-piled lot of kindling wood along the west wall of the basement of the store. It burned its way to the first floor and into the wall where notions were on display. It spread rapidly, destroying some of the shelves and merchandise.

The fire was discovered by Henry Van Duzer, firetruck driver, who was sweeping the sidewalk in front of the engine house at 7:15 Wednesday morning. He saw smoke coming from the basement windows of the store and immediately turned in an alarm.

Local firemen did an excellent job in halting the blaze before it spread through the first, second and third floors. Leon Rosacrans, owner of the store, was notified immediately at his home and he unlocked the Chicago boulevard door of the store, which was entered by firemen with gas masks. Other firemen took loads of hose to the basement and the blaze was under control within 30 minutes and completely extinguished soon after 8 o'clock.

The store suffered its greatest loss as the result of smoke and water. The first floor of the store was so badly filled with smoke that it was impossible for firemen to enter without masks. The smoke spread to the second floor, where the offices of F. C. Hanna, A. O. Edward and Dr. Rehner are located. The third floor of the building is unoccupied.

Mr. Rosacrans said that it was impossible for him to know the amount of his loss until after the stock had been checked. He estimated, however, that it would be about $10,000, covered by insurance. The damage to the building was not estimated. More than three feet of water filled the basement.

Officers say that they can see no reason for the fire other than it was the work of a "bug." The forced door makes their theory logical. The store's furnace had not been used for about two weeks.

Mayor Karl M. Schneider said that state police had recommended to him that the village's night police force be augmented in an effort to check a further spread of fires through the operation of a pyromaniac. Mr. Schneider said that the state's recommendation would get serious consideration.

After Whitaker's arrest the car was returned to Mr. Lancaster and the $90 was returned to the farmer.

POOR FISHING REPORT RETURNED BY ANGLERS

The pandish and bass season opened in southern Michigan on Tuesday and scores of anglers from Tecumseh and Lenawee county were on nearby lakes to celebrate the occasion.

Reports locally are to the effect that fishing was poor on the opening day, veteran anglers blaming stormy, cold weather for the lack of strikes. A few oldtimers said that they caught a dozen or more fish during the morning hours, but the "limit" stories were not heard.

Bass fishermen said that the big ones "just refused to bite," and but a few legal size bass were caught.

GRADING PLANT FOR LOCAL EGGS

FEDERAL-STATE PLANT TO BE OPENED IN TECUMSEH BY HAYDEN FARMS

Tecumseh is to have a federal-state egg grading station, which will be in operation this coming week.

A. B. Horton, who has had considerable experience in the marketing of eggs, is the proprietor of the business, which will operate as Hayden Poultry Farms. For a time, it will occupy one of the buildings owned by Hayden Flour Mills, Inc., in Tecumseh.

"The passage of the Michigan egg law," according to Elmer Beamer, state commissioner of agriculture, "was one of the most constructive things that has been done for Michigan agriculture in recent years. The effectiveness with which the federal-state grading plan has been administered has been very satisfactory.

"In January of 1939," said Commissioner Beamer, "when there were only three egg grading stations in Michigan, 208,860 dozen eggs were graded. On June 1, 1940 the number of grading stations had increased to thirteen with 400,000 dozen eggs graded.

"Retailers of eggs are finding that, in order to comply more easily with the state egg law, it is more practical to sell eggs that have been graded at one of these stations. Poultrymen who take their eggs to these stations receive higher prices for their best eggs.

"This provides," according to Mr. Beamer, "an incentive for farmers to produce better eggs, and the consumer also reaps the benefit of knowing what he is buying. In 1939, the poultry and egg industry in Michigan brought an income to its producers of $22,946,000."

For many years, egg producers in the Tecumseh area have discussed the marketing of their eggs under a trade-mark. When the Tecumseh Poultry Association was formed in December of 1939, with Fred Sheldon as its president, it was the desire of its membership to do anything that might further the interests of poultrymen in this vicinity.

On March 26, of this year at one of the meetings of the Poultry association, Prof. Max Moore of Michigan State College spoke on the great possibilities for increasing egg consumption providing the quality was maintained. Prof. Moore at that time mentioned that Canadians eat 367 eggs per person per year, as compared with 263 eggs per person per year in the United States. He attributed this difference to the fact that Canada has been ahead of U. S. on the marketing of eggs on grade.

The 1935 Census placed Lenawee first in the state with 726,015 chickens, Allegan county second with 716,893, and Ottawa county third with 654,800. Lenawee is now third, but with the assistance of the county agricultural agent, cooperating with the Tecumseh Poultry Association, and the federal grading service, it is hoped that Lenawee can soon return to first place.

In December of 1936 the Tecumseh Chapter of the Future Farmers of America made a livestock census in the Tecumseh area and reported that on 662 farms there were 95,281 chickens.

Virginia F. Brazee Weds Emmett E. Noggle

VILLAGE FACES SEWAGE PROBLEM

STATE DELAYS EXTENSION OF MAINS PENDING DECISION ON NEED FOR A PLANT

Further extension of Tecumseh's sanitary sewers, which now empty into the River Raisin, was ordered delayed this week by the Stream Pollution Commission pending an investigation as the needs for the building of a sewage disposal plant in this village. The state's action was taken when Tecumseh sought permission to extend its sewer mains in the Indian Acres subdivision and to the western part of the corporation.

Mayor Karl M. Schneider, Floyd Elliott, a member of the council, and Glenn Williams, village attorney, were in Lansing recently for a conference with the state authorities, and as the result, the village has asked the commission to investgate conditions here to determine whether or not a disposal plant is an immediate necessity.

The council, in special session last Friday evening, adopted a resolution advising the state that should it deem such a plant mandatory, the village would submit plans for such treatment not later than January 1, 1941, this to be followed with plans for the financing of such project sometime during that year. The cost of a disposal plant, it was said, will amount to between $25,000 and $50,000.

It is expected that the state will act at once on the village's request for a survey and if the council's resolution and proposal meets with approval authority for proposed immediate extension will be granted. Mayor Schneider said that he expected to hear from the state within a week or 10 days.

The council also authorized the sale of a $25,000 bond issue for the improvement of Tecumseh hospital, fixing July 8 as the final date for the receipt of bids.

Trustee Wagner was named as a member of the board of trustees of Tecumseh Hospital for a period of five years. He succeeds Richard F. Roe, whose term of office had expired.

Mr. Larsen will also conduct a similar service in St. John's church, Clinton, at 9 a. m. Sunday.

The rector will be absent Sunday in order to direct a Diocesan Younger Girl's Conference being held at the GFS Holiday House on Pine Lake near Pontiac. This Conference will end Saturday afternoon and conclude the following Friday night. The course being offered is based on the current vocational school manual published by the Diocesan Department of Religious Education entitled, "Mexico, Land of Sunshine and Flowers." Mrs. Green, Miss Rae Nita Larsen, and Mrs. Green's sister, Miss Mary Lent, a student at Wellesley, will also be on the staff along with three other persons from Detroit. Two local girls from St. Peter's Church school are attending this Conference, Ruth Schneider and Jocelyn Anderson.

THE HUMBLE PENNY

Quite a few Tecumseh people are inclined to look down on the humble penny and ignore it on the ground that "it won't buy anything." Now they have occasion to change their mind. A big eastern concern that does a nation-wide business in chewing gum and candy through penny vending machines has just issued its yearly report to its stockholders, and it shows that more than three and one-half billion pennies passed through those machines in a single year.

Here is proof that the penny is among the country's greatest circulating mediums, and that the individual or the company making a special drive for it can get rich. When we reflect how many newspapers the pennies buy every day, how many millions of letters and postcards it carries around over the nation every hour, then its value takes on new significance. But it takes a special report of a big concern dealing wholly in penny merchandise to make us see the tremendous buying power back of it. By itself, in these days, the penny really does seem insignificant. But there are $47,000,000 worth of them in circulation at this very minute, and that's worth striving for.

"Save the pennies and the dollars will save themselves" is a saying as truthful as if it had appeared in Holy Writ. And the happiest and wisest citizens are those who recognize it, instead of tossing the penny away as something "that won't buy anything."

THEY COME BACK

No one ever outgrows his boyhood. If he was born and grew up in a rugged, hill country he will have traces of that country in his soul to the balance of his days. The man from Texas can never be like the man from Vermont—there are always boyhood ties they cannot sever. That's why Tecumseh residents are glad when those who were born and reared around here come back for a visit. That's why the hand of welcome is always extended them—we know that there is something worth while in a heart that always retains a respect and veneration for the place in which childhood's days were spent. Maybe we are not growing up as fast as the big cities in which they now make their homes; but that doesn't matter. The man or woman whose heart is right comes back to see the places and faces they first loved.

A carpenter may have the finest set of tools in town, but that doesn't make him a good carpenter unless he knows how to use them. So it is with life. It isn't so much what we know, but how well we know how to use what we do know that counts for us in the end.

HOLLY (MPA)—Although fires in Holly aren't numerous, they seem to come in groups of threes when they do occur. LANSING, June 27—A national defense conference, designed to present a coordinated factual picture of Michigan present-day needs, will convene next Friday (July 5) at Port Huron under auspices of the Michigan Press association, state group of daily and weekly newspapers.

It will precede a visit by newspapermen and their guests on Saturday to the Canadian city of Sarnia for dinner address by W. A. Buchanan, member of Parliament at Ottawa and a Canadian newspaper publisher.

As European events unfold at a rapid tempo and the White House reveals plans for military conscription of youth, the Michigan state capital is concentrating more attention on our needs of national defense.

"We are at war" was the cryptic judgment voiced by Thomas Read, attorney general, at a special session of the state administrative board. On Wednesday, July 3, the "little legislature," officially known as the Michigan emergency appropriations commission, will meet here to provide funds to construct an anti-aircraft armory in Detroit and possibly to enlarge the state police force. However, state officials cautioned the public against hysteria.

Thus the blitzkrieg triumphs of Herr Hitler are having reactions on the every-day life of Michigan people. Once again our citizens find that it's a small world.

Leaders To Speak

National defense needs in Michigan will be outlined by the following speakers at the Port Huron conference to be held at the Gratiot Inn:

Army—Col. John S. Bersey, the adjutant general of Michigan.

Navy—Commander Broadhead, Michigan naval reserves.

Aviation—Col. Floyd Evans, director, state aeronautics board.

Highways—Murray D. Van Wagoner, commissioner, state highway department.

State police—Lieut. Harold Mulbar, deputy chief of detectives and in charge of a state police division for "fifth column" subversive vigilance.

The conference will be opened officially at a noon luncheon by Governor Luren Dickinson and will be closed at a dinner program by Everett DeRyke, American Legion state commander.

Invasion of Canada?

The jittery mental attitude of Canadian citizens—some of them at least—prompted Premier Mitchell Hepburn of Ontario to declare the other day that Nazi forces in Michigan threatened an invasion of Canada!

He said fascists awaited only a word from Hitler to shoulder arms and institute a miniature blitzkrieg across the United States border.

Fantastic was this outright intimation that Canada was in jeopardy from a "fifth column" subversive plot hatched in Michigan. (The domestic politics underlying Hepburn's remarks are that the premier at Toronto differs from the dominion premier at Ottawa on the conduct of the war; Hepburn believes that Ontario needs more home defense units.)

An invitation to Premier Hepburn to address the Michigan editors at Sarnia, and thus possibly clarify the "Michigan invasion" situation, brought a letter of regret that Hepburn was ill and his personal physician had advised against further speech-making. A member of the premier's cabinet may bring a message from Toronto to the Sarnia dinner.

"Fifth Column"

Two incidents have been reported in the press which tend to bear out the request of Commissioner Oscar Olander for 100 more state police officers.

"Fifth column" activity was suspected this month in the blaze of a freight car, loaded with General Motors engines, as a train was entering the St. Clair river tunnel between Port Huron and Sarnia. The train was also carrying munitions it was said.

During the first World war a small arsenal was uncovered in Detroit in connection with a German plot.

Gov. Luren D. Dickinson, in requesting Washington to add a mobile anti-aircraft regiment in Detroit, said: "The vital necessity of the presence of such troops in Michigan industrial area is most apparent."

While state officials generally were in agreement that Michigan should act to strengthen its national defense lines, they were not in accord as to the effectiveness of any action by the "little legislature" which is limited to unexpended funds. Officials said it may be necessary for the governor to call a special session of the legislature to revise 1940-41 appropriations.

Legionnaires

In the rank-and-file of Michigan citizens are thousands of World War veterans of 1917-18, many of whom went overseas in that well-intentioned crusade to "make the world safe for democracy."

Peace-loving in their daily life, the American Legionnaires this week exemplified a devotion to peace through sponsorship of a training school for democracy, the Wolverine Boys' State at Michigan State College in East Lansing.

Nearly 1,100 Michigan boys, each one 16 or 17 years old, have been studying first-hand the operations of democratic government. They organized a mythical 49th state, electing their own governor and members of the legislature and conducting other functions of state, county and city government.

Without a flash of the bayonet and without the snap of a military command, World War veterans have been devoting their time and talents in an idealistic effort. Training leaders of tomorrow in the cause of making democracy work is a far cry from the battlefield. It offers a refreshing contrast in America to the totalitarian regimentation of youth by Dictators Hitler, Stalin and Mussolini!

STATE FACES TAX PROBLEM

IF IT IS TO MEET THE MANY PUBLIC DEMANDS, MORE MONEY MUST BE RAISED

LANSING—Democratic government is like "Alice in Wonderland."

It is marked by conditions both contradictory and inconsistent.

Little wonder that the average citizen becomes confused!

For example:

The state of Michigan collected $124,037,881 in twelve months ending last June 30 which it promptly turned over to 83 counties. Whose money was this: State or county?

State payrolls totaled $2,372,681 more in the past fifteen months than in the same period of 1937-38, yet the increase in payrolls can be traced largely to state functions which receive substantial federal aid. Were it not for federal aid requirements, the state payroll would show a decline for 1939 compared with 1938. The increase of payrolls in federal aid departments in this period was $504,011; unemployment compensation alone was responsible for $1,250,000 of the $2,372,681 payroll increase in the past fifteen months, while employment service added $1,478,000. Only retrenchments in non-federal aid departments kept the increase from being more than it was.

The situation whereby the state returns to local governments such a staggeringly large sum of money did not develop overnight.

According to Auditor General Vernon J. Brown, the 15-mill tax limitation amendment, adopted in the depression year 1932, is largely responsible for the trend to shift tax responsibility from counties to the state. Convinced that home owners were deserving of tax relief, the legislature enacted a moratorium on foreclosure of mortgages and upon passage of the tax limitation amendment withdrew all claims to real estate taxation.

A sales tax was adopted as a substitute.

This little tax on transactions became a "hidden tax" because it was merely added to the consumer's purchase price. The consumer paid it in small dribbling amounts, a few pennies here and a few pennies there. The tax total was never apparent, and not one person in 100,000 ever took the trouble to ascertain how much these tax payments meant to his budget in a year.

Declared by some to be unfair because it imposed an equal burden on all consumers regardless of their ability to pay, the sales tax nevertheless has become popular with public officials because it has been productive of high revenue, fairly painless to the consumer, and reasonably simple to compute and to collect.

In the judgment of the auditor general whose department has an outstanding record for economy, "the most serious problem which the 1941 legislature must face will be that of either curtailing these grants . . . or to seek some new source of revenue for support of the ordinary functions of the state, leaving present revenue to be distributed to local units of government."

In Ingham county alone, the home county of the capital city, the state turned over to local governments the astounding total of $3,281,000 in the following allocations: Schools, $1,203,000; welfare, $1,192,000; highways, $681,000; health, $171,000; liquor license revenue (ostensibly for enforcement use) $29,000.

The obvious difficulty arises when pressure groups cry for more money to be returned to local governments for local services and when the state government seeks more funds to meet growing needs.

Thus, the state builds additions to hospitals but permits the additions to stand idle and unused because it lacks money to buy equipment, employ more attendants and pay higher operating expenses.

And then there is the familiar case of old age pensions for which state officials propose to add a minimum of 25,000 deserving persons to the assistance roll.

If more money could be spared, additional sales taxes could be collected by the state, so recent experiments have showed. Uncollected tax claims totaled $6,950,000 on March 1 for all state departments, and only a lack of enough auditors to investigate the cases prevents the state from getting more of this revenue for public use. Figure that one out!

In 1939 the state legislature, motivated by a belief that a lower ceiling had to be placed on medical expenditures for crippled children (probate judges having formerly had the power to authorize bills which the state was to pay), curtailed appropriations for this purpose.

Immediately the cry was raised that the administration was pursuing economy at the cost of children's lives.

The governor's office for months defended the legislative action. Only this month was a chance of heart evidenced following an annual report of the Couzens-endowed Children's Fund of Michigan in which the legislature was charged with "failure to appropriate adequate funds for the treatment of indigent afflicted and crippled children."

Here was another illustration which Auditor General Vernon J. Brown probably had in mind when he declared that the 1941 legislature must either resist demands of local governments for more tax money or must tap new sources for additional public revenue to meet its own pressing needs.

With a bookkeeping deficit of around $30,000,000 (the state having borrowed this amount from its own special funds in order to pay operating bills), the situation at Lansing is complicated further. No matter what is done, someone is sure to complain.

ried the ring in the heart of a rose in the center of a Colonial bouquet. Mrs. Brazee chose a sheer gown of blue and grey print for her daughter's wedding and the bridegroom's mother wore navy blue lace with white accessories. And each wore corsages of gardenias.

Following the service refreshments were served. The bride's table was decorated with pink and white flowers. A four tiered wedding cake centered the table with candles at each end. Several young women, friends of the bride, assisted in the serving and Mrs. Louise Bauman of Somerset presided at the punch bowl. Guests attended from LaSalle, Ohio, Ann Arbor, Kalamazoo, Detroit, Jackson, Norvell, Adrian, Wayne, Somerset and Tecumseh.
